GOVERNMENT OF BENGAL.

BENGAL LEGISLATIVE COUNCIL.

NOTIFICATION.

No. 1077L., dated the 5th November, 1917.—His Excellency the Governor having been pleased to order, under rule 31 (*1*) of the Bengal Legislative Rules, 1912, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and Statement of Objects and Reasons are accordingly hereby published for general information. It is proposed to introduce the Bill and refer it to a Select Committee at the meeting of the Bengal Legislative Council to be held on Tuesday, the 20th November, 1917 :—

THE BENGAL PUBLIC DEMANDS RECOVERY (AMENDMENT) BILL, 1917.

A

BILL

to amend the Bengal Public Demands Recovery Act, 1913. Ben. Act III of 1913.

WHEREAS it is expedient to amend the Bengal Public Demands Recovery Act, 1913, in order to provide for a more effective method of realising the contributions to the assets of a Co-operative Society under liquidation and the costs of such liquidation;

It is hereby enacted as follows:—

Short title. 1. This Act may be called the Bengal Public Demands Recovery (Amendment) Act, 1917.

Amendment of section 5 of Bengal Act III of 1913.

2. After sub-section (*1*) of section 5 of the Bengal Public Demands Recovery Act, 1913, the following shall be inserted, namely:—

"Provided that no action shall be taken under this Act on a requisition made by a liquidator in pursuance of an order under clause (*b*) or clause (*d*) of sub-section (*2*) of section 42 of the Co-operative Societies Act, 1912, unless the requisition be countersigned by the Registrar of Co-operative Societies, Bengal." [*Cf.* Bihar and Orissa Act IV of 1914, s. 5(*1*), proviso.]

II of 1912.

Amendment of Schedule I.

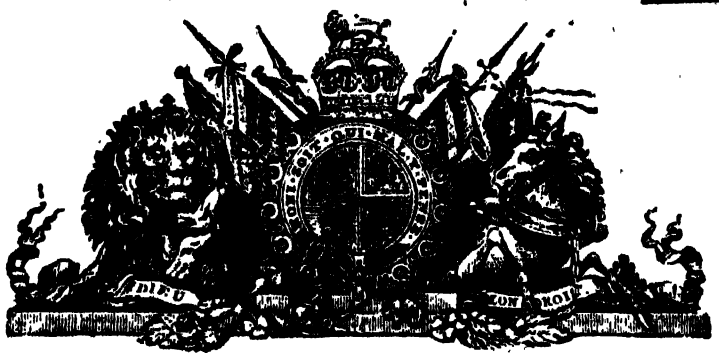
3. After article 12 of Schedule I to the said Act, the following shall be inserted, namely:—

"12-A. Any sum ordered by a liquidator appointed under sub-section (*1*) of section 42 of the Co-operative Societies Act, 1912, to be recovered as a contribution to the assets of a society or as the cost of liquidation." [*Cf.* Bihar and Orissa Act IV of 1914, Sch. I., Art. 14.]

II of 1912.

STATEMENT OF OBJECTS AND REASONS.

Under sub-section (*5*) of section 42 of the Co-operative Societies Act, 1912 (II of 1912), the orders made by the liquidator of a Co-operative Society, the registration of which has been cancelled, have to be enforced by the Civil Court. It is of very great importance that the dues of societies which are proved failures should be collected and their liabilities paid off as early as possible. To secure this end, it has become imperative to adopt a procedure for realising the dues of these societies under liquidation, which will be quicker and more efficacious than the ordinary Civil Court procedure. The Eighth Session of the Bengal Provincial Conference unanimously recommended that the provisions of the Bengal Public Demands Recovery Act, 1913 (Bengal Act III of 1913), be made applicable to Co-operative Societies under liquidation, so that the orders of the liquidator may be enforced by the certificate procedure. A somewhat similar provision was brought into force in the Province of Bihar and Orissa by the Bihar and Orissa Public Demands Recovery Act, 1914.



It is proposed, therefore, to amend the Bengal Public Demands Recovery Act, 1913, by inserting a new clause in Schedule I to the Act, so as to allow the application of the Act to the orders of a liquidator under clauses (*b*) and (*d*) of sub-section (*2*) of section 42 of the Co-operative Societies Act, 1912. To prevent any possibility of abuse of this provision, it is proposed to add a proviso to sub-section (*1*) of section 5 of the Bengal Public Demands Recovery Act by which the requisition for a certificate by a liquidator can be enforced under this Act only if it is countersigned by the Registrar of Co-operative Societies, Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT ON THE HOWRAH BRIDGE FOR THE YEAR 1916-17.

CALCUTTA, THE 31ST OCTOBER 1917.

RESOLUTION—No. 3150Marine.

READ—

The Administration Report on the Howrah Bridge for the year 1916-17.

ON the 31st March 1916 the balance sheet of the Bridge showed a deficit of Rs. 3,32,024, which has been carried forward as a debit on Revenue Account.

The presence of this debit combined with the necessity for providing for a probable deficit on working account attributable to a decline in receipts and to the heavy expenditure to be incurred on the structural repairs to the Bridge itself, led to the appointment by Government of a special Committee for a consideration of the means for improving the finances of the Bridge. The income of the Bridge during the year 1916-17 amounted to Rs. 2,50,546 against Rs. 1,95,365, the actuals of the preceding year. The increase is mainly due to the fact that the East Indian Railway offered to increase their contribution to a minimum of Rs. 2 lakhs as earnings from Railway traffic, as a result of the deliberations of the said Committee.

The expenditure for the year amounted to Rs. 4,51,455. This amount includes the abnormal expenditure of Rs. 2,13,556 on special renewals to the Bridge structure and repairs to Howrah Ferry landing stage. The net working result was a deficit of Rs. 2,00,908, so that the aggregate debit on all accounts on the 31st March 1917 stood at Rs. 5,29,775. In consequence of this state of affairs Government have decided on the re-imposition of a terminal fee of 2 pies per maund on grains and seeds traffic over the Bridge to and from Howrah, with effect from 1st April 1917. This increase will, it is anticipated, result in additional revenue to the extent of about Rs. 1,50,000 per annum and should yield a surplus on working account which will gradually extinguish the present debit.

2. The number of vessels that passed through the Bridge during the year 1916-17 and four preceding years is shown below :—

	1916-17.	1915-16.	1914-15	1913-14	1912-13.

2. The total number of accidents during the year was 17 against 11 in the preceding year.

3. The Bridge was opened on 308 occasions, of which 41 were during the day and 267 at night.

4. Owing to the war it cannot be said for certain when the construction of the new Bridge, which is under consideration, will be definitely taken in hand. In November 1916, at the instance of Government, Mr. Basil Mott visited Calcutta to examine local conditions at the site of the Bridge and to advise Government on the best type of bridge suited to the locality and the traffic using the river. His report is awaited. The existing Bridge is an old structure, and the immediate renewal and repair of certain structural parts was a pressing necessity. The Port Commissioners, Calcutta, with the sanction of this Government, accepted the tender of Messrs. Jessop & Company for the repair work, but the Company were unable to push on with the work as rapidly as desirable, owing to the restrictions imposed on the export of iron and steel from England.

By order of the Governor in Council,

F. A. A. COWLEY,

Secy. to the Govt. of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS FOR THE PORT OF CALCUTTA FOR THE YEAR 1916-17.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 31ST OCTOBER 1917

RESOLUTION No. 3152Marine..

READ—

Letter No. 4571, dated the 3rd September 1917, from the Vice-Chairman, Port Commissioners, Calcutta, submitting the Administration Report for the Port of Calcutta for the year 1916-17.

General Features of the Administration.—As in the preceding year the war considerably affected the import and export trade of the Port. The loss of traffic was compensated to some extent by development in trade with Japan, and in a minor degree, with the United States of America. By reason of the heavy loss of the ordinary revenue of the Trust, since the beginning of the war, the Port Commissioners with the sanction of Government introduced the levy of special war surcharges to make up the deficiency.

The effect of the war on the trade of the Port will be evident from the following comparative statistics of traffic :—

	1913-14.	1914-15.	1915-16.	1916-17.
	Tons.	Tons.	Tons.	Tons.
I.—Net tonnage of the Port ...	4,256,987	3,705,160	2,967,798	2,804,680
II.—Jetties, Imports ...	1,186,797	917,978	788,431	686,010
III.—Docks, Imports ...	613,876	700,133	570,997	444,210
IV.— „ General Exports ...	1,231,589	920,659	1,054,985	1,185,159
V.— „ Coal „ ...	3,017,180	2,633,805	1,610,645	1,789,482

The decrease in the net tonnage of the Port and in imports at the Jetties and Docks is significant. The improvement in exports at the Docks is due to a large business on Government account in gunnies, manganese and pig iron. There was also an increase in the export of coal at the Docks as compared with the previous year.

Income.—The income from ordinary sources during the year amounted to Rs. 1,30,62,532, or Rs. 1,75,241 less than that of the previous year This was supplemented by the special war surcharge amounting to Rs. 26,60,897 as against Rs. 26,97,683 in 1915-16. The total income thus amounted to Rs. 1,57,23,432, which was less than that of the preceding year by Rs. 2,12,024.

Under the following heads the receipts fell appreciably below the estimate for the year :—

	Actual.	Estimate.	Decrease.
	Rs.	Rs.	Rs.
Jetties ...	17,31,701	17,67,650	35,949
Inland Vessels Wharves	4,22,698	4,51,480	28,782
Railway ...	15,70,062	15,98,000	27,938
Dry Docks ...	2,38,060	2,50,500	12,440
River Dues ...	16,60,582	18,15,625	1,65,043
War surcharges ...	26,60,897	28,50,000	1,89,103

This decrease was more than counterbalanced by increases over the budget estimate under other heads the principal of which are the following :—

	Actual.	Budget.	Increase.
	Rs.	Rs.	Rs.
Tea Warehouse ...	3,37,168	2,62,500	74,668
Rentable lands and buildings.	8,13,632	7,94,100	19,532
Wet Docks ...	41,31,446	37,69,380	3,62,066
Port approaches ...	5,96,074	5,75,600	20,474
Ferry service ...	4,33,361	4,10,000	23,361
Sale of unserviceable materials.	54,844	20,000	34,844

Expenditure.—The expenditure on Revenue Account amounted to Rs. 1,56,31,738 as against Rs. 1,51,35,847 estimated for the year and Rs. 1,49,07,001, the actual expenditure of the previous year. After meeting the debit of Rs. 60,035 with which the year opened, there was left a small credit balance of Rs. 31,658 to carry forward to 1917-18.

The actual expenditure noticeably exceeded the budget estimate for the year under the following heads :—

	Actual	Estimate.	Increase
	Rs.	Rs.	Rs.
Control ...	9,97,085	9,69,135	27,950
Tea Warehouse ...	1,39,986	1,23,271	16,715
Inland Vessels Wharves	1,81,413	1,68,767	12,646
Rentable land and buildings.	1,40,095	1,28,479	11,616
Port ...	6,51,164	6,36,613	14,551
Port approaches ...	8,82,621	8,19,148	63,473
Railway ...	13,12,187	12,61,166	51,021
Wet Docks ...	30,55,657	26,38,702	4,16,955
Ferry Service ...	3,47,793	3,34,906	12,887
Depreciation of Government Promissory Notes of Reserve Fund at market rate.	3,96,740		3,96,740

The expenditure showed a decrease of Rs. 5·88 lakhs under Interest and Sinking Fund charges, attributable chiefly to countervailing interest on capital moneys in hand, the expenditure of which has been retarded by war conditions.

Jetties.—The tonnage handled at the jetties during the year amounted to 6,86,010 against 788,431 in 1915-16 and 917,978 in 1914-15. The total earnings came up to Rs. 14,33,623, of which 84 per cent. was paid by goods and 16 per cent. by vessels.

Docks.—During the year 1,018 vessels were berthed at the Docks (of which 65 were Government transports) as against 905 vessels in the previous year (of which 26 were Government transports). The total number of vessels that entered empty and loaded exports was 383 as against 354 of the previous year. There was, however, a marked increase in the number of vessels that entered empty and loaded coal. The total imports and exports in tons landed and shipped over the Dock quays were 444,210 and 2,974,641, respectively, as against 570,997 and 2,665,630 of the previous year.

Docks traffic.—The tonnage of sugar imported, 177,965 tons, was the lowest since 1908-09 but that of rice, 244,778 tons, although much less than in 1914-15 and 1915-16, was higher than in any other preceding years.

The tonnage of exports, 2,974,641 tons, slightly improved as compared with the previous year, 2,665,630 tons. The noticeable figures of improvement are those under gunnies, 100,951 tons which constitutes a record, and under miscellaneous, 408,591 tons. The rise of tonnage under the latter is, as already stated, attributable chiefly to the increased shipment of manganese ore (230,509 tons) and of pig iron (97,808 tons). The export of wheat and seed was far from satisfactory and that of jute and tea showed some reduction. There was a slight improvement in the export of coal.

Petroleum Wharf at Budge-Budge.—Eightly-seven vessels discharged kerosine oil at the Budge-Budge Petroleum wharf against 99 in the previous year.

In addition to kerosine, batching and other oils were landed there, amounting to over 18 million gallons as against 16 million gallons in the preceding year. The total revenue of the depôt amounted to Rs. 4,16,879, or a decrease of Rs. 7,910 as compared with the earnings of the previous year.

Tea Warehouse.—The tea traffic showed a decrease of 344,750 packages. This drop in traffic did not, however, affect the income which showed an increase of Rs. 40,753 as compared with the previous year, due to increased earnings for storage.

Ferry Service.—Three of the Commissioners' steamers were utilised by Government for portions of the year. There was a rise in the number of passengers carried, resulting in a slight improvement in earnings.

Engineering.—The Port Commissioners exercised the strictest economy on all maintenance and repairs works; but the actual expenditure could not be kept within the budget provision owing to the unusually high prices of materials.

Of the works in progress the three trial wells at Garden Reach deserve mention. The work proceeded satisfactorily, and the knowledge obtained should be of much help in the preparation of detailed plans for the construction of the New River Entrance to the King George's Docks.

Of the five Garden Reach berths, only one berth, viz., the Coaling Jetty replacing the old Jetty at Brace Bridge Hall, was completed and opened in June 1916.

Port and Port approaches.—The condition of the four governing bars was satisfactory. The Eastern Gut Bar reached its worst point in June 1916 on account of the temporary absence of the dredger, but rapidly improved after the return of the dredger and the arrival of the freshets.

The light ships were maintained during the year. A new unattended light vessel, the *Planet*, was completed and placed on station in the Upper Gasper Channel in May 1916. To facilitate night navigation an additional attended light vessel was placed in the Galtola Channel, the buoys were re-arranged, and an automatic tide gauge and electric semaphore apparatus, designed by Mr. Reaks, Officiating River Surveyor, were erected at Phuldhobi. Since February 1917 all lights have been extinguished under the orders of Government for reasons in connection with the defence of the Port.

Capital Expenditure.—The amount actually spent on capital account was less than was anticipated, *i.e.*, Rs. 38·50 lakhs as against Rs. 70·8 lakhs of the budget estimate. This was due to the restrictions imposed in April 1916 on the export of iron and steel from the United Kingdom. The expenditure was met from the opening balance of Rs. 53·5 lakhs, supplemented by a loan of Rs. 50 lakhs which was obtained from the Bank of Bengal under special arrangement, a portion of the credit balance having been utilised to finance the Suspense Account and to meet the debits incurred by the Bridge Commissioners on the working of the Howrah Bridge.

Capital Account.—The Capital debt of the year was Rs. 10,80,56.688, while the sum of the value of the property according to the Block Account and of the balance of the Capital account was Rs. 14,40,04,267.

In addition to these assets there are three other funds of the Commissioners which constitute important assets of the Trust. These are the Reserve Fund, the Depreciatton Fund and the Fire Insurance Fund. The total assets at credit of these funds on 31st March 1917 was Rs. 35,38,587.

General.—Mr. H. J. Hilary, Vice-Chairman, proceeded to England on combined leave at the commencement of the year. Subsequently he received the sanction of the Commissioners and of Government to the acceptance a commission in the Field Artillery. He was serving in France at the close of the year, since when the Governor in Council has received with the deepest regret the news of his death in action on the 3rd June 1917.

As to the officers and servants of the Port Commissioners there were altogether 14 members of the supervising staff and 39 members of the subordinate staff serving with His Majesty's Forces either in the Army or the Navy. Lieutenant E. E. Grimwade, who served the Trust for 6½ years as Assistant Traffic Manager, lost his life in action in France. Ten officers received Commissions in the Indian Army Reserve of Officers.

The Governor in Council desires to take this opportunity of thanking the Commissioners, and specially Mr. S. C. Williams, who officiated as Vice-Chairman throughout the whole of the year, for so ably carrying out the work of the Trust particularly in circumstances of such stress and strain as created by the war.

ORDER.—Ordered that copies of the Resolution be forwarded to the Government of India and to the officers and departments concerned and that it be published in the supplement to the *Calcutta Gazette* for general information.

By order of the Governor in Council.

F. A. A. COWLEY,
Secretary to the Govt. of Bengal.

Rules.

1. (*1*) No inland steam-vessel shall proceed on a voyage if she is unsafe by reason of the defective condition of her hull, equipment or machinery, or by reason of overloading or improper loading, or excessive tow.

(*2*) If the Agent or the Master or Serang of an inland steam-vessel commits a breach of this rule, he shall be punishable with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both, unless he proves that he used all reasonable means to ensure the vessel being sent on the voyage in a safe state, or that her going on the voyage in such unsafe state was under the circumstances reasonable and justifiable.

3. (*1*) Vessels steaming in narrow or confined waters shall reduce speed when passing other vessels.

GEORGE R. I.

GEORGE THE FIFTH, by the Grace of God, of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, King, Defender of the Faith, Emperor of India, to all to whom these Presents shall come, Greeting!

WHEREAS His late Majesty King Edward VII, being desirous of distinguishing by some mark of His Royal Favour the many heroic acts performed by those of His faithful subjects who endanger their own lives in saving or endeavouring to save the lives of others from perils incurred in mines or quarries or otherwise in connection with Industrial Employment in His Dominions and in Territories under His protection and jurisdiction, did by Warrants under His Sign Manual bearing date respectively the 13th July, 1907, and the 1st December, 1909, for Himself, His Heirs and Successors institute and create a new Medal to be entitled the Edward Medal to be awarded for such acts of gallantry:

And whereas We are desirous of amending the rules governing the award of the said Decoration and of consolidating the Royal Warrants relating to the said Decoration, We are graciously pleased to make, ordain and establish the following Rules for the governance of the said Decoration:

1. It is ordained that the Medal shall be styled "The Edward Medal," but when it is awarded for acts of such great and exceptional gallantry as to merit a special decree of recognition it shall be styled "The Edward Medal in Silver."

2. It is ordained that the Edward Medal shall consist of a circular Medal with Our Effigy on the obverse, and on the reverse a suitable design with the words "For Courage"; and that the Medal shall be of Bronze or, when the Edward Medal in Silver is awarded, of Silver.

3. It is ordained that the Edward Medal shall only be awarded to those of Our faithful subjects who endanger their own lives in saving or endavouring to save the lives of others from perils incurred in connection with Industrial Employment in these Our Dominions, and in Territories under Our protection or jurisdiction, and such awards shall be made only on a recommendation to us by Our Principal Secretary of State for the Home Department.

7. In order to make such provision as shall effectually preserve pure these most honourable Decorations, it is ordained that if any person on whom either of such Decorations is conferred be guilty of any crime or disgraceful conduct which, in Our judgment, disqualifies him for the same, his name shall, by an especial Warrant under Our Royal Sign Manual, be forthwith erased from the Register of those upon whom the said Decoration shall have been conferred and his Medal shall be forfeited. And every person to whom the said Medal is given shall, before receiving the same, enter into an agreement to return the same, if his name shall be so erased as aforesaid under this regulation. BY THE KING.

A PROCLAMATION.

PROHIBITING UNDER SECTION 1 OF "THE EXPORTATION OF ARMS ACT, 1900," AND SECTION 1 OF "THE CUSTOMS (EXPORTATION RESTRICTION) ACT, 1914," THE EXPORTATION FROM THE UNITED KINGDOM OF CERTAIN ARTICLES TO SWEDEN, NORWAY, DENMARK, AND THE NETHERLANDS.

GEORGE R. I.

WHEREAS by Section 1 of "The Exportation of Arms Act, 1900," it is enacted that We may by Proclamation prohibit the exportation of all or any

of the following articles, namely, arms, ammunition, military and naval stores, and any article which We shall judge capable of being converted into or made useful in increasing the quantity of arms, ammunition, or military or naval stores, to any country or place therein named whenever We shall judge such prohibition to be expedient in order to prevent such arms, ammunition, military or naval stores, being used against Our subjects or forces or against any forces engaged or which may be engaged in military or naval operations in co-operation with our forces:

And whereas by section 1 of "The Customs (Exportation Restriction) Act, 1914," it is enacted that section 1 of "The Exportation of Arms Act, 1900," shall have effect whilst a state of war in which We are engaged exists as if, in addition to the articles therein mentioned, there were included all other articles of every description:

And whereas by virtue of a Proclamation dated the 18th August, 1916 made in pursuance of the said Exportation of Arms Act, 1900, as amended by the Customs (Exportation Restriction) Act, 1914, all articles whatsoever other than those excepted by the said Proclamation are now prohibited to be exported to the Kingdom of Sweden:

And whereas by virtue of a Proclamation dated the 10th May, 1917, made in pursuance of the said Acts, and by subsequent Orders of Council issued under the authority of the later Act certain goods are now prohibited to be exported to, *inter alia*, the Kingdoms of Norway, Denmark, and the Netherlands:

And whereas We have deemed it expedient to revoke the said Proclamation dated the 18th August, 1916, and to prohibit the exportation to Sweden, Norway, Denmark, and the Netherlands, of all articles whatsoever other than those hereinafter excepted:

Now, therefore, We have thought fit, by and with the advice of Our Privy Council, to issue this Our Royal Proclamation, declaring, and it is hereby declared, that the abovementioned Proclamation dated the 18th August, 1916, be, and the same is hereby, revoked as from the 8th day of October, 1917, and that the exportation of the following articles be prohibited on and after that date to all ports and destinations in Sweden, Norway, Denmark, and the Netherlands, viz.:—

All articles which are not by virtue of any Proclamation for the time being in force made under section 8 of the Customs and Inland Revenue Act, 1879, as amended by any Act, or under the Exportation of Arms Act, 1900, as amended by any Act, prohibited to be exported to Sweden, Norway, Denmark, and the Netherlands, except:—

1917	VII	The Indian Income-tax (Amendment) Act, 1917.	The whole.

STATEMENT OF OBJECTS AND REASONS.

The present Bill, which practically recasts the whole of the Indian Income-tax Act, 1886 (II of 1886), has a three-fold purpose. In the first place, it remedies certain inequalities in the assessment of individual taxpayers under the existing law, which have become especially apparent since a graduated scale of the tax was introduced by Act V of 1916. Secondly, it defines more precisely than the existing Act the methods whereby income and profits of various descriptions are to be calculated for income tax purposes, so removing a defect which has led to some lack of uniformity in the assessing standards of different provinces. And, lastly, it effects a number of improvements in the machinery of assessment which experience has shown to be essential for the efficient and equitable working of the tax.

2. The recent introduction of graduated rates of income tax makes it necessary to abandon the system of assessing the tax separately on the different sources of income falling under the four Parts of the second schedule to Act II of 1886, since with this system an assessee deriving his income from more than one source may be called on to pay appreciably less than a person of equal taxable capacity who possesses one source of income alone. One of the main objects of the present Bill is accordingly to bring together all sources of an assessee's income for the purpose of determining the rate at which he shall be assessed on each part of it. This object is effected by clause 14 and schedule I of the present Bill, which provide that the rate at which the tax shall be assessed on all income which under the provisions of the Act is chargeable to the tax (called taxable income) shall be determined by the total income, enjoyed by the assessee, to which the Act applies.

3. A distinction is drawn by the provisions in chapter I and schedule I of the Bill between "total income" which determines the rate at which the tax is levied, and "taxable income" which determines the amount on which the tax is levied. *The rate at which the tax is levied* on an assessee will be determined by his total income accruing, arising or received in British India (or deemed to do so under the Bill) after omitting therefrom the receipts specified in clause 3 (2) and deducting the allowances mentioned in clauses 8, 9 (2), 10 (2), and 11 (2) of the Bill; and also omitting under clause 4 of the Bill, the expenses incurred in earning agricultural income, including any land revenue payment, and the first thousand rupees of net agricultural income. In calculating *the amount on which the tax is levied* these reductions will also be made: but an assessee will further be entitled to subtract from the residual amount—

(*i*) Any salary which fulfils the conditions of clause 6 (1) (*i*) of the Bill.

(*ii*) Any sums which he has spent on the purchase of an annuity or for similar insurance purposes, provided they fulfil the conditions laid down in clauses 6 (1) (*ii*) and 12 (2) of the Bill.

(*iii*) Under the proviso to clause 7 of the Bill, any interest which he has received from a security of the Government of India issued or declared to be income-tax free.

(*iv*) Under clause 12 (1) of the Bill any interest which he has received as a member of a company, or of a firm or undivided Hindu Family, where the tax has been paid or is payable, by the company, firm, or family.

(*v*) Agricultural income.

4. Of these items of abatement only that relating to agricultural income calls for any special comment.

As has already been explained in paragraph 1 above, the Bill is a Bill to improve the machinery of assessment, and to remove existing inequalities in the burdens which the tax lays on individual assessees except in so far as improved methods of assessment will result in a higher revenue, the Bill is not designed, either by altering the rates of the tax or otherwise, to raise money, and for this reason it retains the existing exemption from the tax of agricultural incomes. But with the present system of income-tax graduation, under which an assessee's rate of assessment increases in accordance with his means, it is obviously equitable that in assessing the rate on which a person should pay on his non-agricultural income his income from agriculture should be taken into account: otherwise, a wealthy landlord possessed also of some non-agricultural income might pay on the latter at rates intended only for the poor. Accordingly, the Bill provides for the inclusion of net agricultural income in "total income": but as a concession, more particularly to persons of small means, clause 4 lays down that the first thousand rupees of net agricultural income shall not be taken into account in determining either the rate of the tax or the amount on which it will be levied.

5. The income determining the assessment, both as regards the rate and amount of the tax, will, under clause 14 of the Bill read with the definition of "year of assessment" in clause 2, be that actually accruing in the twelve months preceding the financial year for which the assessment is made, or at the assessee's option, any period of twelve months for which his accounts have been made up ending within the year preceding that financial year. Under the existing Act the tax chargeable on account of "salaries" and "interest on securities" is deducted at the time of payment of the salary or interest by the officer responsible for making the payment, and this procedure will be continued. But such deductions will, under clause 15 of the Bill, be treated merely as payments in advance on account of the assessment to be made in the following year; and, if it is found that any deduction has been effected at a rate which is not that applicable to the assessee's total income, an adjustment will be made at that assessment. In addition, the existing procedure for obtaining refunds of income-tax deducted from interest on securities is retained by clause 36 of the Bill.

6. Under the existing Act it is not incumbent on a Collector to obtain from any assessee a return of his income, and where the income is estimated at less than two thousand rupees, the assessee is not ordinarily served with a personal notice of assessment. The result is that many persons have no opportunity of representing the amount of their incomes before an *ex-parte* assessment has been made on them, and they have to seek recourse to a petition to the Collector, if they consider their assessment inequitable. Now that there as of taxation have

been enhanced, it is desirable, in the interests both of assessees and of Government, that Collectors should obtain returns of income in all cases before they make an assessment, and should also, if they doubt the correctness of any return, call such evidence as may be necessary to test it before coming to their decision. Clause 17 of the Bill accordingly provides for the service by the Collector of a notice on every person whom he proposes to assess to income tax, requiring him to furnish a return of his income ; and clause 18 enables the Collector to call upon an assessee to produce evidence of the correctness of his return. In addition, clause 18 empowers the Collector to utilise any evidence bearing on the assessment which he may obtain of his own motion, while under clauses 26 and 27 he can enforce the attendance of any person, including the assessee, for this purpose and compel the production of the information that he requires. Clause 21 requires personal notices of assessment to be sent to all assessees.

7. Assessments conducted in this manner should be made with much greater certitude than hitherto and it becomes unnecessary to retain the procedure, whereby a person objecting to his assessment by the Collector petitions the Collector against it : all evidence now produced before the Collector in objection proceedings will, under the provisions of the Bill, be available to him at the earlier stage when the assessment is being framed. A petition against an assessment finally made by the Collector will, therefore, under clause 22 of the Bill, lie only to the Commissioner, but such petitions will, subject to the conditions of that clause, be allowed universally and will not, as at present, be confined (subject to the Commissioner's discretion) to cases in which the tax assessed is Rs. 250 or upwards.

8. Section 31 of the existing Act, providing that an assessee may compound for the tax over a series of years has been omitted. Compositions already made will not be affected, and Collectors will be empowered, either by rule or executive order, to make similar arrangements in future subject to such conditions as it may be thought fit to lay down.

9. Section 33 of the existing Act, providing in certain circumstances for amendment of assessment has also been omitted. This section is no longer required, now that the tax is based on income actually accruing.

10. The Bill contains a number of other alterations in and additions to the present law : these are, where comment appears to be necessary, discussed in the Notes on Clauses, appended to this Statement.

NOTES ON CLAUSES.

[*Where sections are mentioned, the reference is to the Indian Income Tax Act (II of 1886).*]

Clause 3 (2) (i).—Section 5 (1) (*e*) of the Act has been expanded to make it clear that income derived from property employed for religious or public charitable purposes is only exempt from income tax to the extent to which it is applied to those purposes, and also to make it clear that voluntary dedications are not exempt.

Clause 3 (2) (ii), (iii) and (iv).—These exemptions are already in force either by rule or practice

Clause 3 (2) (vi).—Under this sub-clause, following the English practice, the recipient of a voluntary contribution or gift will not be liable to income tax on it, while the donor will not be permitted to claim an allowance on its account in calculating *his* total or taxable income.

Clause 6 (1).—The term "salaries" is, for the purposes of the Bill, confined by this clause to salaries, annuities, etc., from which income tax is deducted at the source. Salaries, etc., paid by private employers, who have not made arrangements with the Income Tax Collector for deducting the tax at the time of payment, will, therefore, be assessed under clause 11 as "income derived from other sources."

Clause 8.—Section 24 of the Act is expanded so as to apply to all house property, whether occupied by the owner or not, and the allowances which can be claimed are specifically stated, as in the past there has been some diversity of practice in the matter. It will be observed that no allowance can be claimed on account of municipal taxes.

Clause 9 (2).—The allowances which can be claimed in computing profits are specifically stated to prevent the diversity of practice which has occurred in the past.

Clause 29.—This clause has been adopted from the English law and provides for the separate taxation of the independent income of married women.

Clause 32.—Much difficulty has been experienced in the past in adequately assessing the Indian profits of foreign non-resident companies or firms trading in India either through branches, or through subsidiary companies or firms, or through agencies. Sub-clause (2) of this clause, which follows the lines of the English law, *viz.*, section 31 (3) of the Finance (No. 2) Act of 1915, is designed to meet the cases of these non-resident companies or firms, and it is proposed, when the Bill becomes law, to issue a rule under clause 43 (2) (*d*), which will enable them to be taxed on a percentage of their turnover, or on some proportion of their total profits taken to represent the Indian profits, if their actual Indian profits cannot be ascertained in any other way.

Clause 52.—This clause has been adopted with necessary modifications from sections 57 to 59 of the Indian Stamp Act (II of 1899).

DEPARTMENT OF COMMERCE AND INDUSTRY.

(EMIGRATION.)

RESOLUTION.

Delhi, the 16th November 1917.

The following paper is published in accordance with Rule 29 of the Assam Labour Board Rules :—

Annual report on the working of the Assam Labour Board during the year ending the 30th June 1917.

I.—Administrative.

Membership of the Board and Executive Committee.

1. Lieutenant Colonel W. M. Kennedy, C.I.E., I.A., Chairman of the Board, proceeded to England on deputation in April 1917, and Mr R. W. Davies, I.C.S., Madras, was appointed to officiate as Chairman during his absence. Lieutenant-Colonel Kennedy did not resume charge of his duties as Chairman till the 10th September 1917, after the close of the year under report.

Alterations in the Act and Rules.

2. At the instance of the Board, rule 24 of the rules for the working of the Board was amended by notification of the Government of India in the Department of Commerce and Industry, No. 6534-Emi., dated the 9th June 1917. This rule, which deals with the collection of the cess, has now been much simplified: Superintendents of Emigration have been relieved of the duty of furnishing monthly returns of labourers in respect of whom cess is leviable except in the case of those recruited by garden-sardars working independently of a local agent, and Supervisors have been made responsible for checking, during the course of their tours, the cess collected through the medium of local agents.

Meetings of Board.

3. Two meetings of the Board were held during the year under review, namely, on the 18th September 1916 and 20th March 1917. The following members were unavoidably prevented from attending:—

September Meeting.—Messrs. N. M. Ross, E. H. Hannay and the Hon'ble Sir E. H. Bray.

March Meeting.—The Hon'ble Mr. H. B. Fox, the Hon'ble Sir E. H. Bray and Mr. R. T. Fraser.

Meetings of Executive Committee.

4. Two meetings of the Executive Committee attended by all the members were held, viz., on the 18th September 1916 and 20th March 1917.

Board's office.

5. Sanction was accorded to the strengthening of the Board's office establishment by the addition of one clerk on Rs. 60—$\frac{1}{2}$—80. A Provident Fund was established for the staff, and minor improvements were made in the prospects of the clerks.

During the year 2,646 letters were received and 4,668 letters issued.

Tours of Chairman.

6. The Chairman was on tour for 107 days, and the Acting Chairman for 51 days. In addition to interviewing Local Governments and District Officials, 20 local agencies and 4 transport agencies were inspected in the course of these tours.

In March the Chairman paid a visit to Delhi by desire of the Government of India.

Supervisors.

7. With effect, respectively, from the 25th and 12th April 1917, the services of Messrs. Craven and McPherson, Supervisors, were placed at the disposal of the Government of Bihar and Orissa for employment with Labour Corps, leaving the Board with one Supervisor only (Mr. C. E. Middleton Stewart), whose headquarters have been transferred temporarily to Calcutta as being more central. A single Supervisor is insufficient for the adequate performance of the inspection, preventive and miscellaneous work of the Board, which is spread over six provinces, but it was felt that the claims of war work were paramount. Suitable substitutes for the two Supervisors, whose services have been relinquished, are not as yet forthcoming, and this, also, is largely due to the effect of the war.

The following table shows the touring and inspection work done by the Supervisors :—

Name.	No. of days inspected.	Number of Stations visited.		Number of Local Agencies inspected.		Number of Transport Agencies inspected.	
		Once.	More than once.	Once.	More than once.	Once.	More than once.
Mr. J. McPherson (from July 1916 to April 1917).	219	21	15	2	4	1	5
Mr. C. H. Craven (from July 1916 to April 1917).	134	19	13	7	8	...	1
Mr. C. E. Middleton Stewart ...	251	18	16	5	8	...	1

In addition to the inspection of local agencies and transport agencies, the Supervisors were of much service in smoothing over local difficulties. They were, also, engaged, as before, in the detection and prevention of abuses and in several cases assisted at the prosecution of offenders in Court. They did much useful work, that of Mr. (now Captain) McPherson being specially meritorious.

II.—Supervision of Local Agents.

Appointment of Local Agents.

8. There were altogether fifty-seven applications for the grant of licenses as local agents ; in forty-eight cases the Board recommended that licenses should be granted, in five the applications were withdrawn, and in two cases the Board recommended that the applications should be rejected. The recommendations of the Board were accepted by Superintendents of Emigration in all cases except one, in which a license was issued to a person whom the Board were unable to recommend. The recipient has, however, recently resigned his license. Two applications were pending with the Board at the end of the year and have since been disposed of.

At the close of the year fifty persons held local agents' licenses, forty-four of them being employes of the Tea Districts Labour Supply Association, and six of individual employers or firms or combinations of firms. The special local agencies of Messrs. Barry and Company at Berhampore and of the Barduar Tea Estate at Ranchi ceased to work during the year.

Conduct of Local Agents.

9. Owing to the appointment of Supervisors the work of local agents was subjected to much closer supervision than in the previous year ; it was, as a rule, satisfactory. The license of no local agent was cancelled, but one agent resigned his license in order to avoid cancellation. In one case, an application for the renewal of a license was not proceeded with, since the holder's conduct was not satisfactory in a matter outside his duties as local agent. As in the previous year, defects which came to light in the course of inspection were readily remedied on their being brought to the notice of those concerned.

System of remuneration of Local Agents.

10. Reference was made in paragraph 16 of last year's Report to the system of remunerating local agents. The Board are glad to be able to state that at the close of the year all local agents received fixed salaries, only, with the exception of one, who, in addition to a fixed salary, was granted a commission on each recruit. The local agent referred to has since ceased to work.

It is a matter for regret that, owing to financial stringency following upon the falling off in recruitment, the Tea Districts Labour Supply Association have been compelled temporarily to reduce the salaries of their staff, and to effect other economies. The Association have also been obliged to ask their constituents to come to their assistance with the object of enabling them to tide over a period of financial difficulty. This assistance, the Board understand, has been largely afforded. Over 90 per cent. of the recruitment for Assam is carried on under the auspices of the Association, and the Board would regard it as a great misfortune should the members decide to wind it up. A proposal is on foot to reorganise the Association by broadening the basis of membership in order that the tea industry, as a whole, may be more widely represented on the Committee. Any measure which could strengthen the Association would be welcomed by all persons interested in clean recruitment. A central recruiting Association of some description is a necessity, since, if individual estates or companies or combinations thereof were to appoint their own local agents, the result would be chaos, and the competition among the garden-sardars of the different agencies to obtain recruits could not but give rise to abuses.

Licensing of Local Agents contrary to the recommendations of the Board

11. In paragraph 17 of the Report of the previous year allusion was made to the fact that the Government of India had been addressed with the object of securing to the Board a veto on the appointment of local agents. That Government after considering the replies of Local Governments, decided to leave it to the latter to issue, if they so desired, executive instructions that no local agents' license should be granted without the favourable recommendation of the Board, this decision being, however, subject to the reservation that before the procedure is finally adopted it should be reconsidered by the Local Governments concerned after a year and a report made to the Government of India. The Governments of Bengal, Madras, the United Provinces and the Central Provinces have acceded to the request of the Board. In the province of Bihar and Orissa should a Superintendent of Emigration wish to issue a license to a person whom the Board are unable to recommend, he will refer the case to the Local Government for final orders.

III.—Recruitment.

General results of the year.

12. As was anticipated, the results for the year fell far short of those for the year 1915-16. From the 1st July 1916 to the 30th June 1917 cess was paid on 33,759 adult labourers, who were recruited by 28,317 garden-sardars as compared with 56,588 adult labourers recruited by 37,849 garden-sardars between the 21st August 1915 and the 30th June 1916. (These figures do not agree with those given in paragraph 20 relating to realisations on account of cess, since cess accruing in June is not received by the Board till July and is, accordingly, accounted for in the year succeeding that under report.) In all areas the results compare unfavourably with those of the previous year; they were best in the districts of Ranchi and Singhbhum, which (including the neighbouring Feudatory States) supplied about one-half the total recruits. It will be observed that the average number of recruits per garden-sardar diminished very considerably. The main reason for the falling off in numbers is the fact that agricultural conditions were generally good. The results, also, of the previous season having been unusually favourable, certain estates had a sufficiency of labour and consequently sent down fewer garden-sardars. In the latter half of the year recruitment for War Labour Crops was partly responsible for the diminution in the number of recruits, while the general financial stringency obtaining throughout the tea industry, consequent upon the difficulty of disposing of tea owing to shortage of freight, tended towards the restriction of recruiting operations.

Prospects for the year 1917-18 are still less favourable. Larger numbers of persons are being recruited for service for the combatant and non-combatant branches of the Army, agricultural conditions are generally good and the financial position of the tea industry is still unsettled. The numbers of absconding

garden-sardars have increased considerably. This has rightly or wrongly led to the impression that a good many of them have been recruited for Labour Corps, and concerns are, therefore, reluctant to risk further loss of labourers who have been imported at great expense. In this connection it may be mentioned that the recruiting authorities for war purposes in the provinces from which Assam chiefly draws its labour, have agreed not to accept absconding garden-sardars as recruits and to grant facilities for their identification. In view of the abovementioned difficulties most of the larger Calcutta Agency Houses at one time issued instructions prohibiting recruitment altogether or drastically restricting it. It is hoped, however, that the difficulties of the financial situation may soon be surmounted and Agency Houses are issuing instructions that recruitment should be resumed, at any rate to a moderate extent. The tea industry have no desire to compete in any way with recruitment for war purposes, but it is necessary, with a view to the future, to maintain connection with the recruiting districts. Moreover, to cut off the coolies in Assam from communication with their old homes would be liable to arouse discontent on the tea estates.

The Tea Districts Labour Supply Association have offered to assist, in any way possible, in the recruitment of War Labour Corps, and the Board have also afforded such help in this matter as has been asked of them.

Measures affecting recruitment

13. Difficulties have arisen in working the areas in the Madras Agency Tracts lately thrown open to recruitment, the chief being that of determining whether coolies who wish to be sent down as garden-sardars originally came from villages in the open or closed areas It is not easy for the tea-planters in Assam to distinguish between these areas, the boundaries being somewhat indefinite. It is understood that villages are not permanently located in the same place, and in some cases there are several hamlets bearing the same name, some within and some beyond the area thrown open. An additional complication arises owing to the fact that most of the coolies from these areas were obtained through contractors, before the areas were thrown open, with the result that their names and addresses are often incorrect. By arrangement with the Agent to the Governor in Ganjam, sardars for the open area are sent down and their names and addresses are tested locally, those belonging to the area still closed being returned in Assam. Objection was taken on the part of the Agency Tracts authorities to the emigration of single males without their families, who were liable to fall into a state of destitution. The authorities concerned were informed that in such cases, if necessary, an absolute guarantee would be given to return a male recruit after six months' residence in Assam in order to enable him to bring up his family or to remain at home should he not be satisfied with the work and prospects in Assam. The Acting Chairman, who had personal knowledge of local conditions, addressed the Agents to the Governor in the Vizagapatam and Godavari Tracts explaining the difficulties of the existing system and suggesting further facilities, and a communication on similar lines will shortly be made to the Agent to the Governor in the Ganjam Agency Tract.

Closely connected with the above subject is the scheme sanctioned by the Government of Madras under which coolies in Assam recruited from the areas still remaining closed should be permitted to assist their immediate relatives to emigrate. Lists of such relatives were to be prepared in Assam, and verified locally by tehsildars, after which permission would be accorded to the coolies in Assam to come down and expatriate the persons named. Voluminous lists have been prepared, but here again great difficulty has arisen in identifying the names and addresses given, and the lists are still in process of verification.

The scheme for the regularisation of recruitment in the Feudatory States of Bihar and Orissa is still under consideration, but is approaching conclusion, and it is hoped that final orders will soon be issued.

Cost of sardari recruitment.

14. This important subject was considered at length by a Sub-Committee appointed by the Indian Tea Association, of which the Chairman was a member. The Indian Tea Association referred the Report of the Sub-Committee for the opinion of the Board, who generally approved of the recommendations. The matter is still under the consideration of the Association.

In this connection, it may be mentioned that the attention of the Board was drawn to the practice followed by a few concerns of consigning garden-sardars to local agents with instructions that no advances are to be paid but

that the garden-sardars are to be rewarded by *per capita* bonuses in respect of the recruits which they may bring in. Such garden-sardars generally bring down considerable sums of money with them. The Board consider that this method of recruitment is objectionable, that garden-sardars should be financed only by the local agents and that bonuses, if any, should not be paid till the return of the garden-sardars to the tea estates.

IV.—Illegal Recruitment.

Recruitment by arkatties.

15. Though the operations of *arkatties* have been circumscribed owing to the abolition of the system of recruitment by contractors, a number of them were still active, especially during the earlier portion of the year under review. By a ruse a Supervisor, assisted by the police, caught a gang of seven persons, two of whom held Colonial recruiting licenses, red-handed at Allahabad, all of them being convicted. By a similar ruse at Puri another Supervisor secured the conviction of a well-known *arkatti*. In Sylhet, thanks to the information given by the manager of a tea estate, an *arkatti*, who was hawking coolies for sale, was run to earth by one of the Board's Supervisors, convicted and sentenced to two months' imprisonment. In several instances *arkatties* supplied coolies to garden-sardars working independently of a local agent, some of whom were at large at the beginning of the year under report. An important case of this description was detected at Sewan in Chapra which ended in the conviction of a gang of four persons headed by a Marwari, who obtained coolies from the United Provinces for supply to the dummy garden-sardars. The manager of the tea estate would also have been prosecuted but for the fact that he disappeared on leave. A similar case occurred at Arrah, resulting in the conviction of the offender. A notorious *arkatti* came down to the Ghazipur Agency of the Tea Districts Labour Supply Association with a sardar's certificate and collected a batch of coolies from the persons with whom he was in touch. His prosecution unfortunately failed owing to a technical error. In five cases offers were made to supply coolies to local agents, in two of which prosecutions were instituted and convictions obtained, but in one of these the accused persons were acquitted on appeal. In a third case the license of a Colonial contractor at Bahraich was cancelled. These are the more important cases in which the Board were concerned. There is reason to believe that the policy of harassing illegal recruiters is bearing fruit, as the number of offences reported diminished during the latter part of the year. So far as the Board are aware, there are now no garden-sardars working independently of a local agent; thus an easy channel for the commission of abuses has been blocked. The Central Provinces Administration has lately prohibited recruitment by garden-sardars not working under a local agent, and the Board will consider whether other Local Governments should not be asked to pass similar orders. The fact that the Government of the United Provinces has, as recommended in paragraph 26 of last year's Report, amended the notification published under section 91, Act VI of 1901, the certificates of all garden-sardars being now required to be countersigned in the labour districts, has facilitated control over those working *mala fide*. It may be added that in all cases in which there is reason to believe that the manager of a tea estate is concerned in the malpractices of his subordinates, he is called upon for an explanation and dealt with through the Indian Tea Association or his employer, and in an extreme case his prosecution is recommended.

Coolies visiting their home districts on leave.

16. For many years past it has been the practice on certain estates to grant leave *chits* instead of sardari certificates to coolies proceeding at their own expense to visit their old homes in the recruiting districts, it not being the intention of such persons to engage in recruiting. In practice, however, some of their relatives or friends not infrequently wish to accompany them back to Assam. Difficulties then arise. If the coolie brings these people to a local agent, the latter cannot send them forward unless there happens to be a certificated garden-sardar in the neighbourhood who can nominally recruit them. Indeed, the coolie who brought them in has probably already committed the technical offence of engaging or attempting to engage them. Or, perhaps, the coolie will take these persons back with him to Assam, without producing them before the local agent of the estate, and instances of this have occurred during

the past year. The latter practice is not only totally illegal but most objectionable, as in some cases the persons recruited by the coolie on leave would not have been passed by a responsible local agent, and complaints are subsequently received from the recruiting districts regarding their recruitment. The Tea Districts Labour Supply Association have advised their constituents to furnish coolies proceeding on leave with sardari certificates, and the Board strongly recommend to all employers the adoption of this advice. The possession of such a certificate not only obviates any trouble should recruits be obtained, but is an advantage in that it enables the local agent to keep touch with the cooly and to finance and otherwise assist him on his return journey.

Recruitment nominally for Chittagong and the Duars.

17. No cases of coolies being recruited ostensibly for Chittagong and sent up to Assam came to light during the year, and there is no reason to suppose that this form of illegal recruitment is now being practised. There can be no doubt, however, that from the Ranchi district batches of coolies were smuggled up to Assam under the pretence that they were intended for the Duars. In consequence of the prevalence of rumours to this effect, a Supervisor was deputed specially to investigate the matter, and he eventually succeeded in tracing a batch to a tea estate in the Darrang district. The manager and recruiters were prosecuted, but the case was eventually withdrawn on the Directors of the Company satisfying the Chairman that they were ignorant of the manager's proceedings and on their undertaking to dismiss him and pay Rs. 500 to a war charity. In another case a different procedure was followed. The batch was taken to a plains district in Bengal, and there handed over to a garden-sardar who produced the coolies before the local agent of the Tea Districts Labour Supply Association, it being alleged by the parties that they had left their own district in search of work, and had been recruited locally by the garden-sardar. Subsequent investigation elicited the true facts. It is to be hoped that the action taken in the Darrang case has acted as a deterrent, since no further information of such cases has lately been received. On the other hand, however, this particular form of malpractice is not very easy to detect, and, owing to the depletion of the Board's staff of Supervisors, it has not been possible to maintain the same vigilance as formerly.

V.—Financial.

Collection of cess

18. For the year under review the cess was again fixed at Rs. 2 on each garden-sardar and emigrant, *vide* Department of Commerce and Industry notification No. 2475-45, dated the 6th May 1916. The cess was collected punctually and without difficulty, that on garden-sardars, including those working in the United Provinces whose certificates are now required to be countersigned in the labour districts, being, since the 1st September 1916, realised by countersigning officers in Assam and remitted by them to the Board. The cess on labouring emigrants was, by the courtesy of the Tea Districts Labour Supply Association and the employers of local agents not belonging to that Association, entirely collected through local agents, to whom the Board beg to tender their thanks, no garden-sardars having been appointed to recruit independently of a local agent.

Refund of cess.

19. During the year under review a sum of Rs. 1,366 was refunded on account of cess erroneously paid, Rs. 202 being in respect of 101 sardars on whom cess was twice realised and Rs. 1,164 in respect of 582 emigrants who had not gone forward, who had absconded *en route* or who had been repatriated either *en route* or within a short time of their arrival on the tea estates.

20. The estimate of receipts provided for an income of Rs. 2,33,133, *viz.*, an opening balance of Rs. 81,000, a Government grant of Rs. 16,133 and Rs. 1,36,000 derived from cess on 27,000 garden-sardars and 41,000 emigrants. The actual credits amounted to Rs. 2,71,875-5-7, the excess being due to the fact that the opening balance (Rs. 1,20,243-2-1) was larger than was anticipated. The cess realised amounted to Rs. 1,31,912 (excluding the refund of Rs. 1,366) which was paid on 31,483 garden-sardars and 34,473 emigrants. In addition, Rs. 1,125 were received on account of interest on a sum of Rs. 75,000 which was placed on fixed deposit with the Bank of Bengal from the 5th of August 1916 to the 4th of February 1917. A further sum of

Rs. 1,485-13-8 was realised as interest on Rs. 75,000 invested in the 5½ per cent. Indian War Loan Bonds on the 4th of April 1917. The Board deemed it desirable to afford the War Loan this measure of support, providing Rs. 50,000 from the surplus funds at credit and borrowing Rs. 25,000 from the Bank of Bengal on the security of the fixed depost of Rs. 75,000. The loan has since been repaid. The contribution payable by the Government of India for the months March to June 1917 has been received since the close of the year.

The total expenditure amounted to Rs. 1,12,461-4-9 as compared with the estimate of Rs. 1,18,190-3. The savings accrued principally under the heads travelling allowance of all classes (Rs. 9,160), and salary of Chairman (Rs. 3,257); while the chief excess payment (Rs. 4,000) was due to the grant of an advance to one of the Supervisors for the purpose of purchasing a motor car, a charge for which budget provision had not been made.

Budget estimate for 1917-18.

21. The budget estimate for 1917-18, which was passed at the meeting of the Board held in March 1917, provides for an opening balance of Rs. 1,59,000 (the actual opening balance being Rs. 1,59,414-0-10), a contribution from Government of Rs. 14,145-9-8, Rs. 1,18,000 as realisations from cess at Rs. 2 on 26,000 garden-sardars and 33,000 emigrants and Rs. 2,250 on account of interest. The latter item is likely to be exceeded as the investment in the War Loan Bonds was made after the budget had been drawn up.

In view of the fact that a substantial balance has accumulated, the Board considered whether a recommendation should not be made to the Government of India that a reduction be made in the rate of cess. It was, however, deemed to be inadvisable to recommend that the rate should be reduced since recruiting prospects during the current year are very uncertain owing to the existence of war conditions, especially the recruitment of Labour Corps and the financial stringency consequent upon the restrictions on imports of tea into the United Kingdom, which are likely to react unfavourably on the receipts of the Board. The poor recruiting results up to date constitute a justification of the Board's attitude in this matter, as under present conditions there is every prospect of realisations on account of cess falling far short of the estimate. The budget provides for an expenditure of Rs. 1,21,116-7-9 and a closing balance of Rs. 1,72,279-1-11. Since it includes expenditure on account of the two Supervisors who have left the service of the Board considerable savings may be expected.

VI.—Miscellaneous.

Transit arrangements

22. The special Supervisor appointed to supervise the transit routes between Assam and the recruiting districts made frequent tours prior to his deputation to military duty, and did much useful work in drawing attention to defects and suggesting improvements which were brought to the notice of the railway administrations concerned with satisfactory results.

The Eastern Bengal Railway authorities have now completed their arrangements to facilitate coolie traffic, and they will be brought into operation when they receive an intimation from the Tea Districts Labour Supply Association that the volume of traffic warrants their adoption. At present comparatively few coolies are going up to Assam.

In consultation with the Sanitary Commissioner, Assam, improved measures for notifying the existence of epidemic diseases along the transit routes and for arranging for the vaccination of emigrants from areas infected with small-pox have been adopted.

Conclusion.

23. The Board again wish to tender their thanks to the Local Governments and their officers, with whom they deal, for their courtesy and support, as also to the Indian Tea Association and Tea Districts Labour Supply Association for the assistance which has been so readily afforded them.

WE, the undersigned Members of the Select Committee, to which the Bill to supplement and amend the Bengal Tenancy Act, 1885, was referred, have considered the Bill and the papers noted in the margin, and have the honour to submit this, our Report, with the Bill, as amended by us, annexed hereto. In reprinting the Bill, all changes made by us have been underlined. The more important alterations are explained below.

2. *Section 49A.*—When the Bill was introduced in Council, objection was taken to the indefinite scope of the proposed Act. Many of the opinions received suggested that aboriginals should be defined. The section has been re-drafted to show that the Bill is primarily intended for the Sonthals of the districts of Birbhum, Bankura and Midnapore. Other castes and tribes to which the Bill may be applied have been specified. Provision has also been made for withdrawing the provisions of the Chapter if the occasion should arise.

3. *Section 49E.*—The period "nine" years has been reduced to "seven" in conformity with the Chota Nagpur Tenancy Act, 1908.

4. *Section 49F.*—This section has been re-drafted to make the meaning clearer and also to provide on the lines of section 49 of the Chota Nagpur Tenancy Act, 1908, for the transfer of land by an aboriginal tenure-holder, raiyat or under-raiyat by private sale, gift or will. Provision has also been made to make it clear that this section does not validate any transfer otherwise invalid.

5. *Section 49H.*—The change in section 49H (*2*) (*b*) is intended to meet the objection which has been taken to the interference with the right of settlement enjoyed by the landlord and to the indefinite discretion allowed to the Collector. The re-draft makes it clear that if the Collector after first endeavouring to restore the land to the original owner or his heir, finds himself unable to do so, he will make over the land to the landlord for settlement subject to the provisions of section 49J. A proviso has been added to the effect that if the landlord does not exercise his right within one year the Collector may, within six months of such failure, settle the land with an aboriginal on behalf of the landlord. If the Collector fails to find an aboriginal tenant, an unrestricted right of settlement of the land will then vest in the landlord.

6. *Section 49J.*—Sub-section (*1*) of this section as re-drafted indicates the procedure for the settlement of the land which vests in the landlord under section 49H (*2*) (*b*), or which is surrendered or abandoned by an aboriginal tenant. No action by the Collector is contemplated if the landlord settles the land with an aboriginal. In clause (*ii*) of the same sub-section provision has been made for the settlement of the land by the landlord with a person who is not an aboriginal or for the retention of possession by the landlord of any such land, in both cases subject to the approval of the Collector.

7. *Section 49K, proviso* (*b*).—In view of the new provision in section 49A (*1*) applying the proposed Act to the Sonthals of the districts of Birbhum, Bankura and Midnapore, a date is necessary in their case as well as in the case of other notified aboriginals, after which all transfers except those authorised by the proposed Act will be illegal. One year is considered sufficient for this purpose.

Proviso (*c*) has been made more concise.

8. *Section 49L.*—In view of the objections to the transfer of sales in execution of decrees to the Collector, the provision for transfer of a decree to the Collector has been omitted; and the Court executing the decree has been authorised to grant reasonable time for payment.

9. *Section 49N.*—We have omitted this section as being unnecessary.

10. *Section 49O.*—We have amplified this section on the lines of section 258 of the Chota Nagpur Tenancy Act, 1908, so as to meet cases of fraud or want of jurisdiction.

11. *Section 49P.*—We have altered this section for the reasons given for the alterations made in section 49K, proviso (*b*).

12. We recommend that the Bill, as now amended by us, be passed.

Explanation.—A 'complete usufructuary mortgage' means a transfer by a tenant of the right of possession in any land for the purpose of securing the payment of money or the return of grain advanced or to be advanced by way of loan, upon the condition that the loan, with all interest thereon, shall be deemed to be extinguished by the profits arising from the land during the period of the mortgage. [*Cf.* C. N. T., s. 3 (*vi*).]

(Clause 2: sections 49F—49H.)

Application to Collector for transfer in certain cases.

"**49F.** (*1*) If in any case— [*Cf.* Act XIII of 1900, ss. 3, 6 C. N. T. S. 49.]

(*a*) an aboriginal tenure-holder is unable to lease his land as provided in section 49C, or an aboriginal raiyat is unable to sub-let his holding as provided in section 49D, or an aboriginal tenure-holder, raiyat or under-raiyat is unable to mortgage his land to another aboriginal as provided in section 49E, or

(*b*) an aboriginal tenure-holder, raiyat or under-raiyat desires to transfer his land, or any portion thereof, by private sale, gift or will to any person,

he may apply to the Collector for permission, in case (*a*), to transfer the same to a person who is not an aboriginal, or in case (*b*), to transfer the same by private sale, gift or will to any person; and the Collector may pass such order on the application as he thinks fit.

(*2*) Every such transfer shall be made by registered deed, and before the deed is registered and the land transferred, the written consent of the Collector shall be obtained to the terms of the deed and to the transfer.

(*3*) Nothing in this section shall validate a transfer of any land or portion thereof which, by the terms upon which it is held, or by any law or local custom, would not be transferable except for the provisions of this section.

Courts not to register, or recognise as valid, transfers in contravention of this Chapter.

"**49G.** No transfer by an aboriginal tenure-holder, raiyat or under-raiyat in contravention of the provisions of this Chapter shall be registered or in any way recognised as valid by any Court, whether in the exercise of civil, criminal or revenue jurisdiction. [*Cf.* C. N. T., ss. 46(3), 240(*6*); Reg. III of 1872, s. 27 (*2*).]

Power to Collector to set aside improper transfers by tenure-holder, raiyat or under-raiyat.

"**49H.** (*1*) If a transfer of a tenure or holding, or any portion thereof, is made by an aboriginal tenure-holder, raiyat or under-raiyat in contravention of the provisions of section 49B, or if the transferee has continued in possession in contravention of the provisions of section 49E or section 49F, the Collector may, on his own initiative or on application made in that behalf, by an order in writing, eject the transferee from such tenure, holding or portion: [*Cf.* C. P. T., ss. 47 and 71; Reg. III of 1872, s. 27 (3).]

Provided that—

(*a*) the transferee whom it is proposed to eject has not been in continuous possession in contravention of this Act for twelve years, and [*Cf.* Reg. III of 1872, s. 27(3), proviso.]

(*b*) he is given an opportunity of showing cause against the order of ejection.

The Bengal Tenancy (Amendment) Bill, 1917.

(*Clause 2: sections 49J, 49K.*)

(*2*) When the Collector has passed any order under sub-section (*1*), he shall either—

(*a*) restore the transferred land to the aboriginal tenure-holder, raiyat or under-raiyat, or his heir, or

(*b*) failing the transferor or his heir, declare that the right of settlement is vested in the landlord subject to the provisions of section 49J, provided that if the right is not exercised within one year, the Collector may, within six months, settle the land on behalf of the landlord on such terms as he deems fit with an aboriginal; and, if the Collector is unable to make such settlement within the said period, an unrestricted right of settlement will vest in the landlord.

Resettlement of surrendered or abandoned tenancies.

"**49J.** (*1*) Whenever— [*Cf.* Act VIII of 1885, s. 87.]

(*a*) the right of settlement of any tenancy, or any portion thereof, is declared to be vested in the landlord under clause (*b*) of sub-section (*2*) of section 49H, or

(*b*) an aboriginal tenant surrenders his tenancy, or a portion thereof, or abandons his residence and ceases to hold his tenancy,

the landlord may, subject to the provisions of sections 86 and 87,—

(*i*) settle the tenancy, or a portion thereof, with an aboriginal, or

(*ii*) with the approval of the Collector in writing, settle the same with a person who is not an aboriginal or retain it in his own possession.

(*2*) If any landlord resettles or otherwise deals with any tenancy as aforesaid in contravention of the provisions of sub-section (*1*), the Collector may take action, so far as may be, in accordance with the provisions of section 49H.

Restrictions on sale of tenant rights under order of Court.

"**49K.** Notwithstanding anything in this Act, no decree or order shall be passed by any Court for the sale of the right of an aboriginal tenure-holder, raiyat or under-raiyat in his tenure or holding, or in any portion thereof, nor shall any such right be sold in execution of any decree or order: [*Cf.* Act. XIII of 1900, s. 16; C. P. T., ss. 46 (*2*), 70 (*2*); C. N. T., s. 47.]

Provided as follows:—

(*a*) any tenure or holding belonging to an aboriginal may be sold, in execution of a decree of a competent Court, to recover an arrear of rent which has accrued in respect of the tenure or holding; [*Cf.* C. N. T., s. 47, proviso (*a*).]

The Bengal Tenancy (Amendment) Bill, 1917.

(Clause 2; sections 49L, 49M.)

(*b*) nothing in this section shall affect any right to execute a decree for the sale of any such tenure or holding, or the terms or conditions of any contract relating thereto, if such decree was passed, or such contract registered,— [*cf.* C. N. T., s. 47.]

(*i*) in the case of the Sonthals of the districts of Birbhum, Bankura and Midnapore, before the 1st November 1916, and

(*ii*) in the case of other castes and tribes to which this Chapter has been applied, at least one year before the date of the publication of the notification under section 49A, sub-section (*2*), in respect to such castes or tribes;

(*c*) nothing in this section shall affect any right for the sale of any such tenure or holding for the recovery of any dues which are recoverable as public demands. [*cf.* C. N. T., s. 47, proviso (*b*).]

"**49L.** If the sale of a tenure or holding, or any portion thereof, is ordered in execution of a decree against an aboriginal tenure-holder, raiyat or under-raiyat in respect of such tenancy or portion thereof, the Court executing the decree shall allow the tenant reasonable time in which to pay the amount due.

Stay of execution of decrees.

"**49M.** (*1*) An appeal, if presented within thirty days from the date of the order appealed against, shall lie to the Collector of the district from any order made under sections 49F, 49H or 49J by any officer in the district exercising the powers of a Collector, and the order of the Collector on appeal shall be final: [*cf.* C. N. T., ss. 215, 216; Act VIII of 1885, s. 104G (*1*).]

Appeal and revision.

Provided that every order passed by the Collector on appeal shall be subject to revision and modification by the Commissioner. [*cf.* Ben. Act VII of 1876, s. 85.]

(*2*) Notwithstanding anything in sub-section (*1*), an appeal from any order made under any of the sections mentioned in that sub-section by an officer acting under Chapter X of this Act shall be to such officer as the Local Government may appoint in this behalf, and the orders of such officer on appeal shall be final:

Provided that, in every such case, every order passed by the said officer on appeal shall be subject to revision and modification by such officer as the Local Government may appoint to deal therewith.

(*3*) An appeal, as provided in sub-section (*1*), shall lie to the Commissioner from any original order made by the Collector of the district under any of the sections mentioned in that sub-section. [*cf.* Ben. Act III of 1918, s. 51 (*1*) (*b*) and (*2*).]

The Bengal Tenancy (Amendment) Bill, 1917.

(*Clause 2; sections 49N—49P.*)

"**49N.** (*Omitted in Select Committee.*)

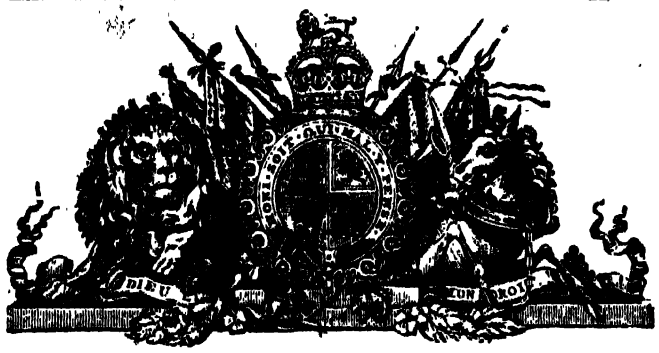
"**49-O.** Notwithstanding anything in this Act, no suit shall lie to vary or set aside any order passed by the Collector in any proceeding under this Chapter except on the ground of fraud or want of jurisdiction. [*Cf.* C.N.T., s. 258; Act XIII of 1900, s. 21.]

Bar to suits.

"**49P.** Nothing in this Chapter shall affect the validity of any transfer (not otherwise invalid) by a tenure-holder, raiyat or under-raiyat of his tenure or holding, or any portion thereof, made *bonâ fide*,— [*Cf.* C.N.T., s. 46 (5) and s. 240 (7).]

Saving of certain transfers.

(*a*) in the case of the Sonthals of the districts of Birbhum, Bankura and Midnapore before the 1st November 1916, and



(*b*) in the case of other castes and tribes to which this Chapter has been applied, at least one year before the date of the publication of the notification under section 49A, sub-section (2), in respect to such castes or tribes."

REPORT ON THE ADMINISTRATION OF THE STAMP DEPARTMENT DURING THE THREE YEARS ENDING THE 31ST MARCH 1917.

NOTIFICATION.

No 2563S.R.—The 13th November 1917.—The following extracts from the Report on the Administration of the Stamp Department for the triennium ending the 31st March 1917 are published for general information.

J. DONALD,

Secretary to the Govt. of Bengal.

No. 264T.-S.R., dated Darjeeling, the 8th September 1917.

From—The HON'BLE MR. J. DONALD, I.C.S., Secretary to the Government of Bengal, Financial Dept.,

To—The Secretary to the Government of India, Finance Dept.

I AM directed to submit for the information of the Government of India the following report on the administration of the Stamp Department during the three years ending the 31st March 1917.

2. *Important changes in the law and in the rules.*—The stamp revenue during the period under review was realised under the Indian Stamp Act, 1899 (Act II of 1899), and the Court-Fees Act, 1870 (Act VII of 1870), as amended by subsequent enactments. During this period the Court-Fees Act, 1870, was amended by Act XVII of 1914 and the Indian Stamp Act, 1899, by Act XIII of 1916.

* * * * * *

Financial Results.

8. The receipts, which, in 1913-14, the last year of the preceding triennium, were Rs. 2,21,97,277, fell to Rs. 2,05,06,462 in 1914-15, but rose to Rs. 2,26,77,548 in 1915-16. During the last year of the period under review the receipts as reported by the Accountant-General, Bengal, *plus* Rs. 4,60,972 paid to the Calcutta Improvement Trust being the collection of the increased stamp duty leviable under section 82 of the Calcutta Improvement Act, 1911, and also Rs. 4,99,000, the Provincial share of the sale-proceeds of unified stamps credited to non-postal revenues, amounted to Rs. 2,46,13,677, an increase of Rs. 19,36,129 or 8·5 per cent. as compared with those of 1915-16, and of Rs. 41,07,215 or 20·0 per cent. over those of 1914-15. The increase occurred both under judicial and non-judicial stamps.

* * * * * *

A.—Judicial Stamps.

10. The sale-proceeds of Court-fee stamps (excluding stamps for copies) rose steadily during the past three years. The receipts during 1916-17 were Rs. 1,56,85,461 against Rs. 1,47,36,832 in 1915-16 and Rs. 1,35,28,272 in 1914-15. Compared with 1915-16, there was an increase in 1916-17 in all divisions except the Presidency. The decrease in that division, which occurred chiefly in Calcutta, was due to the opening of the Patna High Court, and also to the fact that large probate duties were realised in 1915-16. In the other divisions the increases are ascribed partly to the institution of a large number of civil suits and partly to work in connection with settlement operations. The receipts from the sale of stamps for copies fell from Rs. 6,84,582 in 1914-15 to Rs. 6,74,477 in 1915-16, but rose to Rs. 7,10,527 in 1916-17. The receipts from the sale of plain paper rose from Rs. 3,07,099 in 1914-15 to Rs. 3,23,513 in 1915-16 and to Rs. 3,55,566 in 1916-17.

B.—Non-Judicial Stamps.

11. The revenue derived from the sale of non-judicial stamps during 1916-17 showed an increase of Rs. 9,18,627 or 13·2 per cent. as compared with 1915-16, and of Rs. 18,74,811 or 31·3 per cent. over that of the first year of the triennium. The increase was shared by all classes of stamps except "Forms for agreements and contracts chargeable with two-anna coloured impressions."

12. (*a*) *Impressed stamps.*—The receipts from the sale of impressed stamps (the most important item among non-judicial stamps) showed a progressive increase during the past three years. The revenue which amounted to Rs. 33,81,392 in 1914-15 rose to Rs. 39,32,854 in 1915-16, and to Rs. 41,93,529 in 1916-17. The increase is generally attributed to the execution of a larger number of sale and mortgage deeds owing to high prices of food-stuffs, to the settlement operations in some districts, and to the increased stamp duty levied under the Calcutta Improvement Act on instruments relating to immoveable property situated in the suburban areas of Calcutta.

13. (*b*) *Hundis or inland bills-of-exchange.*—The revenue derived from the sale of stamps from *hundis* or inland bills-of-exchange rose steadily

during the triennium. The receipts during 1916-17 were Rs. 1,81,459, an increase of Rs. 59,762 over those of 1915-16, and of Rs. 84,185 over those of 1914-15.

14. (*c*) *Impressed labels or special adhesive stamps.*—The receipts from the sale of these stamps during 1916-17 showed an increase of Rs. 3,53,157 or 26·2 per cent. as compared with those of 1915-16. and of Rs. 3,91,806 or 29·9 per cent. over those of 1914-15. These stamps are principally used in Calcutta where there was an increase of Rs. 3,53,653 in 1916-17, as compared with 1915-16, attributed mainly to the additional stamp duty levied under the Calcutta Improvement Trust Act and to the general prosperity of trade.

15. (*d*) *Foreign bill stamps.*—The receipts from these stamps, which are sold only in Calcutta and Chittagong, amounted in 1916-17 to Rs. 1,87,274, and exceeded those of the preceding two years by Rs 43,583 and Rs. 46,475, or 30·3 and 33·0 per cent., respectively. The rise in the prices of articles imported into India during the war, and the growing scarcity of freight account for the increase under this head.

16. (*e*) *Share-transfer stamps.*—Sales of these stamps. which are used for the payment of stamp duty on transfers of shares of public companies and associations, are practically confined to Calcutta. The revenue rose from Rs. 1,18,008 in 1914-15 to Rs. 3,67,454 in 1915-16 and to Rs. 6.11,407 in 1916-17. The increase is attributed to considerable speculation in jute mill shares, the value of which has swollen abnormally owing to the enormous profits made by the mills. The appropriation of first class coal by the Government towards the close of the past year gave a spurt to the shares of coal companies also and added to the sale of stamps on transfers.

17. (*f*) *Stamps for legal practitioners' licenses.*—The receipts from the sale of these stamps fell from Rs. 1,29,711 in 1914-15 to Rs. 1,27,379 in 1915-16, but rose to Rs. 1,31,330 in the last year of the triennium.

18. (*g*) *Notarial stamps.*—These are one-rupee foreign bill stamps overprinted with the words "Notarial" under rule 17 (*d*) of the rules issued with the notification of the Government of India No. 1140—F., dated the 14th August 1914. They were sold in four out of 27 districts in 1916-17. The sales of the year amounted to Rs. 1,740 in comparison with Rs. 1,251 and Rs. 2,215 during the two previous years, respectively.

19. (*h*) *Forms for agreements and contracts chargeable with two-anna coloured impressions.*—In accordance with rule 8 of the rules published with the notification cited in the foregoing paragraph, skeleton forms of instruments, chargeable with a duty of two-annas under article 5 or 43 of schedule I of the Indian Stamp Act, 1899, are impressed with two-anna coloured impressions in the office of the Controller of Printing, Stationery and Stamps, Calcutta, on receipt of certificates of payment from a Government treasury. The income from this source rose from Rs. 2,527 in 1914-15 to Rs. 3,682 in 1915-16, but fell to Rs. 3,388 in 1916-17.

20. (*i*) *Forms for cheques and receipts.*—The sale of these forms, which are stamped with one-anna coloured impressions by the Controller of Printing, Stationery and Stamps, Calcutta, in accordance with the rule cited above, brought in Rs. 1,94,392 in 1916-17. The receipts exceeded those of the previous two years by Rs. 20,891 and Rs. 19,356 or by 12·0 per cent. and 11·1 per cent., respectively. The increase occurred chiefly in Calcutta.

21. (*j*) *Miscellaneous receipts.*—The receipts under this head were mainly composed of realisations under section 35 and sections 32, 37, 40 and 41 of the Indian Stamp Act, 1899. The income from these sources rose from Rs. 1,33,262 in 1914-15 to Rs. 2,26,250 in 1915-16, but fell to Rs. 1,58,710 in the last year of the triennium. The decrease occurred chiefly in Calcutta.

Arrangements for the sale of stamps.

22. * * * * * *

The total number of vendors engaged in the sale of judicial and non-judicial stamps during the year 1916-17 was 5,250 against 5,092 and 5,232 in the preceding two years. The expenditure on discounts allowed to stamp vendors during 1916-17 was Rs. 3,89,246, which exceeded that of the preceding two years by Rs. 33,512 and Rs. 75,903, respectively. The increase followed on the rise in the sale of judicial and non-judicial stamps. The average discount per vendor during the triennium under report was Rs. 68 against Rs. 69 in the preceding period.

* * * * *

Punitive action of the Courts and Revenue Officers.

23. * * * * * * *

The total number of cases dealt with by the Civil Courts increased from 2,002 in 1914-15 to 2,209 in 1915-16 and 2,329 in 1916-17. The duty and penalty realised by the Civil Courts during the last year of the triennium was Rs. 16,653, showing an increase, as compared with the previous two years, of Rs. 2,899 and Rs. 2,992, respectively. There was an increase of 414 in the number of cases decided and of Rs. 4,478 in the duty and penalty realised by Revenue Officers in 1916-17, as compared with the figures of the preceding year, and of 534 and Rs. 40,125, respectively, as compared with the figures of 1914-15. The increase, both in the number of cases and in the amount of realisation, is attributed to the vigilance of the Courts, and to more careful examination of documents by officers of the Registration Department.

24. * * * * * *

The number of cases instituted in 1916-17 was 257, in which 266 persons were brought to trial against 332 and 342 in 1915-16 and 740 and 758 in 1914-15. Compared with the year 1915-16, the number of prosecutions in 1916-17 was less in all divisions except the Chittagong Division, where the number remained unchanged. It is said that the public are gradually taking greater precautions to stamp their documents properly. The fines imposed during the year amounted to Rs. 2,419, showing a decrease, as compared with the previous two years, of Rs. 339 and Rs. 2,059, respectively. The amount paid in rewards in 1916-17 was Rs. 1,240 against Rs. 1,080 and Rs. 2,087 in the previous two years, respectively. No rewards were paid outside Calcutta.

Working of section 19H added to the Court-Fees Act, VII of 1870, by Act XI of 1899.

25. * * * * * *

The number of cases reported to the Collector showed a gradual decrease from 1,934 in 1914-15 to 1,729 in 1915-16 and to 1,617 in the last year of the triennium. The number of cases in which enquiries were instituted and the number of enquiries completed fell from 1,713 and 1,774 in 1914-15 to 1,558 and 1,474 in 1915-16, but rose to 1,901 and 1,605 in 1916-17. The amount of deficit Court-fees realised rose from Rs. 54,394 in 1914-15 to Rs. 61,385 in 1915-16 and to Rs. 89,641 in 1916-17. Of the cases reported during 1916-17, including those pending at the beginning of the year, 72·8 per cent. were completely enquired into; the corresponding percentages in the preceding two years were 67·7 and 75·1. The proportion borne by the deficit duty required to the amount originally realised was 12·3 in 1916-17 and 18·3 and 8·4 in the preceding two years. There was a marked increase in the realisation of

defect duties in Calcutta during the last year of the triennium under review, due mainly to the creation of a special post and the appointment of a Deputy Collector to conduct enquiries regarding the valuation of the estates in respect of which probates and letters of administration are applied for in the High Court. No case of serious undervaluation has been reported during the triennium.

SIR,

In the Home Department letter No. 380-C., dated the 25th January 1917, local Governments were informed of the proposals of the Government of India as regards the procedure to be followed in dealing with the report of the Public Services Commission. In paragraph 3 of that letter it was stated that the Government of India would, in the first place, form provisional

conclusions regarding the Commission's recommendations involving general principles and of general application and that local Governments would be informed of these conclusions at an early date. It is hoped that the Government of India will shortly be able to make a communication to local Governments in accordance with the arrangement above described.

2. In forwarding the report of the Commission to the Government of India in October 1916, the Secretary of State suggested that they should give early consideration to the recommendations of the Commission regarding the Education Department. He added that the recommendations embodied in annexure IV to the Commission's report aimed at removing many anomalies now existing in this service which constituted a source of discontent and appeared to cause embarrassment to Government. The Government of India, in submitting their proposals for the procedure to be followed in dealing with the report, informed the Secretary of State that endeavour would be made to expedite preliminary secretariat work as much as possible, and that his special request for early consideration of the Education Department case had been noted. The Secretary of State, moreover, in dealing with another case in January 1917, invited a reference to his previous suggestion and expressed a hope that the Government of India would be able to give very early consideration to the proposals of the Commission regarding the educational services.

I am accordingly directed to say that the Government of India desire, in the case of the Education Department, to depart from the general line of procedure pursued in dealing with the report as a whole, and I am to address you regarding certain important proposals relating to that Department. It is not proposed in the present communication to deal with questions of leave or pension, as these must be decided largely in accordance with the principles adopted for other services, nor is it proposed to touch for the present on the service for women which the Commission have recommended. The Subordinate Educational Service again was not included in the scope of the Commission's enquiries. The present reference is intended to deal with the main features of the constitution of the Department *qua* the 'Indian' and 'Provincial' Services. Though it will be open to local Governments to make suggestions regarding any of the further detailed recommendations of the Commission bearing on these main features, the object of the Government of India at the present stage is to obtain the views of local Governments at the earliest possible date in respect of the fundamental principles on which the Department should be recognised. The recommendations of the Commission on this subject are summarised in paragraph 36 of their annexure IV, and the present communication is concerned mainly with Nos. (*i*)—(*viii*), (*x*) and (*xviii*) of the recommendations as there summarised.

3. Apart from a certain number of miscellaneous appointments outside the cadre, the existing Department consists of two branches, the collegiate and the administrative, and transfers from one of these branches to the other are fairly frequent in some provinces, but rare in others. The higher branch of the Department again consists of two services, the Indian Educational Service and the Provincial Educational Service, which are nominally parallel to each other but in practice, at any rate so far as pay is concerned, are quite unequal. The former service is recruited in England and consists almost entirely of Europeans who draw a salary rising from Rs 500 to Rs. 1,000 per mensem with certain additional allowances. The latter service is recruited in India and its members draw as a rule a graded pay varying between Rs. 200 and Rs. 700. Proposals for the reorganisation of these services may be framed either in the way adopted by the Commission, though not necessarily in close accord with their specific proposals, or on alternative lines such as are suggested below. The Governor-General in Council desires that local Governments will take into their consideration both these alternative proposals and favour him with their opinion upon them.

4. The proposals made by the Commission are explained in annexure IV of their report and need not be repeated here in detail. The Commission adhere to the present distinction between the collegiate and administrative branches, but they desire that transfers from one to the other should not be permitted except under sanction of Government and to meet the public interest. Moreover, in addition to the main cadre of the Education Department to which reference will presently be made, they recommend the

organisation of (*a*) a body of 20 professors recruited either in England or in India, and (*b*) special recruitment to certain posts which would otherwise fall under class II.

5. As regards the former, it will be noticed that the Commission attached considerable importance to this portion of their scheme as representing a basis for building up a system of higher studies and original research. But they found great difficulty in deciding the relationship of these posts with the existing system of affiliating universities. They suggested, therefore, that such posts might be attached to (*a*) Government colleges, or (*b*) the affiliating universities along the lines now attempted by the Universities of Calcutta, Madras and Allahabad, or (*c*) a post-graduate institute of research.

These proposals are open to obvious criticisms. For example, a Government college professor is, and must be, insufficiently in contact with other colleges to be able to influence the higher teaching of the university as a whole; again, a professor of an affiliating university is almost entirely out of touch with the main stream of college work and also finds it difficult to conduct research work with students whose past training he has been unable to influence or to guide; and a research institute of the character contemplated by the Public Services Commission is impossible of early realisation. It might also be urged that the proposed body of higher professors will tend to debase the position of the ordinary college professor, whose duties are possibly of even greater importance and difficulty than those of the former. The Government of India, however, are in agreement with the Commission in thinking that there is a real need for a body of specialists in the several departments of study who would improve the methods of instruction in colleges and the courses of study in the universities, and would also inculcate a spirit of research, especially in those subjects termed "orientalia" in which India should take a leading part. It will probably be more convenient to consider at a later date the constitution of this class of posts and the method in which they should be brought into being, but it is impossible to neglect altogether this issue in the present reference.

6. So, too, as regards the other special posts referred to in paragraph 3 of annexure IV, it will probably be necessary under any form of organisation to make provision for a class of appointment outside the cadre, as is indeed done under present arrangements. The Government of India do not ask for any detailed proposals regarding the exact number of posts which should be included in this class. If, however, any special posts of importance should be so included to which the Commission have not referred, it is hoped that local Governments will specify the character of such posts.

7. Outside the subsidiary but important matters to which reference has been made, the main proposals of the Commission will result in the amalgamation of the Indian Educational Service and the Provincial Educational Service and, after this amalgamation has been effected, in a division into class I and class II, the distinction between which should be based on the type of work to be performed by each officer. The manner in which this distinction could be carried out is indicated with a certain amount of detail in paragraphs 5 and 6 of annexure IV. The new class I proposed by the Commission is designed to consist, in the first place, of 264 appointments, including (*a*) the present Indian Educational Service, comprising 199 posts, whose incumbents would be transferred *en bloc* to the new class I, and (*b*) posts equal to about one-third of that number to be filled by persons recruited in India either direct or by promotion from the Provincial Service.

Regarding future recruitment to these 264 posts, it is recommended in paragraph 11 of the annexure that the present proportions of recruits obtained in Europe and India respectively, which would under the adjustment above indicated amount roughly to 3 : 1, should be maintained in the future for the existing number of posts taken as a whole, on the understanding that if no candidate from Europe of sufficient merit applied for any particular vacancy which would ordinarily be filled in Europe, there should be no hesitation in making the appointment for that occasion only in India, provided that a better candidate were there forthcoming. It is also recommended that additional posts which may be found necessary hereafter should be filled half by men trained in one country and half by men trained in the other. In this way it was expected that the percentage of the service recruited in India would gradually increase while that taken from Europe would diminish in proportion.

On the administrative side half of the class I posts to be filled up in India are to be reserved for direct recruits, and half given to class II officers provided qualified candidates are available. On the collegiate side, the proportion is to be two-thirds and one-third respectively (paragraph 15 of annexure).

Class II is to be as large as the work to be done requires (paragraph 7), and recruitment for it is to be entirely in India (paragraph 12). The proportion of class II posts to be filled by promotion from the Subordinate Service is left to be determined by the local authorities (paragraph 15).

8. It is proposed by the Commission that both classes should be paid on an incremental scale (paragraph 21). For class I officers who are recruited in India a general scale of Rs. 350—50—1,250 a month is recommended, whilst for those who are recruited in Europe, whether statutory natives of India or not, the Commission propose a salary of Rs. 550—50—1,250 a month. This would bring all officers, irrespective of any selection, on to equal grades of pay after 18 years' service at the latest (paragraph 22). The Commission also provide for selection grades for all alike, wherever recruited and whether statutory natives of India or not, of 10 per cent. of the cadre on Rs. 1,250—50—1,500, and of a further 10 per cent. on Rs. 1,500—50—1,750 a month in all the major provinces except Assam.

For class II the same general scale is proposed as has been recommended for the provincial civil and police services and other such services which are recruited in India. This would give a scale for all provinces, exclusive of Burma, where a special scale is proposed, of Rs. 250—40—450—50—500 a month for the main body of officers; with selection grades of Rs. 500—40—700 a month for 15 per cent. of the total cadre (paragraph 22). These changes are estimated to involve an additional cost of over 9 lakhs per annum (paragraph 23).

9. Such are the main features of the organisation proposed by the Commission and the Government of India would be glad to receive the comments of local Governments on the advisability or otherwise of following the principles laid down. It is desired that special consideration be given to the following points:—

(*a*) Whether a distinction between class I and class II can in practice be made according to the work done in the manner suggested by the Commission and whether the scales of pay proposed for the two classes are suitable.

(*b*) In this connection special attention should be given to the proposed differentiation in pay between the members of class I recruited in England and in India respectively and to the general considerations put forward in paragraph 55 of the Report. In other words, is there to be a distinction of pay in class I, *e.g.*, according as its members are recruited in England or in India or should all officials of this class draw the same pay?

(*c*) In the event of there being a distinction of pay between officers who are deemed to possess European qualifications and others, should Indians be admitted to the former category merely on the ground that they happen to be in Europe when recruited or should there be a condition that Indian officers deemed to possess European qualifications should have received education in Europe for a specified number of years?

10. The Government of India desires that the Commission's scheme should be examined as above suggested, but they recognise that it appears open to criticism in various respects, of which the following appear to be some of the most important:—

(*a*) The Public Services Commission of 1886-7 were of opinion that the recruitment of educational officers in England should be confined as far as possible to principalships of colleges and professorships in those branches of learning in which European standards of knowledge had not been attained in India. Officers so recruited in England were to receive a scale of remuneration based on the attainments required and the duties to be performed. It has been represented that these proposals have not been carried out, and that at the time of the present Commission's enquiry there were only six Indians in a service of 139 members tends to support this contention. Instances are adduced of Indian officers of distinction who have been unable to obtain admission to the Indian Educational Service, and, on the other hand, attention has been drawn to the alleged inferiority of many of the

officers recently appointed in Europe to the Service. By allotting one-quarter of the new class I posts to members of the present Provincial Educational Service or others recruited in India, by giving some definite opportunities for promotion in the future to men of proved merit in class II, and by insisting that, for the posts for which recruitment will be made in England, Indians trained in that country will be eligible, the Commission have attempted to remedy the defects of the old system, while it may be hoped that with the improved conditions of service a better type of candidate for the class I posts will be forthcoming than in the past. The question is, however, whether the Commission's proposals are sufficiently effective, and one point that needs special consideration is that referred to in paragraph 9(*a*) above. It may often be desirable that the teaching of the junior classes in colleges should be conducted by the more experienced and competent officers, and it does not therefore follow that participation in the higher teaching is a claim to inclusion in class I. It is in connection with problems of this sort that the opinions of local Governments will be specially valuable, and the Governor-General in Council hopes that they will be able to suggest some practical means of distinction between class I and class II which will not depend primarily upon racial grounds.

(*b*) Critics of the new proposals may again contend that the main bulk of the educational work in this country should be discharged by Indians serving on Indian rates of pay, and that its guidance and control should be very largely in their hands. Europeans, they would argue, however experienced or scholarly, are unable to understand adequately the needs of Indian students or to enter into their lives with sufficient intimacy or sympathy. Such critics would therefore urge that instead of placing the Education Department, as suggested by the Commission, in that group of services in which a mixture of East and West is desirable, it should be included in the third of the categories described in paragraph 32 of the Commission's report. On the other hand, it may be maintained that while the bulk of the educational service in India should ultimately be manned by Indians recruited in this country and that a knowledge of the minds and habits of the people may be of more value than European training, this contention is under present conditions true only up to a certain point. A uniform service working under Indian rates of pay might reach only a dull level of mediocrity. It seems essential at the present moment to attract the best possible material, European as well as Indian, into educational employ.

On the scholastic side the establishment of some twenty research professorships could do little to raise the general level of university teaching, especially under the affiliating system. For the present therefore, until the new type of unitary or teaching universities has been more generally evolved in India, it seems necessary to give more scope to the capacity of efficient college professors.

Similarly, on the administrative side, provision ought, it is urged, to be made for Western capacity and experience. Even if it were accepted that this branch of the service should in the main be organised upon lines primarily contemplating an Indian staff, it appears of importance to pitch the salaries of some of the more influential and responsible posts on a scale which will attract the really able men, whether Indian or European.

(*c*) A further criticism of the proposals is that they are not adapted to the general trend of Indian educational policy, at any rate in the region of higher education. The progress of the Indian universities in the matter of higher teaching, both in the number of students attending the classes and in the specialised nature of the courses, demands more and more the assistance of highly specialised scholars and a certain measure of concentration of institutions. In paragraph 45 of their educational resolution of 1913 the Government of India declared their preference for the teaching as distinguished from the affiliating university. The proposals of the Dacca and Central Provinces Universities Committees, the Patna University scheme, now under consideration, and the recent changes made in Calcutta for post-graduate teaching are all in the direction of an increased university control over certain forms of teaching and of a certain measure of concentration. Should this line of policy be developed in future and be extended to other parts of India, it is urged that the establishment of a Government service, with its regular conditions of pay, prospects, promotions and transfers, will not be consistent

with the needs and requirements either of new unitary and teaching universities or of reformed affiliating universities. If universities are to conduct certain forms of teaching, they should obviously do so through the agency of their own professors and not through the members of an outside service.

There seems, therefore, some need for re-adjusting the present proposals to suit such future possibilities. It is true that there are many difficulties in the way of the fulfilment of such a policy, but it would be unwise to embarrass its development by the reconstitution of the educational services on lines ill-adapted to the requirements of the universities of the future.

(*d*) It has also been suggested that the line of distinction between the administrative and professorial sides of the service should be drawn even more clearly and decisively than has been done by the Commission. Transfers between the two have evoked a certain amount of criticism in the past and, under any circumstances, are open to some objection. There is to-day an increasing need for specialised knowledge which a man, who has been an inspector for some years cannot hope to have retained. Again, a professor can scarcely hope to attain the necessary intimacy with the Indian system of administration and that satisfactory knowledge of educational theory and practice, which are required from a successful educational administrator.

On the other hand, it may be urged that it is undesirable to have too rigid a line of distinction; that the men in the higher administrative posts would be the better for having had some actual experience of teaching in India; and that professors would profit by having had some experience of administrative work.

(*e*) It may be contended also that the proposals are rather too rigid and that too little scope is given for the employment of men of experience or of ripe scholarship from outside for short periods of time. Indian university education needs, at times, the services of men who have already achieved some distinction in scholarship or some experience of educational administration in other countries.

11. In setting out the above criticisms the Government of India must not be deemed to be prejudging the matters in issue. Their present object is merely to clarify these so as to assist in obtaining the well considered opinions of local Governments. The same remarks apply to the alternative suggestions, which follow, which are intended to elucidate opinion and not to forestall it. Nor in so far as they may prove acceptable, are they necessarily intended for immediate adoption but rather to indicate what may reasonably be accepted as the main policy of future development. For without a definite goal in view it is impossible to devise any satisfactory scheme for the reorganisation of the educational services.

12. (A) It has already been suggested in paragraph 6 of this letter that a certain number of posts in the Indian Educational Service should be turned into special appointments. In accordance with the Commission's proposals, a number of posts roughly equivalent to one-third of the Indian Educational Service (reduced by the exclusion of special appointments) would be added and filled in India. It might be considered whether a larger proportion of Indians might not at once be obtained by the additional transfer of the posts in the Indian Educational Service now vacant owing to the war and other causes (some 37 in number) to that portion of class I which will be recruited in India either by direct recruitment or by promotion. If this were done, taking into account, on the one hand, the reduction in the cadre by the special appointment of research professors, and the probability, on the other hand, that a considerably larger number of Indians will be appointed in England by the Secretary of State from among those educated in that country, the Indian element in class I would, at the outset, more nearly approximate to the European. The Government of India, therefore, would be glad to hear from local Governments (*a*) whether, in their opinion, it would be possible to obtain from the Provincial Educational Service or by direct recruitment so large a number of suitable Indians in this country, and (*b*) whether it would be to the interests of Indian education immediately to fix the proportion of Europeans and Indians at half and half.

(B) In order to prepare the way for a larger recruitment of Indians than is provided for by the Commission, it would also be necessary to fix a scale of pay which could easily be adapted to such altered circumstances in the future, for it would be a matter of great difficulty to reduce the

scale of salaries after the proportion of officers has become very largely Indian. For class I, therefore, pay on the analogy of that recommended by the Commission (paragraph 56) for services requiring high initial qualifications, *viz.*, Rs. 300—½°—50—50—1,050, might be accepted, subject to the grant of special allowances for posts of special importance. There might also be a special allowance of Rs. 200 a month for officers recruited in Europe which should be given also to those few Indians now serving in the Indian Educational Service on full rates of pay. Selection grades would be created, as proposed by the Commission, and would be open to members of class I whether recruited in England or in India.

(C) In view of the difficulties referred to in paragraph 5 above, it might be better to hold the twenty research professorships in abeyance, at any rate for the present—a course which would make it the more desirable to accept the Commission's proposals regarding the selection grades. Should, however, the constitution of unitary and teaching universities become the general policy in the future, it would probably be the best course to transfer a number of posts from the selection grades of class I to the establishments of these universities. It would be premature at present to discuss how and by whom appointments would be made to these new posts, but recruitment would no doubt occasionally be from the ranks of class I of the Government service, provided it were possible to find applicants with the necessary specialised qualifications. Such appointments would give a certain number of officers more favourable opportunities for teaching and research than they can have under the existing system.

Similarly, in reference to the administrative side [*vide* paragraph 10(*b*) *ante*] it may be considered advisable by local Governments to treat the directorship of public instruction in the manner proposed in paragraph 26 of annexure IV to the Commission's report.

It might also be considered whether a certain number of the posts which would ordinarily be included in class I should not be removed from the cadre and left open to be filled by any persons who appear to be peculiarly fitted to discharge the duties attached to them, with the addition to the ordinary salary of such allowance as seemed called for by the qualifications and experience of the person specially selected. In other words, special need may arise from time to time for securing the highest possible talent to fill some of the posts in the educational service, such as a particular inspectorship or the principalship of an important college or the headmastership of a certain high school. There should, in such cases, be a certain latitude of selection which would afford to local Governments the scope necessary for securing the services of the most highly qualified persons irrespective of race, creed or departmental claim. The Government of India would be glad to receive suggestions from local Governments as to what posts might thus be earmarked and some rough estimate of the additional cost involved.

13. The object of the suggestions made in the preceding paragraph is primarily to effect, as regards the immediate future, a stage of transition between the past, when education was very largely in the hands of Europeans, and a time when the reverse will be the case. They are also aimed at laying down a general policy for the future organisation of the Department. It is also desirable to have always in view the possible development of affiliating into teaching universities.

Should the proposals above indicated be carried out, it is possible to postulate (*a*) a service consisting of two classes carrying respectively rates of pay amounting to (1) Rs. 350 rising to Rs. 1,050 with the allowances suggested in paragraph 12 (B) above and selection grades up to Rs. 1,750, and (2) Rs. 250 rising to Rs. 500 and, in the selection grades, to Rs. 700 (*b*) a small number of posts on the administrative side which will be filled up by Government with an eye to efficiency and merit rather than to the claims of a special service and whose incumbents would keep the Indian system of education sufficiently in touch with those of other countries, and (*c*) a number of specialist professors attached to teaching universities, who by their scholarship and experience would maintain a high standard of teaching in the higher grades, and influence the general administration of the universities.

With this end in view I am to invite the opinions of local Governments on these proposals in general and also on the special points (*a*) whether the

system of what may be called European allowances is practicable, (*b*) whether the rates of salary suggested are suitable, and (*c*) whether the general idea underlying sub-paragraph (C) of the preceding paragraph is based on sound principles.

14. The Government of India would be glad to learn the views of each local Government, firstly, as to the class of scheme which they would advocate, *viz.*, a scheme on the lines proposed by the Commission or one on the lines sketched out in paragraph 12 of the present communication, and, secondly, whether in the scheme advocated by the local Government any changes of substance are proposed in modification of the outline given in this letter. It is requested that a reply to this letter may be despatched so as to reach the Government of India by the 30th November next.

15. I am in conclusion to suggest for the consideration of

His Excellency the Governor in Council
His Honour the Lieut.-Governor in Council, etc.

that, in view of the importance which His Majesty's Secretary of State attached to the early submission of proposals in regard to the Department of Education, it might be desirable, with a view to expedite matters, to appoint a strong provincial committee, on which influential Indian opinion should be represented, to consider and report to the local Government upon the proposals dealt with in this letter.

16. The Government of India desire to elicit public opinion to the fullest extent upon the subject of the educational services, which has long attracted widespread interest. They have accordingly decided to publish this circular letter in the forthcoming *Gazette of India*.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR OCTOBER 1917.

I. **Character of the Season.**—The rainfall during the month under review was largely in excess of the normal. The usual rainfall statement is appended.

II. **Progress of Agricultural Operations.**—The steeping and washing of jute and the preparatory tillage for the *rabi* crops were continued. *Rabi* sowings were not general until the third week of the month, the weather during the first two weeks being unfavourable on account of heavy rain and storms.

III. **State of Standing Crops.**—The condition of the winter paddy crop continued satisfactory.

IV. **Prospects and Probable Outturn.**—The prospects of the winter crops are reported to be fairly good.

V. **Damage to Standing Crops.**—Heavy rainfall and high winds did some damage to the unharvested autumn paddy. Some damage was done to *rabi* crops by floods and the crops had to be resown in places.

VI **Condition of Agricultural Stock.**—The condition of agricultural stock was reported as fair. The number of districts from which cattle-disease was reported varied from four to eight.

VII. **Failure of Pasturage and Fodder.**—No complaints have been received regarding shortage of fodder.

VIII. **Prices of Food-grains.**—During the second fortnight of the month under review the price of common rice rose in four districts, fell in seven and remained stationary in the rest. It varied from seven seers and eight chitaks a rupee in the Pirojpur subdivision of Bakarganj to fourteen seers per rupee in the Vishnupur subdivision of Bankura.

IX. **Condition of Agricultural People.**—The condition of the agricultural population was reported as fairly good.

(*b*) the annual value of any building not erected for letting purposes and not ordinarily let shall be deemed to be five *per cent.* on the sum obtained by adding the estimated present cost of erecting the building, less a reasonable amount to be deducted on account of depreciation (if any), to the estimated value of the land valued with the building as part of the same premises:

Provided as follows:—

(*i*) the annual value of a *bustee* shall be deemed to be the gross annual rent at which the land contained within it might reasonably be expected to let from year to year, *plus* the gross annual rent at which the huts or structures erected thereon might reasonably be expected to let from year to year, after deducting therefrom the rent of the land and an allowance of ten *per cent.* for the cost of repairs and for all other expenses necessary to maintain such huts or structures in a state to command such gross rent;

(*iv*) when any building has been valued at a special percentage taken under proviso (*iii*), it may be re-valued at any time after the exceptional circumstances referred to in that proviso have ceased to exist.

the owner may in such case recover from the person who pays him rent the difference between the sum assessed as the owner's share of the consolidated rate in respect of such land or building and the sum at which such share would have been assessed had the land or building been valued only at the amount of rent actually payable to the owner,

and such difference shall be added to the rent and shall be recoverable as rent by the owner from the person liable for the payment of the rent.

Refund of owner's share of consolidated rate for period of vacancy.

[*Cf.* 1899, s. 179.]

Consolidated rate to be paid by owner of a *bustee*.

176. (*1*) Notwithstanding anything contained in section 166, the entire consolidated rate leviable upon a *bustee* shall, after deducting therefrom a sum equal to one-eighth of such rate, be paid by the owner of such *bustee*: [*Cf.* 1899, ss. 180 and 182.]

(*2*) If, when the objection has been finally determined, the previous valuation is altered, then—

(*a*) any sum paid in excess shall be refunded or allowed to be set off against any present or future demand of the Corporation under this Act, and

(*b*) any deficiency shall be deemed to be an arrear of the consolidated rate and shall be payable and recoverable as such:

(Part IV.—Chapter XI.—The Consolidated Rate.—Clause 181.)

Provided that—

(*a*) if any premises have, for the purposes of valuation under section 149, been subdivided or amalgamated with any other premises, and an objection to the valuation thereof has been made under section 156, then the consolidated rate shall, pending the final determination of the objection, be paid on such valuation ; and

(*d*) The decision of the person so appointed shall hold good for a term of six years, subject only to proportionate variation, if in the meantime the number or extent of the buildings and lands vesting in the Government materially increases or decreases, and the assessment shall thereafter be revised in the same manner at the termination of successive periods of six years.

(*b*) if, under the provisions of this Chapter, the Corporation at any time permanently discontinue the unfiltered water-supply, the Local Government may fix such larger free allowance of filtered water per day, in lieu of the supply of unfiltered water, as they may think fit.

Power to Commissioner to allow occupier of premises to lay down service-pipes.

242. Whenever he considers it practicable and consistent with the efficient maintenance of the municipal water-supply to do so, the Commissioner may allow any person occupying any premises to lay down service-pipes from the mains of the Corporation for the purpose of bringing into the premises a supply of filtered and unfiltered water for use therein under the provisions of this Chapter. [*Cf.* 1899, s. 249.]

(Part V.—Chapter XVIII.—Water-supply.—Clauses 245-248.)

245. [*Cf.* 1899, s. 282.]

(*a*) in any case in which the owner satisfies the Commissioner that he is too poor to bear the cost of the said works, the Commissioner may pay the whole or any part of such cost from the Municipal Fund; and

(*b*) if any premises in respect of which any notice is issued under this section are occupied by a person other than the owner, the occupier shall be bound, if the Commissioner so directs, to make to the owner, in respect of all works executed in pursuance of such notice, the payments prescribed by clause (*a*), or clauses (*a*) and (*b*), as the case may be, of section 243.

Provided that where, in the opinion of the Commissioner, the supply of unfiltered water might

possibly lead to contamination, only filtered water shall be supplied—

(*b*) for cow-houses where cows are kept for the purpose of supplying milk for sale.

(*2*) For all water supplied under sub-section (*1*), payment shall be made at such rate as may be prescribed by the Corporation.

(*3*) When any application under sub-section (*1*) is received, the Commissioner may, subject to such charges or rates as may have been fixed by the Corporation, place, or allow to be placed, the necessary service-pipes, taps and works (including water-meters), of such dimensions and character as may be prescribed by the Corporation, and may arrange for the supply of water through such pipes, taps, works and meters.

252. Except in the case of a special agreement to the contrary, the owner of any premises shall bear the expense of keeping all works connected with the supply of water thereto in substantial repair; and, if he fails to do so, the occupier may, after giving the owner three days' notice in writing, himself have the [1899, s. 265.]

[*Cf.* Bom. Act III of 1888, s. 278.]

254. (*1*) Whenever the Commissioner has reason to believe that the filtered water-supply to any premises is being wasted, he may, by written notice, require the owner and occupier of the premises, within a period of four days after service of the notice, to repair and make good any defects in the pipes, taps or fittings connected with the water-supply, so as to put a stop to such waste. [*Cf.* 1899, s. 269.]

(*2*) If any notice issued under sub-section (*1*) is not complied with and the Commissioner has reason to believe that waste still continues, he shall cause to be served on the said owner and occupier a further notice informing them that if the first notice be not complied with within a further period of three days the supply of filtered water to the said premises will be cut off.

(*3*) If, after the expiration of the said period of three days, the Commissioner has reason to believe that waste still continues, he shall cut off the supply of filtered water to the said premises.

[*Cf.* 1899, s. 271.]

(*2*) The said free allowance shall be calculated on the amount of the consolidated rate payable quarterly, and the Commissioner may cause the meter to be read at any time during each quarter, but as nearly as practicable at intervals of three months:

Provided that if, during any quarter, the assessment of such premises is altered, the said free allowance shall be calculated on the consolidated rate payable on the assessment as altered.

(*3*) If such premises are ordinarily occupied by two or more persons holding in severalty, the owner shall be liable for water supplied in excess as referred

to in sub-section (*1*); but such owner shall be entitled to recover rateably from the several occupiers any amount so paid.

(*4*) In any other case, if any premises change hands during any quarter, the last occupier shall be liable for any excess so supplied during the quarter, unless, not less than three days before the date of his occupation, he causes a written notice to be served upon the Commissioner in which—

(*a*) the date upon which such occupation is to commence is stated, and

(*b*) the Commissioner is required to cause the meter to be read on the said date.

(*5*) Upon receipt of such notice the Commissioner shall cause the meter to be read, and the previous occupier shall be liable for any such excess over the quantity to which he is entitled under section 241 in accordance with the proportion of the consolidated rate payable up to the date of the reading of the meter, or according to the number of the inmates of the said premises up to such date, as the case may be.

[*Cf.* Bom. Act III of 1888, s. 286.]

(*2*) The existence of artificial means for— [*Cf.* 1899, s. 276 (2).]

(*2*) An appeal shall lie to the Local Government from any refusal by the Corporation to pass any such resolution, or from any direction given by the Corporation in any such resolution.

(*3*) Before deciding any such appeal, the Local Government shall consider any representation made by the Corporation with reference thereto.

(*5*) Every order made by the Local Government on any such appeal shall be final.

Supply of water to persons residing out of Calcutta or for use without Calcutta.

(*f*) cause or suffer to be discharged into any drain from any factory, bakehouse, distillery, workshop or workplace, or from any building or place in which steam, water or mechanical power is employed,

any hot water, steam or fumes, or any liquid which would prejudicially affect the drain or the disposal by sale or otherwise of the sewage conveyed along the drain, or which would, from its temperature or otherwise, be likely to create a nuisance.

(Part V.—Chapter XX.—Licensed Plumbers.—Clauses 311-314.)

(*2*) No owner or occupier of any land or building shall cause or allow any work referred to in sub-section (*1*) to be executed by any person other than a licensed plumber.

(*3*) If the owner or occupier of any land or building contravenes sub-section (*2*) in respect of any work referred to in clause (*a*), the Commissioner may, whether such owner or occupier is prosecuted under this Act or not, cut off the municipal water-supply connection with the said land or building until the said work has been dismantled or re-executed to his satisfaction.

CHAPTER XXI.

STREETS AND PUBLIC PLACES.

Proprietary Rights of the Corporation.

Public streets and squares vested in the Corporation and power to the Corporation to name such streets and squares.

315. (*1*) All public streets and squares (not being the property and kept under the control of the Government or the Commissioners for the Port of Calcutta), including the soil, and the side-drains, footways, pavements, stones and other materials of such streets and squares, and all erections, materials, implements and other things provided for such streets or squares shall vest in and belong to the Corporation. [*Cf.* 1899, s. 338.]

(*2*) The Corporation may, from time to time, determine the name by which any public street or square is to be known. [*Cf.* 1899, s. 348 (*1*).]

Maintenance, Repair, Protection and Regulation of Streets and Public Places.

Maintenance and repair of public streets by Corporation.

316. The Commissioner shall, out of funds to be allotted by the Corporation, cause the public streets to be maintained and repaired, and for those purposes may do all things necessary for the public safety or convenience, including the construction and maintenance of bridges, causeways and culverts. [*Cf.* 1899, s. 337.]

Watering, etc., of public streets and squares.

317. The Commissioner shall, so far as he may consider it necessary so to do for the public convenience, cause the chief public streets and squares to be watered, oiled or otherwise treated in a suitable manner, and for that purpose may provide such animals, water-carts, materials and other apparatus as he may think necessary. [*Cf.* 1899, s. 338.]

Rules for maintaining, repairing, etc., streets and public places.

318. Streets and public places shall be maintained, repaired, protected and otherwise regulated in accordance with the rules contained in Schedule XV.

Power to Commissioner to remove or alter portions of buildings or fixtures attached to building which project, etc., over public street or land.

319. (*1*) When any portion of a building or any fixture attached to a building so as to form part of the building, whether erected before or after the commencement of this Act, causes a projection, encroachment or obstruction over or on any public street or any land vested in the Corporation, the Commissioner may, by written notice, require the owner or occupier of the building to remove or alter such portion of the building or fixture. [*Cf.* 1899, s. 341.]

(*2*) If the expense of removing or altering any such portion of a building or fixture is paid by the occupier of the building, in any case in which the same was not erected by himself, he shall be entitled to deduct the expense of removal or alteration from the rent payable by him to the owner of the building.

(*3*) If the owner or occupier of the building proves that any such portion of the building or fixture was erected before the first day of June, 1863, or that it was erected on or after that day with the consent of any municipal authority duly empowered in that behalf, the Corporation shall, after such portion of the building or fixture has been removed, make reasonable compensation to every person who suffers damage by the removal or alteration thereof.

(Part V.—Chapter XXI.—Streets and Public Places.—Clauses 320-322.)

Power to Commissioner to remove other obstructions in public street.

320. (*1*) The Commissioner may remove any wall, fence, rail, post, platform, or other obstruction, projection or encroachment (not being a portion of a building or fixture referred to in section 319) which has been erected or set up, and any materials or goods which have been deposited, in a public street or in or over any drain or aqueduct in a public street, whether the offender be prosecuted under this Act or not; [*cf.* 1899, s. 342.]

and the offender shall be liable for the payment of the expense of such removal.

(*2*) When, under sub-section (*1*), the Commissioner removes any wall or other obstruction, projection or encroachment from land which forms part of a public street, no compensation shall be payable, but the Commissioner shall be bound to provide proper means of access to and from the street if none exists already.

Building-lines and Street Alignments for Public Streets.

Power to Corporation to prescribe building-line and street alignment.

321. (*1*) If the Corporation consider it expedient to prescribe for any public street a building-line or a street alignment, or both a building-line and a street alignment, as the case may be, they shall give public notice of their intention so to do. [*cf.* 1899, s. 350.]

(*2*) Every such notice shall specify a period within which objections will be received.

(*3*) The Corporation shall consider all objections received within the said period, and may then make an order prescribing a building-line or a street alignment, or both a building-line and a street alignment, as the case may be, for such public street.

(*4*) A building-line shall not be prescribed so as to extend further back than the front of any building (other than a boundary wall) abutting on the street at its widest part.

(*5*) Every order made under sub-section (*3*) shall be published in the *Calcutta Gazette* and shall take effect from the date of such publication.

Restrictions on erection of, or addition to, buildings or walls within street alignment or building-line.

322. (*1*) No portion of any building or wall shall be erected or added to within a street alignment prescribed under section 321 : [*cf.* 1899, s 351.]

Provided that the Corporation may, in their discretion, permit additions to a building to be made within a street alignment, if such additions merely add to the height of, and rest upon, an existing building or wall, upon the owner of the building executing, if required to do so by the Commissioner, an agreement binding himself and his successors in interest—

(*a*) not to claim compensation in the event of the Commissioner at any time thereafter calling upon him or such successors, by written notice, to remove any building erected or added to in pursuance of such permission, or any portion thereof, and

(*b*) to pay the expenses of such removal.

(Part V.—Chapter XXI.—Streets and Public Places.—Clauses 323, 324.)

(*2*) If the Commissioner refuses to grant the permission applied for to erect or add to any building on the ground that the proposed site falls wholly or in part within a street alignment prescribed under section 321, and if such site, or the portion thereof which falls within such alignment, be not acquired by the Commissioner on behalf of the Corporation within one year after the date of such refusal, the Corporation shall pay reasonable compensation to the owner of the site.

(*3*) If any person desires to erect or add to any building between a street alignment and the building-line prescribed under section 321, he shall submit an application in writing to the Commissioner for permission so to do.

(*4*) If the Commissioner grants the permission applied for under sub-section (*3*), he may require the applicant to execute an agreement in accordance with the proviso to sub-section (*1*):

Provided that it shall not be necessary to obtain permission under this section to erect, between a street alignment and the building-line,—

(*a*) a porch or balcony, or,

(*b*) along not more than one-third of the frontage, an out-house not exceeding 15 feet in height.

Power to Commissioner to take possession of, and add to street, land situated within prescribed street alignment or covered by projecting buildings.

323. (*1*) The Commissioner may at any time, on behalf of the Corporation, take possession of— [*Cf.* 1899, s. 352.]

(*a*) any land (abutting on a public street) upon which any building or wall projecting beyond the front of the adjoining building or wall, on either side of such first mentioned building or wall, has collapsed or been demolished or burnt down, and

(*b*) any land not covered by buildings (including land on which a building has collapsed or been demolished or burnt down) which is situated within a street alignment prescribed under section 321,

after making full compensation to the owner thereof for any direct damage which he may sustain thereby.

(*2*) Any land taken possession of under sub-section (*1*) shall forthwith be added to and become part of the said street, and shall vest in the Corporation.

Explanation.—The expression "direct damage," as used in sub-section (*1*) with reference to land, means the market-value of the land taken and the depreciation, if any, in the ordinary market-value of the rest of the land resulting from the area being reduced in size; but does not include damage due to any particular use to which the owner may allege that he intended to put the land although such use may be injuriously affected by the reduction of the site.

Power to Corporation to set buildings forward to improve line of public street.

324. The Corporation may, upon such terms as they think fit, allow any building or wall to be set forward for the purpose of improving the line of a public street. [*Cf.* 1899, s. 353.]

(Part V.—Chapter XXI.—Streets and Public Places.—Clauses 325-329.)

Opening, Improvement and Closing of Public Street.

Power to Corporation to make, improve and close streets.

325. The Corporation may— [*Cf.* 1899, s. 354.]

(*a*) lay out and make new streets;

(*b*) construct new bridges and sub-ways;

(*c*) turn, divert, discontinue or permanently close any public street or part thereof; and

(*d*) widen, open, enlarge, or otherwise improve any public street.

Power to Corporation to dispose of so much of a permanently-closed street as is not required.

326. (*1*) When any public street, or part thereof, is permanently closed under section 325, the Corporation may sell or lease the site of so much of the road-way and foot-path as is no longer required, making due compensation to, or providing means of access for, any person who may suffer damage by such closing. [*Cf.* 1899, s. 355.]

(*2*) In determining such compensation under section 526, the Court shall make allowance for any benefit accruing to the same premises or any adjacent premises belonging to the same owner from the construction or improvement of any other public street at or about the same time that the public street, on account of which the compensation is paid, is closed.

Projected Public Streets.

Projected public streets.

327. (*1*) The Corporation may from time to time prepare schemes and plans of projected public streets, showing the direction of such streets, the street alignment and building-line on each side of them, their intended width, and such other details as may appear desirable. [*Cf* 1899, s. 356.]

(*2*) The width of such projected streets, inclusive of space for foot-paths, shall not be less than forty feet or, in a *bustee*, twenty feet:

Provided that—

(*a*) the sub-section shall not apply in any case in which the projected street, or any part thereof, runs along an existing street and the Corporation consider it impracticable to widen the street to the extent of forty feet or twenty feet, as the case may be; and

(*b*) if the width of the projected street be less than forty feet, the building-line for masonry buildings on each side thereof shall not be less than twenty feet from the centre line of such street.

Provisions of section 322 to apply to projected public streets.

328. The provisions of section 322 shall, with all necessary modifications, apply to public streets projected under section 327.

Acquisition of Land and Buildings.

Power to Corporation to acquire land and buildings for improvement of public streets.

329. (*1*) The Corporation may acquire— [*Cf.* 1899, s. 357.]

(*a*) any land required for the purpose of opening, widening, extending or otherwise improving any public street, or of making any new public street, and

(*b*) the buildings (if any) standing upon such land.

(Part V.—Chapter XXI.—Streets and Public Places.—Clause 330.)

(*2*) The Corporation, with the sanction of the Local Government, may acquire, in addition to land and buildings acquired under sub-section (*1*), any land outside any proposed street alignment, with the buildings (if any) standing thereupon, which the Corporation may, for any of the purposes mentioned in sub-section (*1*), consider it expedient to acquire.

Abandonment of Acquisition.

Abandonment of acquisition in consideration of special payment.

330. (*1*) In any case in which the Local Government have sanctioned the acquisition of land under section 329, sub-section (*2*), the owner of the land, or any person having an interest therein, may make an application to the Commissioner, requesting that the acquisition of the land may be abandoned in consideration of the payment by such person of a sum to be fixed by the Corporation in that behalf. [*Cf.* 1899, s. 357 and Ben. Act V of 1911, s. 78.]

(*2*) The Commissioner shall admit every such application, if it—

(*a*) reaches him before the time fixed by the Collector under section 9 of the Land Acquisition Act, 1894, for making claims in reference to the land, and I of 1894.

(*b*) is made by all persons who have interests in the land greater than a lease for years having seven years to run.

(*3*) If the Commissioner admits any such application, he shall forthwith inform the said Collector, and the Collector shall thereupon stay, for a period of three months, all further proceedings for the acquisition of the land, and the Corporation shall proceed to fix the sum in consideration of which the acquisition of the land may be abandoned.

(*4*) Within the said period of three months, or, with the permission of the Corporation, at any time before the Collector has taken possession of the land under section 16 of the Land Acquisition Act, 1894, I of 1894. the person from whom the Corporation have arranged to accept the sum so fixed may, if the Corporation are satisfied that the security offered by him is sufficient, execute an agreement with the Corporation, either—

(*i*) to pay the said sum two years after the date of the agreement, or

(*ii*) to leave the said sum outstanding as a charge on his interest in the land, subject to the payment in perpetuity of interest at the rate of four *per cent. per annum*, and to make the first annual payment of such interest three years after the date of the agreement :

Provided that the Corporation may, at any time before the Collector has taken possession of the land under section 16 of the Land Acquisition Act, 1894, I of 1894. accept immediate payment of the said sum instead of an agreement as aforesaid.

(*5*) When any agreement has been executed in pursuance of sub-section (*4*), or when any payment has been accepted in pursuance of the proviso to that sub-section, in respect of any land, the proceedings for the acquisition of the land shall be deemed to be abandoned.

(Part V.—Chapter XXI.—Streets and Public Places.—Clauses 331-333.)

(*6*) Every payment due from any person under any agreement executed under sub-section (*4*) shall be a charge on the interest of that person in the said land.

(*7*) If any instalment of interest payable under an agreement executed in pursuance of clause (*ii*) of sub-section (*4*) be not paid on the date on which it is due, the sum fixed by the Corporation under sub-section (*3*) shall be payable on that date, in addition to the said instalment.

(*8*) At any time after an agreement has been executed in pursuance of clause (*ii*) of sub-section (*4*), any person may pay off the charge created thereby, with interest, at the rate of four *per cent. per annum* up to the date of such payment.

(*9*) When an agreement in respect of any land has been executed by any person in pursuance of sub-section (*4*), no suit with respect to such agreement shall be brought against the Corporation or the Commissioner by any other person (except an heir, executor or administrator of the person first aforesaid) claiming to have an interest in the land.

Recovery of money payable in pursuance of section 330

331. When an agreement has been executed by any person in pursuance of section 330, sub-section (*4*), in respect of any land, and any money payable in pursuance of that section is not duly paid, the same shall be recoverable by the Commissioner (together with interest, up to the date of realization, at the rate of four *per cent. per annum*), under the provisions of this Act; [*Cf.* 1899, s. 857 and Ben. Act V of 1911, s. 79.]

and, if not so recovered, the Commissioner may, after giving public notice of his intention so to do, and not less than one month after the publication of such notice, sell the interest of the said person or successor in such land by public auction, and may deduct the said money and the expenses of the sale from the proceeds of the sale, and shall pay the balance (if any) to the defaulter.

Agreement or payment under section 330 not to bar acquisition under a fresh declaration

332. If any land in respect of which an agreement has been executed, or a payment has been accepted, in pursuance of section 330, sub-section (*4*), be subsequently required for any of the purposes of this Act, the agreement or payment shall not be deemed to prevent the acquisition of the land in pursuance of a fresh declaration published under section 6 of the Land Acquisition Act, 1894. [*Cf.* 1899, s. 857 and Ben. Act V of 1911, s. 80.] 1 of 1894.

Special Provisions as to Private Streets.

Making of new private streets.

333. (*1*) Any person intending to make or lay out a new private street shall send to the Commissioner a written notice, with plans and sections showing the following particulars of the proposed street, namely:— [*Cf.* 1899, s. 358.]

(*a*) the level and width of the street,

(*b*) the street alignment and the building-line, and

(*c*) the arrangements to be made for levelling, paving, metalling, flagging, channelling, sewering, draining and lighting the street.

(*2*) The provisions of this Act as to the width of public streets and the height of buildings abutting

thereon, and as to projected public streets, shall respectively apply in the case of streets referred to in sub-section (*1*) and all the particulars referred to in that sub-section shall be subject to approval by the Corporation :

Provided that the Corporation may allow a private street to be made or laid out of a width less than forty feet but not less than twenty feet, if the distance between the building-lines for masonry buildings on each side of the street be not less than forty feet :

Provided also that, at the time of sanctioning the making of a private street less than forty feet in width, the Corporation may reserve the right to call upon the person to whom such sanction is granted, or his successor in interest, at any time after a period to be fixed by the Corporation, to widen such street to the full width of forty feet, and such person or his successor in interest shall thereupon be bound to obey such requisition.

(*3*) Within sixty days after the receipt of any notice under sub-section (*1*), the Corporation shall either sanction the making of the street, or disallow it, or ask for further information with respect to such street.

(*4*) Such sanction may be refused—

(*i*) if the proposed street would conflict with any arrangements which have been made, or which are in the opinion of the Corporation likely to be made, for carrying out any general scheme of street improvement, or

(*ii*) if the proposed street does not conform to the provisions of this Act referred to in sub-section (*2*), or

(*iii*) if the proposed street is not designed so as to connect at one end with a street which is already open.

(*5*) If further information is asked for under sub-section (*3*), no steps shall be taken to make or lay out the street until orders have been passed upon receipt of such information.

Prohibition of breach of section 333.

334. No person shall make or lay out any street referred to in section 333, sub-section (*1*),— [*Cf.* 1899, s. 359.]

(*a*) until he has obtained the sanction of the Corporation under that section, or

(*b*) in contravention of any orders made thereunder.

Alteration or demolition of street made in breach of section 333.

335. (*1*) If any person makes or lays out any street referred to in section 333, sub-section (*1*), without having obtained the sanction of the Corporation under that section, or in contravention of any orders made thereunder, the Commissioner may, whether or not the offender be prosecuted under this Act, by written notice, [*Cf.* 1899, s 360.]

(*a*) require the offender to show sufficient cause, by a written statement signed by him and sent to the Commissioner on or before such day as may be specified in the notice, why such street should not be altered to the satisfaction of the Commissioner, or, if such alteration be impracticable, why such street should not be demolished, or

(Part V.—Chapter XXI.—Streets and Public Places.—Clauses 336-338.)

(*b*) require the offender to appear before the Commissioner, either personally or by a duly authorized agent, on such day and at such time and place as may be specified in the notice, and show cause as aforesaid.

(*2*) If any person on whom such notice is served fails to show sufficient cause, to the satisfaction of the Commissioner, why such street should not be so altered or demolished, the Commissioner may cause the street to be so altered or demolished, and the expenses thereof shall be paid by such person.

Levelling, etc., of private streets.

336. (*1*) If any private street or any part thereof be not levelled, paved, metalled, flagged, channelled, sewered, drained and lighted to the satisfaction of the Commissioner, he may, by written notice to the owner of such private street or the respective owners or occupiers of the land fronting, adjoining or abutting upon such street or part, as the case may be, require them to level, pave, metal, flag, channel sewer, drain and light such street or part. [*Cf.* 1899, s. 361.]

(*2*) If such notice be not complied with and the Commissioner, under section 513, sub-section (*2*), executes the works mentioned or referred to therein, the expenses thereby incurred shall be paid by the owner of such private street or the owners or occupiers in default, in such proportion as may be settled—

(*a*) by the Commissioner, or,

(*b*) in case of dispute, by the Court under section 526.

Power to Corporation to take over private streets.

337. If any private street which conforms to the provisions of this Act referred to in section 333, sub-section (*2*), be levelled, paved, metalled, flagged, channelled, sewered, drained and lighted to the satisfaction of the Commissioner, and if a majority of— [*Cf.* 1899, s. 362.]

(*a*) the owners of buildings in such street, or

(*b*) the owners of the street, or

(*c*) the owners or occupiers who have paid the expenses referred to in section 336, sub-section (*2*),

signify in writing their consent thereto, the Corporation may, if they think fit, declare the same, by written notice put up in any part of such street, to be a public street, and thereupon the same shall become a public street and shall vest in the Corporation.

Appeal.

Appeal to General Appeals Committee.

338. An appeal shall lie to the General Appeals Committee from—

(*a*) any written notice issued by the Commissioner under section 319, sub-section (*1*), or section 336, sub-section (*1*),

Licensing of building surveyors.

341. (*1*) The Commissioner may from time to time grant to any person he thinks fit a license to act as a licensed building surveyor for the purposes of this Chapter. [*Cf.* Bom. Act III of 1888, s. 355.]

(*2*) The Corporation may prescribe the qualifications to be required in persons to whom licenses may be granted under sub-section (*1*).

(*3*) Every such license shall be for a renewable period of three years.

(*4*) If the Commissioner refuses any application for a license under this section, he shall, at the request of the applicant and without any charge, furnish him with his reasons for such refusal, in writing under his signature.

342. The Commissioner may make rules for the guidance of licensed building surveyors, and a copy of all such rules, for the time being in force, shall be written on the back of every license granted under section 341. [*Cf.* Bom. Act III of 1888, s. 356.]

[*Cf.* Bom. Act III of 1888, s. 339.]

344. (*1*) The Corporation may at any time give public notice of their intention to declare that, in any street, portion of a street or locality specified in the notice,— [*Cf* 1899, s. 367.]

(*a*) the elevation and construction of the frontage of all new buildings (other than huts) thereafter erected shall, in respect of their architectural features, be such as the Commissioner may consider suitable to the locality, or

(*b*) the erection of only detached buildings will be allowed, subject to the provisions of this Act relating to detached buildings, or

(*c*) the erection of shops, or of buildings of the warehouse class, will not be allowed without the special permission of the Commissioner, or

(*f*) the court-yard of every hut thereafter erected shall be paved with some impermeable material.

(*2*) No objections to any such declaration shall be received after a period of three months from the publication of such notice.

(*3*) The Corporation shall consider all objections received within the said period, and may prepare a declaration relating to the streets or localities referred to in the notice and submit the declaration to the Local Government, together with the said objections (if any) and their report upon them.

(*4*) The Local Government, after considering the said objections (if any), may confirm the declaration, and before doing so, may modify it, but not so as to extend its effect.

(*5*) When any such declaration has been so confirmed, it shall be published in the *Calcutta Gazette* and shall take effect from the date of such publication.

(*6*) No person shall erect any new building in contravention of any such declaration.

Masonry building not to be erected without special permission in certain cases.

345. (*1*) Save with the special permission of the Commissioner, no new building (other than a hut) shall be erected unless—

(*a*) the site of such building abuts on a public street, or a projected public street, or a private street duly sanctioned and constructed under section 333, or

(*b*) there is access to the building from any such street by a passage or pathway, appertaining exclusively to such site, and not less than sixteen feet wide at any part.

(*2*) No building shall be erected so as to deprive any masonry building of the means of access prescribed by clause (*b*).

Power to Commissioner to require alteration of existing public building.

347. (*1*) Save with the special permission of the Commissioner, no person shall use a building or part of a building erected for use as, and belonging to, any one class of buildings, as a building of any other class in such a manner that the building or part thereof so used will not be in conformity with the provisions

of this Act, or of any rules or by-laws made thereunder, relating to buildings of the said other class.

(*2*) The provisions of sub-section (*1*) shall not apply to the use as a shop of a building or part of a building which was not erected for such use:

Provided that if, in any street, portion of a street or locality in which the erection of shops is not allowed under clause (*c*) of section 344, any such building or part thereof is used as a shop without the special permission of the Commissioner, he may, by written notice, require the owner or occupier of such shop to close the same.

Application of Act to alterations of, and additions to, buildings.

(*c*) any orders, rules and by-laws made under this Act,

relating to the erection of new buildings, shall, subject to the rules in Part X of the said Schedule XVI, apply to every alteration of, or addition to, any building, and to any other work (except that of necessary repairs not involving any of the works specified in rule 94 of the said Schedule) made or done for any purpose in, to, or upon any building.

Explanation.—No work of re-erection or re-construction which would constitute any building a new building under sub-clause (*b*), sub-clause (*c*) or sub-clause (*d*) of clause 36 of section 3 shall, for the purposes of this section, be deemed to be an alteration of, or addition to, or any other work made or done to or upon, such building, but in the case of such re-erection or re-construction the provisions relating to the erection of new buildings as referred to in this section shall apply to the whole of the said new building.

CHAPTER XXIII.

BUSTEES.

Preliminary.

Power to Corporation to define and alter limits of *bustees*.

351. The Corporation may define the external limits of any *bustee*, and may from time to time alter such limits. [*Cf.* 1899, s. 398.]

Restriction on application of this Chapter to certain *bustees* or to masonry buildings in *bustees*.

352. None of the powers conferred by any of the following sections of this Chapter shall be exercisable in respect of— [*Cf.* 1899 s. 399.]

(*a*) any *bustee* the total area of which, as comprised within the limits defined under section 351, is less than one *bigha*, or

(*b*) masonry buildings in a *bustee* or lands pertaining to such buildings, unless such buildings and lands be purchased or acquired by the Corporation.

Improvement of bustees.

Power to Corporation to require preparation of standard plan by owners of *bustees*

353. (*1*) The Corporation may at any time, if it appears to them that any *bustee*, for sanitary or other reasons, requires improvement, serve a written notice upon the owners of such *bustee* requiring them to prepare and submit a joint plan of the *bustee*, to the scale of twenty-five feet to the inch, showing— [*Cf.* 1899, s. 400.]

(*a*) the manner in which the *bustee* should be laid out, with the huts standing in regular lines and with a free passage, in front of and behind each line, of such width as may be necessary for proper ventilation and for scavenging,

(*b*) the proposed drains,

(*c*) the water-supply, bathing arrangements (if any) and privy accommodation to be provided for the use of the tenants,

(*d*) the streets and passages which are to be maintained for the benefit of the tenants,

(*e*) the land (if any) which is to be kept as common land,

(*f*) the tanks, wells and low lands which are to be filled up and the tanks which are to be conserved, and

(*g*) any other proposed improvements.

(*2*) The streets referred to in clause (*d*) shall be not less than twenty feet wide and not more than two hundred feet apart, and the passages referred to in that clause shall be not less than fifteen feet wide.

(*3*) If there are any masonry buildings within the limits of the *bustee*, the said plan shall be so prepared as clearly to distinguish such buildings and the lands pertaining to them.

(Part V.—Chapter XXIII.—Bustees.—Clauses 354-357.)

(*4*) The said plan—

(*i*) shall be considered by the Corporation and modified in such manner as may be required, and

(*ii*) shall, when approved by them, be deemed to be the standard plan of the *bustee*.

Preparation of standard plan by Commissioner where owners disagree, etc.

354. (*1*) If, after the service of a notice under section 353 on the owners of any *bustee*, such owners— [*Cf.* 1899, s. 401.]

(*a*) do not agree among themselves in the preparation of a plan as required by such notice, or

(*b*) for any reason prefer to have a plan prepared for them by the Commissioner, or

(*c*) fail to comply within sixty days with such notice,

the Commissioner shall himself cause a plan to be prepared to the scale and showing the particulars prescribed in the said section.

(*2*) When a plan has been prepared under sub-section (*1*), the Corporation shall fix a day for the hearing of objections (if any) made by or on behalf of the owners of the *bustee*,

and, after hearing such objections, may, in their discretion, approve such plan either with or without modifications.

(*3*) Every plan of a *bustee* approved under sub-section (*2*) shall be deemed to be the standard plan of the *bustee*.

(*4*) When the Commissioner causes a plan to be prepared under sub-section (*1*), he may charge the said owners therefor at such rate not exceeding five rupees *per bigha* as the Corporation may fix.

Suspension of building pending preparation of standard plan.

355. When the owners of a *bustee* have been required under section 353 to prepare a plan, no new building which is a hut shall be erected and no hut shall be added to within the *bustee* until a plan has been prepared and approved under that section or under section 354. [*Cf.* 1899, s. 402.]

Prohibition of building contrary to standard plan.

356. When a standard plan has been approved for any *bustee* under section 353 or section 354, no new building which is a hut shall be erected and no hut shall be added to in such *bustee* unless the hut, or the portion to be added, as the case may be, occupies a site, or portion of a site, marked in the standard plan as the site for a hut. [*Cf.* 1899, s. 403.]

Power to Commissioner to require removal of hut not in conformity with standard plan.

357. (*1*) When a standard plan has been approved for any *bustee* under section 353 or section 354, the Commissioner may at any time, by written notice, require the owner of any hut in such *bustee*, which is not in conformity with the standard plan, to remove the whole or any portion of such hut. [*Cf.* 1899, s. 404.]

(*2*) When a hut or portion of a hut has been removed in compliance with a requisition made under sub-section (*1*), the owner shall be entitled to receive from the Municipal Fund such compensation calculated according to the estimated value of the structure removed, less the value of the materials, as the Commissioner may determine.

(Part V.—Chapter XXIII.—Bustees.—Clauses 358, 359.)

Power to Commissioner to require carrying out of other improvements in conformity with standard plan.

358. (*1*) The Commissioner may at any time, by written notice, require the owners of any *bustee* for which a standard plan has been prepared under section 353 or section 354— [*Cf.* 1899, s. 405.]

(*a*) to construct the drains, privies, streets and passages, provide the water-supply and bathing arrangements, and carry out the other improvements shown in such plan, so far as may be practicable having regard to the existing arrangement of the huts, and

(*b*) if any tank, well or low land is shown in such plan as to be conserved or filled up, to conserve or fill up such tank, well or low land.

(*2*) Until such notice is complied with, the Commissioner may refuse to sanction the erection of a new building which is a hut or the making of any addition to any hut in the *bustee*.

Inspection, report and preparation of standard plan by registered medical practitioner and engineer, in cases requiring expedition

359. (*1*) If it appears to the Corporation that any *bustee*,— [*Cf.* 1899, s. 406.]

(*a*) by reason of the manner in which the huts are crowded together, or

(*b*) for any other reason,

is in such an unhealthy condition that the procedure provided by the foregoing sections of this Chapter would be too dilatory to meet the emergency,

they may cause the *bustee* to be inspected by two persons appointed in that behalf, one of whom shall be a registered medical practitioner and the other an engineer.

(*2*) The said persons shall forthwith—

(*a*) make, sign and submit a written report on the sanitary condition of the *bustee*, and

(*b*) annex to the report a plan approved by them as a proper standard plan of such *bustee*. and

(*c*) certify—

(*i*) which of the improvements required to bring the *bustee* into conformity with such plan should be taken in hand forthwith in consequence of the unhealthy condition of the *bustee*, and

(*ii*) which (if any) of such improvements should be deferred for action under the foregoing sections of this Chapter.

(*3*) The improvements referred to in sub-clause (*i*) and sub-clause (*ii*) of sub-section (*2*) shall be specified in two separate Schedules which shall be annexed to the report and called Schedule A and Schedule B, respectively.

(*4*) The said Schedules shall clearly indicate—

(*a*) the huts which should wholly or in part be removed,

(*b*) the streets, passages and drains which should be constructed,

(Part V.—Chapter XXIII.—Bustees.—Clauses 360-362.)

(*c*) the water-supply, bathing arrangements and privy accommodation to be provided for the use of the tenants,

(*d*) the tanks, wells and low lands which should be filled up,

(*e*) any other improvements which the two persons appointed under sub-section (*1*) may consider necessary in order to remove or abate the unhealthy condition of the *bustee*, and

(*f*) any masonry building within the *bustee*, and any land pertaining to such building which it may be necessary to purchase or acquire for the purpose of making such streets or passages, or effecting any such improvement. [*cf.* 1899, Sch. XVII, rule 16A (*a*)]

(*5*) A report (together with the Schedules annexed thereto) made and signed under this section by any two persons appointed under sub-section (*1*) shall be sufficient evidence of the result of such inspection.

Approval by Corporation of standard plan and Schedules annexed to such report.

360. (*1*) The Corporation shall consider every report (together with the plan and Schedules A and B annexed thereto) made under section 359, and, after hearing the objections (if any) of the owners of the *bustee* in respect of which the report has been made, may approve such plan and Schedules after making such modifications (if any) therein as they may think fit. [*cf.* 1899, s. 407.]

(*2*) The plan so approved shall be deemed to be the standard plan of such *bustee*.

Power to Commissioner to require owners or occupiers to carry out improvements specified in Schedule A.

361. When Schedule A, annexed to a report made under section 359, has been approved under section 360, the Commissioner may cause a written notice to be served upon— [*cf.* 1899, s. 408.]

(*a*) the owners or occupiers of the huts referred to in such Schedule A, or

(*b*) the owners of the *bustee* in which such huts are situated, or

(*c*) both such owners and occupiers, if the circumstances so require,

requiring them to carry out all or any of the improvements specified in that Schedule or any portion of such improvements.

Payment of expenses incurred in carrying out improvements.

362. When any improvements required by a notice under section 361 are carried out by the Commissioner under section 513, all expenses incurred thereby, including such reasonable compensation as the Commissioner may think fit to pay to the owners or occupiers of huts removed, [*cf.* 1899, s. 409.]

shall be paid by the owners of the *bustee* to the Commissioner, and shall constitute a charge upon such *bustee*:

Provided that, if it appears to the Corporation that any such owner is unable, by reason of poverty, to pay such expenses or any portion thereof, they may order the same to be paid out of the Municipal Fund.

(Part V.—Chapter XXIII.—Bustees.—Clauses 363-366.)

Disposal by the Commissioner of materials of huts pulled down.

363. *(1)* If, in carrying out any improvement as provided in section 361, the Commissioner causes any hut or portion of a hut to be pulled down, he shall— [*Cf.* 1899, s. 410.]

(*a*) cause the materials of such hut or portion of a hut to be given to the owner of the hut, or,

(*b*) if the owner be unknown or the title to the hut be disputed, cause such materials to be sold; and

(*c*) hold in deposit the proceeds of the sale, together with any sum awarded as compensation under section 362.

(2) Any amount held in deposit under clause (*c*), shall be so held by the Commissioner until any person obtains an order from a competent Court for the payment to him of such amount.

(3) A Court of Small Causes shall be deemed to be a competent Court for the purposes of this section.

Power to Corporation to purchase or acquire masonry buildings or land in *bustee*.

364. The Corporation may, at any time after the receipt of a report made under section 359, purchase or acquire— [*Cf.* 1899, s. 411.]

(*a*) any masonry building within such *bustee*, or

(*b*) any land pertaining to such building, or

(*c*) any such building, together with the land pertaining thereto,

which is mentioned in that behalf in Schedule A or Schedule B annexed to such report.

Application of sections 356 to 358 to *bustee* for which standard plan has been approved under section 360.

365. When a standard plan of a *bustee*, and any Schedule B, annexed to the report made under section 359 with respect to that *bustee*, have been approved under section 360— [*Cf.* 1899, s 412.]

(*a*) the provisions of section 356 shall apply to such *bustee*, and

(*b*) the provisions of section 357 and section 358 shall apply to such *bustee* in respect of the improvements indicated in that Schedule as provided in section 359, sub-section (*4*).

Alternative power to Corporation to make standard plan, to purchase or acquire *bustee*, and to carry out improvements themselves or through purchaser or lessee.

366. *(1)* Notwithstanding anything contained in sections 360 to 365, the Corporation may, after receipt of a report made under section 359 with respect to any *bustee*, pass a resolution to the effect that the *bustee* is an unhealthy area and that, in their opinion, the purchase or acquisition of the *bustee*, or of any portion thereof, is necessary for the purpose of making the improvements referred to in the said report. [*Cf.* 1899, s. 413.]

(2) When any such resolution has been passed, the Commissioner shall make a plan for the improvement of the said *bustee* or portion thereof and shall lay such plan before the Corporation, together with such estimates as may be necessary for a due understanding of the same.

(3) If such plan be approved by the Corporation, they shall submit it to the Local Government, together with the said estimates and a copy of the said resolution;

(Part V.—Chapter XXIII.—Bustees.—Clauses 367, 368.)

and, if the plan be approved by the Local Government, the Corporation may purchase or acquire the said *bustee* or portion thereof;

and such plan shall be deemed to be the standard plan of the *bustee*.

(*4*) When any *bustee* or portion of a *bustee* has been so purchased or acquired, the Corporation shall either—

(*a*) sell or let the same or part thereof to any person for the purpose and under the condition that he will, as respects the land so sold or leased to him, carry out the improvements shown in such standard plan, or

(*b*) themselves bring the said *bustee* or portion thereof or any part of the same which has not been sold or leased under clause (*a*), into conformity with such standard plan.

(*5*) The Corporation shall take action under sub-section (*4*) within a period of two years from the date of their purchasing or acquiring any *bustee* or portion thereof under sub-section (*3*), or within such further period (if any) as the Local Government may prescribe.

(*6*) Whenever action is taken under clause (*a*) of sub-section (*4*), the provisions of sub-section (*2*) or sub-section (*3*) of section 477, as the case may be, shall be applicable.

Proportions of area of *bustee* to be shown in standard plan as streets, passages and open lands.

367. (*1*) No standard plan approved for a *bustee* under this Chapter shall, without the consent of the owners thereof, show more than— [*Cf.* 1899, s. 414.]

(*a*) one-third of the whole area of such *bustee* as streets or passages, or

(*b*) one-half of such area as open lands not to be built upon, whether such open lands be common ground, streets, passages or spaces behind a line of huts.

(*2*) In calculating the said proportions of one-third and one-half of any such area, no tank situated therein that has not been filled up shall be taken into account.

Regulation of plots by standard plan, and compensation for adjustment of plots.

368. (*1*) When the land included in a *bustee* is owned by more owners than one, each owning one or more separate plots of such land, the standard plan approved under this Chapter for such *bustee* shall, as far as practicable, provide— [*Cf.* 1899, s. 415.]

(*a*) for one or more huts being completely contained in each such plot, and

(*b*) for such proportion of each such plot being taken for streets, passages and open land as is specified in section 367.

(*2*) If a greater proportion of any one such plot than the proportion specified in section 367 is so taken, such standard plan shall indicate—

(*i*) the compensation which shall be payable to the owner of such plot and

(Part V.—Chapter XXIII.—Bustees.—Clauses 369-371.)

(*ii*) the persons who are liable to pay such compensation by reason of their benefitting by such greater proportion having been taken.

(*3*) If no person can equitably be called upon to pay such compensation, the same shall be paid by the Corporation.

(*4*) Any compensation payable under this section to the owner of any land in a *bustee* shall not be paid until such land has been brought into complete conformity with the standard plan.

Streets and passages shown in standard plan, if not public streets, to remain private.

369. (*1*) Every street or passage in a *bustee*, which is shown in the standard plan approved under this Chapter for that *bustee* and which is not already a public street, shall, unless the Corporation and the owners of the land on which such street or passage is situated otherwise consent as provided in section 337, be deemed to be a private street; and the portion thereof which falls on the land of each owner shall belong to such owner: [*Cf.* 1899, s 416.]

Provided that any portion of any such street or passage which is situated on land purchased or acquired by the Corporation under section 364 shall remain the property of the Corporation.

(*2*) Every such private street shall at all times be kept open to the use of the municipal authorities for scavenging purposes and for all other purposes of this Act in such manner as the Commissioner may require, and shall also be kept open for the use of all the tenants of the *bustee*:

Provided that, notwithstanding anything contained in the Indian Limitation Act, 1908, no use of any such street shall, by reason of any lapse of time, be held to confer a right of way on the public so as to bring the street within the definition of a "public street." IX of 1908.

Bathing arrangements and privy accommodation in *bustee*, as shown in standard plan, to be kept open for use of tenants.

370. The bathing arrangements and privy accommodation in a *bustee*, which are shown in the standard plan approved under this Chapter for such *bustee* as being common to the use of all or some of the tenants of the *bustee*, shall, at all times, be kept available for the use of such tenants:

Provided that, notwithstanding anything contained in the Indian Limitation Act, 1908, if at any time the land on which any such bathing arrangements or privy accommodation are provided ceases to form part of such *bustee*, no such use shall, by reason of any lapse of time, be held to confer any right on any person so as prejudicially to affect the rights of the owner of such land. IX of 1908.

Owner of land in *bustee* to maintain certain conveniences on his land.

371. (*1*) The owner of any land in a *bustee*, for which a standard plan has been approved under this Chapter, shall maintain in proper order and repair, to the satisfaction of the Commissioner, such streets, passages, drains, bathing arrangements, privy accommodation, means of water-supply and other works on such land as may be shown in the plan.

(*2*) The Commissioner may, at any time, cause a written notice to be served upon such owner requiring him so to maintain such streets, passages, drains, bathing arrangements, privy accommodation, means of water-supply and other works.

(Part V.—Chapter XXIII.—Bustees.—Clauses 372-374.)

Rights of land-owner and hut-owner, respectively, over streets, land and drains shown in standard plan.

372. (*1*) The owner of any land in a *bustee*, for which a standard plan has been approved under this Chapter, shall be deemed to be the occupier of— [*Cf.* 1899, s. 417.]

(*a*) all the streets, passages and common ground, and

(*b*) all drains provided for the use of more than one hut,

on such land, so far as the same are constructed in accordance with the standard plan.

(*2*) The owner of any hut in such *bustee* shall be deemed to be the occupier of—

(*i*) the land on which such hut stands,

(*ii*) the open space behind such hut which appertains thereto, and

(*iii*) every drain provided for the sole use of such hut.

Bustee when to be deemed a remodelled *bustee*.

373. When a *bustee* has been brought into conformity with the standard plan approved under this Chapter for such *bustee*, it shall be deemed to be a remodelled *bustee*. [*Cf.* 1899, s. 418.]

Power to owner to take land out of the category of *bustee* in certain cases.

374. (*1*) The owner of any land included in a *bustee* and bearing a separate number in the assessment-book may, at any time, whether a standard plan for the *bustee* has been prepared under this Chapter or not, send a written notice to the Commissioner that he intends to remove all the huts standing on such land: [*Cf.* 1899, s. 419.]

Provided that the receipt of any such notice by the Commissioner shall not be a bar to the approval by the Corporation, under this Chapter, of a standard plan of such *bustee*.

(*2*) From the date of such notice no application shall be entertained for erecting on such land any new building which is a hut or adding to any hut standing thereon.

(*3*) Such owner shall, within six months after the date of such notice, remove all huts standing on such land; and, if he does not do so, the notice shall be deemed to be cancelled.

(*4*) When all such huts have been so removed, such land shall, according to its situation, either—

(*i*) be altogether excluded from the limits of the *bustee*, or

(*ii*) be shown, in a standard plan approved for the *bustee* under this Chapter, as not being a part of such *bustee*:

Provided that if, in the standard plan, any street or passage is shown on such land, the provisions of sections 358, 361, 365, 369, 371 and 372 shall, with all necessary modifications, be deemed to apply to such street or passages.

(*5*) If, after all the huts standing on any land have been removed under sub-section (*3*), any application is received for erecting any hut on such land, the Commissioner may, by written notice, require the owner of the land to carry out such improvements therein as he may think fit.

(*6*) When all the huts standing on any land within a *bustee* have been removed under sub-section (*3*), the Corporation may either—

(*a*) cancel the standard plan (if any) already approved, under this Chapter, for such *bustee*, or

(*b*) modify such plan after hearing the objections (if any) of any owner of land included in such *bustee* who, in the opinion of the Commissioner, may be injuriously affected by the modification.

Bustee Streets.

Power to Corporation to prescribe alignments for *bustee* streets.

375. (*1*) In any *bustee*, not being a remodelled *bustee*, or in any area in which it appears to the Corporation that huts are likely to be erected, the Corporation may prescribe alignments, not more than twenty feet in width, for such private streets as they may think fit. [*Cf.* 1899, Sch. XVII, rule 37A.]

(*2*) When the land within such *bustee* or area is owned by more owners than one, each owning one or more separate plots of such land, such alignments shall, as far as practicable, be so prescribed as not to occupy, within any such plot, more than one-fourth of the area thereof.

(*3*) If, in any such plot, more than one-fourth of the area thereof is occupied by such alignments, the Corporation shall pay to the owner of the plot such compensation as they may deem reasonable:

Provided that no such compensation shall be paid in respect of any such plot as long as any hut or other structure is left standing within any such alignment in the plot.

(*4*) No hut or portion of a hut shall be erected within any alignment prescribed under sub-section (*1*).

(*5*) The provisions of section 369 shall, with all necessary modifications, be deemed to apply to every street the alignment for which has been prescribed under this section.

Power to Commissioner to require removal of existing huts within street or hut alignment in *bustee*.

376. In any *bustee*, at any time after the expiration of seven years from the time when any alignment has been prescribed—

(*a*) for a street under section 375, or

(*b*) for huts under rule 68 of Schedule XVI,

the Commissioner may, by written notice, require the owners of the land or the owners or occupiers of existing huts to remove such huts or portions thereof as fall—

(*i*) within any such prescribed street alignment, or

(*ii*) within six feet on either side of any such prescribed hut alignment,

as the case may be.

Power to Commissioner to require space to be kept between masonry building in *bustee* and centre line of *bustee* street.

377. Any person who erects a masonry building— [*Cf.* 1899, Sch. XVII, rule 16A.]

(*a*) in any *bustee* in respect of which a standard plan has been approved under section 353, section 354 or section 360, or

(Part V.—Chapter XXIII.—Bustees.—Clauses 378-380.)

(*b*) in any *bustee* or area in respect of which alignments for streets have been prescribed under section 375,

shall, if so required by written notice issued by the Commissioner, leave a clear space of twenty feet between the centre line of any street or passage shown in such plan, or of any street the alignment for which has been so prescribed, as the case may be, and the nearest part of such building.

Cleansing of Bustees.

Power to Corporation to employ special establishment and impose special rate for cleansing of *bustee*.

378. (*1*) The Corporation may sanction the employment of a special establishment for the cleansing of any *bustee*, and may impose on the owners of the *bustee* a rate to defray the cost of such establishment: [*Cf.* 1899, s. 420.]

Provided that, without the consent of the owners, no such rate shall be imposed in respect of any remodelled *bustee*.

Power to Commissioner in other cases to secure cleansing of *bustee*.

379. If it appears to the Commissioner that any *bustee* for which no establishment is maintained under section 378 is in a filthy condition, he may, by written notice, require the persons deemed to be occupiers under section 372, to cleanse the *bustee* to his satisfaction. [*Cf.* 1899, s. 421.]

Appeal.

Appeal to the General Appeals Committee.

380. (*1*) An appeal shall lie to the General Appeals Committee from—

Provided that no company, body corporate, firm, joint-family or other association of individuals shall be entered in the list referred to in clause (*b*). [*See* 1899, Sch. IV, r. 9.]

(*2*) The said lists shall contain the names of all persons qualified to be enrolled as ward or district voters.

(*3*) A separate list shall be prepared by the Commissioner of the persons who appear to be entitled to make election under section 39 or section 49, specifying the wards or districts between which, and the qualifications on account of which, such persons are entitled to make such election.

Payment of municipal taxes a condition precedent to entry in list of voters.

2. No person shall be entitled to be enrolled in an election roll as qualified to vote unless he has, before the first day of December immediately preceding the election, paid all instalments of the consolidated rate and other municipal taxes due from him for each of the first two quarters of the year in which the election is held : [*Cf.* 1899, Sch. IV, r. 3.]

Provided that when the Commissioner has, under section 174, levied the entire consolidated rate from the owner of any building, any occupier of the building who is qualified to vote in respect of the sum due from him as consolidated rate shall be entitled to be enrolled, on his satisfying the Commissioner that he has paid such sum to the owner of the building in accordance with the provisions of section 175.

Arrangement of lists of voters.

3. *(1)* The lists prepared under rule 1 shall be arranged in accordance with the alphabetical order of the names of streets and with the numbering of premises in streets, and shall be sub-divided into parts showing separately, for each ward and for each district, the names of persons entitled to be enrolled as voters for that ward or district, as the case may be, and also the names of all persons entitled, but for the provisions of section 38, sub-section (*2*) and the proviso to sub-section (*1*) of section 48, to be enrolled as voters for that ward or district. (*2*) In any case in which a service-pipe from a main is used for supplying filtered water to two or more premises, the Commissioner shall, by written notice, require the owners of such premises to lay down separate service-pipes for separate premises; and the expense of so doing shall be borne by all such owners in such proportion as may be determined by the Corporation.

(*3*) The Commissioner shall not delegate to any municipal officer his power to make a requisition by written notice under sub-rule (*2*). [*See* 1899, s. 18 (*1*)]

Part I.—Building-sites.

Conditions as to use of building-sites.

1. No piece of land shall be used as a site for the erection of a building,— [*Cf.* Sch. 1899, XVII, r. 1.]

(*1*) if the building is to abut on a street, unless the site is of such a shape that the face of the building can be made parallel to the line of the street, or as nearly parallel to the said line as the Commissioner may consider practicable; and,

(*2*) if the site is within thirty feet of a tank, unless the owner takes, or satisfies the Commissioner that he will take, such order as will prevent any risk of the drainage of the building passing into the tank; and,

(*3*) if the site is a filled-up tank, or has been filled up with, or used for depositing, rubbish, offensive matter or sewage, unless the Commissioner has examined the site and granted a certificate to the effect that it is, from sanitary and engineering points of view, fit to be built upon; and,

(*4*) if the building to be erected is a public building, a dwelling-house or a hut intended for human habitation, unless the site is certified by the Commissioner to be dry and well-drained, or unless the Commissioner is satisfied that it is capable of being well-drained and that the owner will take the necessary steps to drain it.

Certificate as to correctness of plans of a previously existing building and fees therefor.

2. (*1*) Any person who intends to erect any building upon a site on which a building has been previously erected, whether before or after the commencement of this Act, may, before commencing to erect his intended building, cause to be prepared plans showing the extent of the previously existing building in its several parts (or, in the event of such building having been taken down before the commencement of this Act, or having been accidentally destroyed, the best plans available under all the circumstances of the case), and may cause such plans to be submitted to the Commissioner who shall (if reasonably satisfied with the evidence of their accuracy) certify the same under his hand; and such certificate shall be taken to be conclusive evidence of the correctness of the plans. [*Cf.* Sch. 1899 XVII, r. 1A.]

(*2*) The Commissioner, when granting a certificate under this rule, may charge such fees, not exceeding ten rupees for any one building, as he may think fit.

drawn across the street at an angle of forty-five degrees with the horizontal, such lines being drawn from the side of the street which is the more remote from the building in question, from a height of two feet above the centre of the street:

Provided as follows:—

(*i*) where the said street is joined at an angle by another street facing the building, the height of the building shall not exceed the height which would be permissible if the said street were not joined at an angle by another street facing the building;

(*ii*) where the street in which the building is situated terminates in front of the building, and the building faces down the street, the building shall be deemed to be situated at the side of the street;

(*iii*) nothing herein contained shall affect the erection of a building abutting upon, or situated at the side of, a street of not less than sixty feet in width, if such building does not exceed eighty feet in height; and

(*iv*) no building exceeding eighty feet in height shall be erected without the special permission of the Commissioner.

Explanation.—If a building be placed at the edge of the street, its height, measured from two feet above the centre of the street and excluding parapets as aforesaid, shall not exceed the average width of the street facing the site; but, if the building or one or more of its storeys be set back, the height of the building may be increased, subject to the condition that no portion of the building, after the height is increased, intersects any of the aforesaid lines.

Provided as follows:—

(*i*) the height allowed under this sub-rule shall in no case be more than thirty-six feet, and

(*ii*) nothing contained in this sub-rule shall authorize the erection of a new building so as to make it higher than any building which at the commencement of this Act was standing on the same portion of the site.

(*3*) Notwithstanding anything contained in sub-rule (*1*) or sub-rule (*2*), the Corporation may, by order published in the *Calcutta Gazette*, declare that, in any street or portion of a street, not less than sixteen feet in width, which is specified in the order, the erection of two-storeyed buildings not exceeding twenty-eight feet in height, excluding two feet for the plinth and excluding open or balustraded parapets not more than four feet high, will be permitted without complying with the requirements of those sub-rules.

(*a*) a building of not more than one storey and not exceeding twelve feet in height (excluding two feet for the plinth) above the centre of the street, and

(*b*) if, in any street which is less than sixteen feet in width, the owner of any building-site abutting on the street makes a free gift to the Corporation of all land, comprised within such site, which falls within eight feet of the centre line of such street, then a two-storeyed building not more than twenty-eight feet high,

may be erected without complying with the requirements of the said sub-rules.

(*6*) For the purposes of clause (*b*) of sub-rule (*5*) of this rule and of clause (*b*) of sub-rule (*4*) of rule 30—

(*a*) the Commissioner may prescribe a centre line for any street which is less than sixteen feet in width, and

[*Cf.* 8(XVI, rule (*2*).]

Prohibition of use of inflammable materials for roofs or external walls

7. (*1*) External roofs or walls of buildings shall not, after the commencement of this Act, be made of grass, leaves, mats, canvas or other inflammable materials. [*Cf.* 1899, 866.]

(*2*) The Commissioner may, by written notice, require the owner of any building situated within

(Schedule XVI.—Rules as to the use of Building-sites and the execution of Building-work.—Rules 8-13.)

a distance of thirty feet from any other building, and having at the commencement of this Act an external roof or wall made of any such inflammable material, to remove or alter such roof or wall.

(*3*) Sub-rule (*1*) and sub-rule (*2*) shall not apply to bamboo shingle or wood or to any garden hut, orchid house, fernery or other similar structure within a compound, unless in any particular case the Commissioner considers any such structure to be dangerous.

(*4*) Sub-rule (*1*) and sub-rule (*2*) shall likewise not apply to any area hereafter included in Calcutta under section 546, or to any portion of such areas, until they have been specially extended thereto by a resolution passed by the Corporation.

CONSTRUCTION OF REFERENCES IN BENGAL ACT V OF 1911 TO THE GENERAL COMMITTEE.

(See section 561.)

1	2
Sections of Bengal Act V of 1911 containing references to the General Committee.	Construction.
Section 56, sub-section (*1*) ...	The Commissioner.
,, 65, sub-section (*1*) ...	The Commissioner.
,, 65, sub-section (*2*) ...	The Corporation.
,, 65, sub-section (*3*) ...	The Corporation.

STATEMENT OF OBJECTS AND REASONS.

I.—The Calcutta Municipal Act, 1899 (Bengal Act III of 1899), has been in force since the 1st April, 1900, and though it is admitted on all hands that immense strides have been made in the improvement of the city during that period, it has been found in actual practice that the constitution provided by that Act is not altogether suited to the needs of Calcutta. The Corporation have frequently represented the difficulties which arise owing to the existence of the three independent and co-ordinate municipal authorities; and the Royal Commission upon Decentralization, after enquiring into the municipal administration generally, were strongly impressed with the necessity of relieving the Chairman of the ever-growing responsibility of presiding at all meetings of the Corporation and the General Committee, and at practically all Special and Sub-Committees. They accordingly recommended in their report the adoption of the system in force in Bombay, under which all executive authority vests in a Municipal Commissioner appointed by Government, who is not a member of the Corporation. The present Bill provides both for the abolition of the General Committee,—thus reducing the co-ordinate municipal authorities to two,—and for the appointment of a Municipal Commissioner as the chief executive authority. Besides this, it is proposed to enlarge the constitution of the Corporation, and an endeavour has been made to provide for the adequate representation of all sections of the community. The opportunity has also been taken to overcome many practical difficulties which have been experienced as the result of some fifteen years' working of the Act of 1899, and some new provisions have been introduced dealing with matters of municipal administration which are not provided for by the existing law.

II.—In accordance with the method now almost invariably followed in England in the case of legislation of a similar nature, it is proposed in the Bill to rearrange the provisions of the existing Act so as to confine the Chapters, for the most part, to substantive principles of law and to relegate those provisions which deal with subordinate matters of administration to Schedules, or, in the less important cases, to by-laws. A not inconsiderable portion of the provisions contained in the Chapters of the existing Act deal mainly with administration and relate to the purely executive functions of the Chairman or other municipal authorities and officers (*e.g.*, those provisions which relate to drain and water-main laying, building, regulation of streets, lighting, conservancy, inspection of premises, etc.), and the opportunity has been taken, wherever possible, either to insert such provisions in the respective Schedules dealing with their subject-matter or to relegate them to by-laws. Wherever it is proposed so to relegate provisions of the existing Act to by-laws, power has been taken to bring those provisions into force as by-laws. This method of rearrangement will have this advantage that provisions dealing with matters of administration, by being confined to rules in Schedules or to by-laws, can be readily altered or added to (without an amendment of the Act) by notification by the Local Government in the case of Schedules and by amendment by the Corporation in the case of by-laws. It may further be noted that in rearranging the provisions of the existing Act it has likewise been found convenient to include in one Chapter provisions now contained in separate Chapters of the Act (*e.g.*, provisions dealing with lighting, scavenging, public bathing and washing).

III.—The provisions in the Bill relating to the appointment of a Municipal Commissioner to replace the Chairman as an executive authority are modelled on those in force in Bombay. The Commissioner will have the right of attending all meetings both of the Corporation and of Committees and of taking part in the discussion, but he will not have the right to vote. In view of the position of the Commissioner as the chief executive authority of the municipality, it is proposed to abolish the post of Vice-Chairman, which will no longer be necessary. It is also proposed that the Commissioner and the Deputy Commissioner shall carry on the purely administrative work and

that the Corporation shall elect a President to preside at their meetings and a Vice-President to preside at meetings in the absence of the President. The various Committees will also respectively elect their own Presidents and Vice-Presidents.

IV.—It is proposed to increase the numbers of the Corporation from fifty to seventy-five, thus reverting to the numerical strength which existed prior to the passing of the existing Act. Plural voting will be abolished in order to make the constitution of the Corporation more democratic. At the same time care has been taken to provide for the representation of all classes of the community, and in particular of the Mahomedans, who, though comprising slightly over a quarter of the population of the city, are practically unrepresented at present, except through Government nominees, owing to the disproportionate smallness of their voting power as compared with that of the other communities. In five wards the Mahomedan population is greater than that of all the other communities together, but in every ward they are in a substantial minority as regards voting power. It is, therefore, proposed to constitute an entirely separate Mahomedan electorate which will return nine Mahomedan Councillors. The large and growing Marwari community will also be given two representatives, to be appointed by the Marwari Association; and European interests will be safeguarded in the enlarged Corporation by an increase of two in the representatives of the Bengal Chamber of Commerce and of one in those of the Calcutta Trades Association. This increase will involve a reduction of three in the number of Government nominees. Representation has also been granted to the Calcutta University (one representative) and the Bengal National Chamber of Commerce (one representative). The existing and the proposed constitutions are indicated below for purposes of easy comparison :—

V.—The abolition of the General Committee as a co-ordinate municipal authority has been advocated for many years by the Corporation themselves. This Committee at present occupy a position midway between that of the Chairman, as the executive authority, and that of the Corporation, as the deliberative assembly directing the general policy of the administration. Many of their functions are executive or semi-executive, and their powers are considerably wider than those of the Standing Committee in Bombay. It is proposed to hand over those powers of the General Committee which are of a purely executive nature to the Municipal Commissioner, the other functions

being absorbed by the Corporation. The result of this distribution of authority will be that the Commissioner will have extensive powers of dealing with matters of sanitation and city-improvement which will affect the interests of householders and other private individuals. It is considered desirable that a right of appeal should be granted to persons affected by the exercise of the more important of the Commissioner's powers, and it is therefore proposed to constitute two separate Appeals Committees to hear appeals against orders of the Commissioner in two different classes of cases. These Committees will be—

(1) the General Appeals Committee which will consist of seven Councillors (of whom not more than four shall be elected Councillors) to be appointed annually by the Corporation to hear appeals in cases (other than cases arising out of the application of the building rules) in which an appeal to that Committee is expressly provided for in the Bill, or in any by-law, and

(2) the Buildings Appeals Committee which will consist of three members (who need not be Councillors) appointed annually—one by the Corporation and two by the Local Government—to hear appeals in cases in which an appeal to that Committee is provided for in the Bill in the Chapter and Schedule dealing with the erection of buildings, or in any by-law relating to the application of the building rules.

It has been thought desirable to provide a separate appellate authority (*i.e.*, the Buildings Appeals Committee) to hear appeals in cases relating to the application of the building rules which are of a technical nature, and to leave it open to the Corporation, as well as to the Local Government, to appoint experts to be members of this Committee. The two Appeals Committees above referred to will take the place of the General Committee only so far as the latter's power to hear appeals is concerned, and will constitute a kind of Court of Equity between the Commissioner and the rate-payers. Their decisions will be final, but they will be in no sense co-ordinate municipal authorities.

VI.—A redistribution of powers between the Corporation and the Municipal Commissioner is necessitated by the abolition of the General Committee. The principle upon which this redistribution has been carried out is that all powers of an executive nature, or which are of such a character as to entail prompt action, are given to the Commissioner, while powers involving general policy or control are made over to the Corporation. The result is a considerable increase in the powers of both authorities, but it is thought that the Corporation will experience no difficulty in exercising their extended powers through the agency of Standing and Special Committees, and that the existence of a right of appeal in all important matters should effectively check any undue concentration of authority in the Commissioner.

VII.—It is proposed to amplify the provisions contained in section 96 of the existing Act relating to the appointment of Special Committees. The Bill provides for the appointment of two kinds of Committees, namely, Standing Committees and Special Committees. The Corporation are authorized to delegate any of their powers, duties or functions to Standing Committees. These Committees will deal with all matters comprised in their delegation as they arise, and their proceedings, when confirmed by the Corporation, will become resolutions of that body. Special Committees are intended to be appointed to inquire into and report upon specific matters which may arise in the course of the administration and they will confine their inquiry to such matters. They will ordinarily deal with important questions in which a full inquiry is necessary, while the Standing Committees will deal with matters of ordinary administration. With regard to Standing Committees, however, certain special provisions have been introduced. The number of members of such committees is limited to ten, and no Councillor may be a member of more than two Standing Committees or the President of more than one. The object of these provisions is to induce Councillors to take a special interest in some particular branch or branches of the administration, and thus to

enhance the efficiency of the work done by these Committees. It should be remembered that the importance of the Standing Committees will be considerably increased owing to the abolition of the General Committee.

VIII.—Under the existing Act the different municipal rates are levied as one consolidated rate, but the various funds are nevertheless kept distinct. This only leads to complications in the accounts without producing any corresponding advantage. The Bill provides for the amalgamation of the four existing funds, and for only one consolidated rate which will not exceed the maximum of 23 *per cent.* on the annual valuation as at present levied under Chapter XII of the existing Act.

A special procedure will be adopted, as in Bombay, for the assessment of Government buildings and lands.

IX.—Two changes of some importance are proposed in Chapter XIII of the existing Act relating to the tax on carriages and animals. It is proposed to introduce a tax on dogs. The tax proposed is Rs. 2 per annum, and is intended to act more as a check upon the growing nuisance of ownerless dogs than as a means of revenue. An increase is also proposed (in the connected Schedule—No. VII—) in the tax on motor cars, making the amount payable on all cars of approximately 12 horse-power, or over, the same as that payable on a carriage and pair of horses.

X.—Some additional provisions have also been introduced with regard to the registration of carts. Under the present law road-trains, steam-lorries and similar vehicles pay the same tax as bullock carts, namely, Rs. 4 every half year. It is proposed to raise this tax to Rs. 24 for all vehicles (which come under the definition of " cart ") propelled by mechanical power and Rs. 12 for trailers drawn by such vehicles. Provision has also been made to prescribe by means of by-laws a *minimum* width for the tyres of carts and to increase this width proportionately to the load. It is also provided that all cart drivers must be registered and must have a number assigned to them. This is intended to check the large number of thefts from carts which have lately been complained of by the Bengal Chamber of Commerce and other mercantile bodies. These thefts cannot be traced to anyone at present, and it is thought that registration will facilitate the identification of drivers of carts from which thefts occur.

XI.—The provisions of Chapter XXIII of the existing Act, relating to streets and public places, have been revised with a view to distinguishing more clearly between the " street alignment " and the " building-line."

XII.—Two points deserve mention in connection with the regulation of buildings. In accordance with the recommendation of the Corporation, provision has been made for the licensing of Building Surveyors. No plan of a proposed new building will be sanctioned unless it is prepared and signed by a Licensed Building Surveyor, and the construction of all buildings costing Rs. 5,000 or upwards must be supervised by a Licensed Building Surveyor or by a person approved by the Commissioner. It is also proposed to allow an appeal to the Buildings Appeals Committee against practically all orders of the Commissioner relating to the building rules. Under the existing law the appellate power in such cases has frequently been abused, in that there has been a tendency to relax the rules in almost every case. Having regard, however, to the constitution of the proposed Buildings Appeals Committee, which is to be a more or less expert body, it is thought desirable to enlarge the right of appeal.

XIII.—The development of building-sites which, owing to size or shape or to the want of road frontage or proper means of access, are unsuitable for building upon, is to a certain extent provided for by sections 364 to 366 of the existing Act, but there are so many practical difficulties in the way that these sections have never actually been worked. In Bombay the important question of the development of building sites is dealt with in a separate Act (see Bombay Act I of 1915) on the lines of the Housing, Town-planning, etc., Act 1909 (9 Edw. 7, c. 44), and it is thought that it will be best to deal with building-sites in Calcutta in a separate Bill drawn on somewhat the same

lines. It is proposed, therefore, to omit altogether from the present Bill the provisions of sections 364 to 366 of the existing Act.

XIV.—The question of food adulteration is dealt with in the Bill in a more comprehensive manner than has been attempted hitherto. A definition of "adulterated" has been inserted in clause 3, and it is made an offence to sell, expose for sale, manufacture or store for sale any article of human food which comes within that definition. Besides this, clause 425 makes special provision for the regulation of the sale of milk, *ghee*, mustard oil and any other article of food or any drug which may hereafter be notified in that behalf by the Local Government. A strict standard of purity is prescribed in respect of each of these articles, and it is made an offence to sell, expose for sale, manufacture or store for sale anything which falls short of this standard. Food adulteration has reached alarming proportions in Calcutta and the existing law has entirely failed to check it. In the interests of the public health it is considered necessary to have recourse to more drastic legislation, and in particular to provide for the purity of the main staple articles of food which appear to be most liable to adulteration.

XV.—Every change of any importance which it is proposed to make in the existing law is explained in detail in the subjoined Notes on Clauses, it being thought desirable, in the case of a measure of this magnitude and importance, to afford the Council the fullest possible assistance in its consideration. A Table has also been prepared and annexed to the Bill showing which provisions of the existing Act have been omitted from the Bill and giving brief reasons for such omissions. The Table also indicates where the provisions of the existing Act which have been retained are reproduced in the Bill.

NOTES ON CLAUSES.

CHAPTER I.

Clause 1.

Sub-clause (3), Proviso, reproduces the corresponding provision in section 1 (*3*), proviso, of Bengal Act III of 1899, as originally enacted. It is necessary that a general election and appointment of Councillors should be held and made in good time before the 1st April on which the Act comes into operation, so that the new Corporation may be fully constituted by that date. The subject-matter of the proviso would not be covered by section 23 of the Bengal General Clauses Act, 1899. Ben. Act I of 1899.

Clause 2.

Sub-clause (1) formally repeals the Calcutta Municipal Act, 1899, and the Calcutta Municipal (Loans) Act, 1914, which amended that Act. Ben. Act III of 1899. Ben. Act IV of 1914.

Sub-clause (2) is a saving clause which is necessitated by the fact that section 25 of the Bengal General Clauses Act, 1899, does not cover all the requirements of the present case. Ben. Act I of 1899.

Clause 3.

Sub-clause (1) defines the term "adulterated" in relation to food and drugs, there being no such definition in the existing law. The new definition is inserted with reference to the new and more stringent provisions as regards the manufacturing, storing and selling of articles of food and drugs in Chapter XXIX of the Bill. *(See paragraph XIV of the Statement of Objects and Reasons.)*

Sub-clause (2) introduces a definition of "assessment book." Since the term is used frequently throughout the Bill it is desirable to have a definition in this clause.

Sub-clause (5) inserts a definition of the term "building," the absence of which in the existing law has given rise to much difficulty in interpreting the building rules and regulations. The definition is based on the definition of "building" in section 3 (*s*) of the City of Bombay Municipal Act, 1888. Bom. Act III of 1888.

Sub-clause (6) amends sub-clause (*3*) of section 3 of the existing Act so as to cover the case of projected public streets referred to in clause 327 and following clauses.

Sub-clause (8).—The definition of "*bustee*" has been made wider than in the existing law, and the definition of "*bustee land*" has been omitted for reasons explained in the note on clause 176, *post*.

Sub-clause (12) defines the phrase "the Commissioner", which occurs very frequently throughout the Bill.

Sub-clause (14) inserts a definition of "connected-urinal" on the lines of the definition of "connected-privy" in the existing Act.

Sub-clause (18) defines the phrase "Deputy Commissioner."

Sub-clause (24) defines the term "food" for the purposes of the provisions dealing with food and drugs. The definition is taken from section 26 of the English Sale of Food and Drugs Act. 62 & 63 Vict., c. 51.

Sub-clause (26) introduces a definition of "half-year." The financial year, as defined in section 3 (*16*) of the Bengal General Clauses Act, 1899, is the standard of time governing the business transactions of the Corporation. Ben. Act I of 1899.

Sub-clause (29) now makes it clear that the walls of a hut are "material portions" thereof.

Sub-clause (36) inserts a definition of "new building" which is based on the definition of the same term in the London Building Act. This definition takes the place of the definition in the existing Act of the term "re-erect" which has given rise to much difficulty in interpreting the building rules and regulations. 57 & 58 Vict. c. ccxlii.

Sub-clause (38) makes an amendment in the definition of "occupier" so as to cover the case of an owner using his own building as a factory or other place of business.

Sub-clause (43) amends the definition of "private street" in the existing Act so as to meet the case of an owner who divides up his land into separate plots for building purposes. The terms "square" and "court" are omitted since they are not properly included in this definition.

Sub-clause (45).—The terms "square" and "court," which occur in the definition of "public street" in the existing Act, have been omitted for the same reasons as in the case of the definition of "private street."

Sub-clause (47) introduces a definition which is necessitated by the passing of the Bengal Medical Act, 1914. Ben. Act VI of 1914.

Sub-clause (51) inserts a definition of "service-urinal" on the lines of the definition of "service-privy" in the existing Act.

Sub-clause (57) inserts a definition of "year" on the same lines as the definition of "half-year."

CHAPTER II.

Clause 5.

This clause provides for the replacement of the Chairman of the Corporation as a municipal authority by the Municipal Commissioner, for the abolition of the General Committee and for the constitution of two Appeals Committees, *viz.*, the Buildings Appeals Committee to hear all appeals from orders of the Commissioner passed under the building rules and regulations, and the General Appeals Committee to hear appeals in all other cases. (*See paragraphs I, III and V of the Statement of Objects and Reasons.*)

Clauses 6 to 8.

These clauses deal with the constitution of the Corporation, which has already been explained in the Statement of Objects and Reasons. (*See paragraph IV thereof.*)

Clauses 9 and 10.

These clauses provide for the constitution of the General Appeals Committee and the Buildings Appeals Committee, respectively, and the terms of office and the filling up of casual vacancies amongst the members of the said Committees.

Clause 12.

This clause provides for the payment to the Municipal Commissioner of a consolidated salary including house-rent allowance. The provision in section 12 (*2*) of the existing Act as to providing him with an official residence is, therefore, omitted in the Bill.

Clause 14.

This clause reproduces section 14 of the existing Act, but the provisions making it obligatory on the Corporation to devote not less than certain fixed sums of money every year to the extension of drainage, the improvement of *bustees* and the development of the added area have been omitted as these matters have now received their full share of attention and it is not considered necessary to impose any further special obligations in respect of them. The objects to which the Corporation may devote their funds have, at the request of that body, been specified in greater detail.—*See* sub-clauses (*iv*), (*v*), (*vi*), (*vii*), (*viii*), (*ix*) and (*xv*) of this clause.

Clauses 15 and 16.

These clauses provide for the functions and duties of the General Appeals Committee and the Buildings Appeals Committee, respectively, and the procedure to be followed in preferring appeals to each of those bodies.

Clause 17.

Sub-clause (*c*).—The power of the Commissioner to take action in cases of emergency has been made somewhat more elastic in order to provide for emergencies in which it is essential that the Commissioner should take prompt action, but which are not covered by the provisions of section 15(*c*) of the existing Act.

Clauses 18 and 19.

These clauses reproduce sections 16 and 17 of the existing Act with such consequential amendments as are required by the abolition of the General Committee. It will be observed that clause 19 now merely provides that the Corporation shall "consider" the annual report.

Clause 20.

The power of the Commissioner to delegate his authority has been slightly extended. It has been found, in working the existing Act, that the centralisation of power beyond a certain degree does not tend to promote efficiency, as the Chairman is so overburdened with duties that he is

unable properly to scrutinise the matters which come before him for orders with the result that the restrictions imposed on his power to delegate his functions defeat their own object. Since rules in Schedules may be altered or added to by the Local Government at any time, and since certain of the sections or sub-sections included amongst the exceptions mentioned in section 18(*1*) of the existing Act have in the Bill been relegated to Schedules or to by-laws, it has also been found necessary in this clause to except by-laws or rules which expressly prohibit delegation by the Commissioner. In proviso (*e*) to this clause, which reproduces the provisions of proviso (*e*) to section 18 of the existing Act, it is thought desirable to remove the somewhat fictitious distinction between "subject to the approval of" and "with the sanction of" the Corporation and to use only the latter phrase. It is proposed to make this change in all cases where the approval or sanction, or both the approval and sanction, of the Corporation is or are required under the existing Act.

Clause 22.

The minimum cost of any project requiring Government sanction before any work can be commenced in pursuance thereof, is now fixed at 2½ lakhs, instead of 1 lakh as in the existing Act.

Clause 26.

The existing section has been modified in consequence of the amalgamation of the existing rates and the provision of one consolidated rate. (*See paragraph VIII of the Statement of Objects and Reasons.*)

CHAPTER III.

Clause 27.

This clause provides for the appointment by Government of a Deputy Municipal Commissioner, whose duties and functions will, in every way, correspond with those of the Deputy Chairman under the existing Act.

Clause 28.

This clause reproduces section 27 of the existing Act, but all references to the Vice-Chairman have been omitted since it is proposed to abolish the post of Vice-Chairman. Similarly in other provisions of the existing Act which are reproduced in the Bill, references to the Vice-Chairman are omitted. (*See paragraph III of the Statement of Objects and Reasons.*)

Clause 30.

This clause combines sections 29 and 30 of the existing Act. Although it may be improbable, that, at the outset, the Commissioner and Deputy Commissioner will be other than Government servants, it is not necessary that they should be so; and, if they are not, it is expedient to empower the Corporation to grant these officers a pension if they desire to do so.

The amount of such pensions, gratuities and compassionate allowances, and the conditions of their grant, shall, in no case, except with the special sanction of the Government of India, be more favourable than those which apply to Government servants of similar standing and status.

Clause 31.

Sub-clause (*2*) is intended to cover the case of any office which the Commissioner or the Deputy Commissioner is required or permitted to hold under the provisions of other Acts (*e.g.*, the office of a Trustee under the Calcutta Improvement Act, 1911). Ben. Act I of 1911.

Clause 35.

Sub-clause (*2*), *proviso*, makes it clear that when the Commissioner or Deputy Commissioner is a Government officer, the leave-allowances of such officer shall be paid by the Government and the Corporation according to the proportions fixed by the Civil Service Regulations in the case of Government officers who are on "foreign service."

Clause 36.

This clause gives the Commissioner the right to attend any meeting of the Corporation and of the municipal committees and to take part in their discussions, but not to vote. In Bombay, the Municipal Commissioner has similar powers.

CHAPTER IV.

Clause 37.

This clause provides for the preparation and publication of separate election-rolls for the election of Ward Councillors and that of Mahomedan Councillors, the two being quite distinct. (*See Notes on Clauses 38, 48 and 49.*)

Clause 38.

This clause reproduces the existing voting qualifications with one addition, *viz.*:—that the owners of huts in *bustees* valued at Rs. 200 *per annum* or upwards have been given the right to vote. The election of Ward Councillors will be quite separate from that of Mahomedan Councillors, and Mahomedans will not be entitled to vote at Ward elections. (*See paragraph IV of the Statement of Objects and Reasons*). Sub-clause (*3*) amends sub-section (*3*) of section 37 of the present Act so as to entitle an association of individuals to vote only by a representative but not to be enrolled in the election-roll. Rule 8 in Schedule V provides for the manner in which such an association may be represented on the Ward election-roll or the Mahomedan election-roll, as the case may be. The change made in sub-clause (*iii*) is consequential upon the introduction into the Bill of the definition of the word "year", which means "financial year."

This clause also abolishes plural voting and provides that notwithstanding the number of qualifications which a voter possesses his name shall be entered in the electoral roll of only one ward. It also provides that in the case of a ward where more than one Councillor is to be elected a voter may not give more than one vote to any one candidate.

Clauses 39 to 41.

These clauses provide for—

(*i*) the election by a ward voter, who is qualified to vote in more than one ward, of the ward in which he desires to be enrolled,

(*ii*) the determination by the Commissioner, in the case of an elector who fails to elect, of the ward in which the elector shall vote,

(*iii*) the prevention of transfer of the names of ward voters from one electoral roll to another, except at the time of the revision of the electoral roll.

Clause 42.

Under the existing law, the representative of a company or other association of individuals can obtain the vote or can qualify to be elected as a Councillor either by having his name inserted in the election-roll as representing such company or association of individuals, or by producing a power of attorney. It is proposed to abolish the latter alternative and merely to require such representatives to have their names inserted in the election-roll, subject to the provisions of Schedule V.

Clauses 43 and 44.

These clauses reproduce section 43 of the existing Act, but it has been thought desirable to omit the provisions of sub-section (*2*) of that section which empowers Government to alter the boundaries of Wards. An alteration of boundaries would affect not only the elections but also the assessment periods and would give rise to many difficulties.

Sub-section (*4*) of section 43 has also been omitted.

Clauses 45 to 49.

These clauses provide for the separate election of Mahomedan Councillors according to districts. It is proposed that these elections should be conducted on the same lines as the Ward elections, except that both the electors and the candidates must be Mahomedans. The elections will be held according to the four districts which are recognised for administrative purposes at present, the number of Councillors to be elected for each district being prescribed in Schedule IV according to the proportion of Mahomedans residing in the district. Clause 47 empowers the Local Government to alter Schedule IV as to boundaries of districts and the number of Councillors to be elected. This power is very necessary in view of the possibility of changes in the Mahomedan population of a district.

Clause 50.

The words "or by the Corporation" in this clause, which corresponds to section 52 of the existing Act, are new.

Clause 54.

Proviso (*c*).—This is a new provision, the object of which is to prevent unsuccessful candidates from going behind the election-roll and voters' list. Ample opportunity is given in the rules contained in Schedule V for the lodging of objections to any entry in the voters' list.

Clause 57.

This clause reproduces section 59 (*1*) of the existing Act, but the wording has been altered in view of the proposed changes in the prescribed number of Councillors to be elected for each ward or district.

Clause 58.

This clause reproduces the provisions of section 59 (*2*) of the existing Act with an addition made for the purpose of applying those provisions to appointments made by associations and other bodies. There is nothing in the present law to prescribe the time when such appointments shall be made and the date from which they shall take effect.

Clause 59.

This clause reproduces the provisions of section 39 of the existing Act, but the disqualifications have been extended in that they will now include minors under twenty-one years of age and licensed building surveyors.

Clause 60.

This clause reproduces the provisions of section 40 of the existing Act, but introduces a new sub-clause (*c*) providing that no Councillor shall be retained in any professional capacity as advocate, attorney, pleader or *mukhtear* in any case to which the Corporation is a party. This embodies a principle which was adopted in a resolution of the Corporation several years ago, but has since become a dead letter.

Clause 62.

Sub-clause (*1*) reproduces section 60(*2*) of the existing Act, with an alteration of the wording which is intended to make it quite clear that every Councillor appointed or elected under the new Act (except for the purpose of filling a casual vacancy) will hold office for a term of 3 years.

CHAPTER V.

Clause 65.

This clause amalgamates the provisions of sections 63 and 64 of the existing Act but removes the restriction by which certain appointments and the limits of certain salaries were subject to the approval of the Local Government.

Clause 66.

Sub-clause (4) introduces a new provision empowering the Commissioner to make temporary appointments of officers and servants, subject to certain conditions. Such appointments are, in practice, sanctioned by the Chairman at present, and they will of course be subject to the condition that the budget-grant must not be exceeded.

Clause 71.

This clause reproduces section 70 of the existing Act, with the wording altered so as to give Government a wider power of control in the matter of the dismissal of the Chief Engineer and the Health Officer, and to limit the right of appeal against dismissal to officers drawing a salary of more than Rs. 300 per month. This last provision is based on section 83(*a*) of the City of Bombay Municipal Act, 1888. Bom. Act II of 1888.

Clause 74.

The existing law has been amplified by providing the Corporation with power to make rules for the grant of compassionate allowances and gratuities to the families of deceased municipal officers and servants, and of deputation allowances to municipal officers and servants on the establishment.

The amount of pensions, gratuities and compassionate allowances, will in no case except with the special sanction of the Government of India be more favourable than those given to Government servants of similar standing and status.

Clause 77.

This clause adds to the provisions of section 76 of the existing Act by providing for contributions to a Provident Fund. The term 'family' has also been defined for the purposes of this Chapter, the definition followed being that in force in the Civil Service Regulations (Article 740).

CHAPTER VI.

Clause 78.

At all meetings of the Corporation, according to the proposed changes in the constitution, the President is to replace the Chairman, and this clause provides that all meetings of the Corporation save those referred to in clause 79, are to be convened by him.

Clause 79.

This clause is taken from section 36 of the City of Bombay Municipal Act, 1888. It is necessary that the first meeting of a new Corporation, before the President has been elected, should be convened by the Commissioner. Bom. A of 1888.

Clause 80.

This clause provides for the election of a President and Vice-President of the Corporation, and for the filling of vacancies. It follows the Bombay precedent.

Clause 83.

The same powers are given to the President and the Vice-President, when presiding at the meetings of the Corporation, as are now enjoyed by the Chairman under the existing section 81.

Clause 84.

In view of the increase in the numbers of the Corporation, the quorum for meetings has been raised to the number prescribed under the Calcutta Municipal Consolidation Act, 1888, when the Corporation consisted of 75 members, as is now again proposed in the present Bill. Ben. A of 1888.

Clauses 88 and 90.

The abolition of the General Committee has necessitated a re-distribution of the powers given in sections 86 and 88 of the existing Act. It is proposed that the Commissioner should deal with all contracts and tenders up to five thousand rupees, and the Corporation with those above that amount. Sub-clause (*5*) of clause 90 empowers the Corporation to dispense with calling for tenders in special cases on the lines of section 72 (*3*) of the City of Bombay Municipal Act, 1888. The want of such a power has often been felt by the Corporation. Bom. A of 1888.

Clauses 92 to 96 and 97.

These clauses provide for meetings of the General Appeals Committee and the Buildings Appeals Committee, respectively, the quorum at such meetings, the appointment of a Chairman of each Committee, the transaction of business by voting and the making of rules to regulate the conduct of business at meetings. Clause 97 provides for the fees to be paid to members of the latter Committee. These clauses are on the lines of sections 90 to 94 of the existing Act which relate to the General Committee and which, in view of the proposed abolition of that body, will no longer be needed.

Clauses 98 and 99.

These clauses take the place of sections 95 and 96 of the existing Act and provide for the constitution of Standing and Special Committees, as explained in paragraph VII of the Statement of Objects and Reasons.

CHAPTER VII.

Clause 104.

It is proposed to amalgamate the different Municipal Funds prescribed by section 103 of the existing Act and to have only one consolidated rate instead of the several rates which are now levied as one consolidated rate. (*See paragraph VIII of the Statement of Objects and Reasons.*)

Clause 106.

This clause provides that all moneys payable to the credit of the Municipal Fund shall be paid into the Bank of Bengal.

Clause 107.

Sub-clause (*1*) increases the number of persons authorized to sign cheques on behalf of the Corporation.

Sub-clause (*3*) reproduces section 112(*3*) of the existing Act with this modification, that the limit of Rs. 1,000 as regards the drawing of cheques is omitted. The placing of such a limit has been found to cause unnecessary trouble in making payments.

Clause 108.

Sub-clause (*2*) places beyond the possibility of doubt the legality of the payment of the Calcutta Improvement Trust contribution, which has been doubted in some quarters.

Clause 109.

Sub-clause (*g*).—This new sub-clause is added to cover sums payable by the Commissioner as compensation under any rule or by-law made under this Act.

Clause 113.

The wording of section 119 of the existing Act has been modified. The investment and deposit of surplus cash will be left in the hands of the Commissioner.

CHAPTER VIII.

Clause 115.

This clause corresponds to section 121 of the existing Act, but the drafting has been altered owing to the proposed abolition of the General Committee and other constitutional changes. The provisions of this clause have also been made more comprehensive in view of the omission of the provisions of sections 122, 123, 124 and 125 of the existing Act, which are no longer required since the General Committee are to be abolished. It is also proposed to increase the minimum closing balance to six lakhs as that sum has been found necessary to meet ordinary liabilities, and this has accordingly been provided for in clause 116.

CHAPTER IX.

Clauses 118 to 139.

Ben. Act IV of 1914.

This Chapter reproduces Chapter X of the existing Act as substituted by the Calcutta Municipal (Loans) Act, 1914, with the necessary modifications resulting from the changes in the municipal constitution or in other points of detail which are proposed in this Bill. In accordance with the policy adopted throughout the Bill, all provisions in the existing Act requiring that certain matters shall be referred to "special meetings" of the Corporation have been omitted.

CHAPTER X.

Clauses 140 to 144.

These clauses reproduce sections 142 to 146 of the existing Act with such modifications as are necessary owing to the abolition of the General Committee and other constitutional changes. No provision need now be made for the payment of auditors (*see* section 143 (*3*) of the existing Act), as the audit of the municipal accounts is now conducted by the Accountant-General free of charge.

CHAPTER XI.

Clauses 145 and 146.

The changes made in the provisions of sections 147 and 148 of the existing Act and the omission of the provisions of section 149 of that Act are due to the amalgamation of the separate funds. The reduction of the water-rate under the proviso to section 147 of the existing Act is negligible, being estimated at only ·01 per cent. The proposed changes have been explained in detail in paragraph VIII of the Statement of Objects and Reasons.

Clause 147.

Power has been taken by the Local Government in sub-clause (*2*) to direct the exemption of open spaces and parade grounds, being the property of Government, from the consolidated rate.

Sub-clause (*4*) reproduces section 150 (*3*) of the existing Act, but it is proposed to dispense with the control of the Local Government in the matter of exempting certain buildings and land from the consolidated rate.

Clause 148.

Proviso (*ii*) reproduces section 151 (*ii*) of the existing Act with modifications which are intended to meet the contention that lifts or electric fittings are machinery and should therefore be excluded from the valuation of a building.

Clause 149.

The opportunity has been taken to modify the provisions of section 152 of the existing Act considerably. Sub-section (*1*) of that section has been recast so as to save and continue valuations made under the existing Act, and the word "districts" has been replaced by the word "wards" in this clause. This last change merely follows the existing practice, as the "districts" for assessment purposes have always been the wards. As a result of the changes made in this clause, Schedule VII of the existing Act will no longer be necessary. Sub-clause (*2*) has been inserted to provide for the valuation of the new areas which it is proposed to include in Calcutta. Again in sub-clause (*4*) (*a*) it is proposed to omit the reference to "lands that are waste or are used for agricultural purposes." There is no reason why such lands should be revalued within the six-yearly period, and in practice such intermediate valuations are never made. Sub-clause (*4*) (*d*) has been introduced with a view to providing for the valuation of any new building erected during the currency of the assessment period. The provision for such valuation is not very clear in the existing Act.

Clause 151.

As mentioned in the note on clause 149, the "districts" prescribed by section 154 of the existing Act have, in practice, always been the wards. This clause therefore provides that the valuations shall be carried out by wards. For the same reason, 'ward' has replaced 'district' in clause 154.

Clause 153.

The corresponding section 156 of the existing Act does not provide for all the details which are necessary in order to arrive at a correct valuation to be entered in the return. This deficiency has been made good.

Clause 155.

There is very little advantage in differentiating between the case of *trustees* and other lands and buildings so far as the question of the notice to be given when the assessment is increased is concerned, and *trustees* have therefore been included in clause 155. The removal of this distinction has also necessitated a consequential change in the provisions of section 160 (*2*) of the existing Act, which are reproduced in clause 156 (*2*).

Clause 160.

Sub-clause (*1*) (*c*).—Under the existing law the names and places of abode of persons primarily liable to pay the consolidated rate have to be entered in the municipal assessment-book. The proposed sub-clause renders

the underlying intention quite definite by specifically requiring the entry in the assessment-book of the names and places of abode of owners and of the names only of occupiers.

Sub-clause (*2*) prescribes the municipal assessment-book. A definition of "assessment-book" has been inserted in the Bill. [*See note on clause 3 (2).*]

Clause 162.

This clause is based upon section 149 of the City of Bombay Municipal Act, 1888. In order to prepare a correct election-roll, and also for many other reasons, it is necessary that the assessment-book should be kept correct up to date, and it is considered that little hardship will be entailed in requiring that all transfers of title in immovable property should be reported to the Commissioner. Bom. Act of 1888.

Clause 164.

This clause reproduces the provisions of section 169 of the existing Act, but the wording has been modified with a view to make the intention clearer.

Clauses 168 and 169.

The wording of sections 173 and 174 of the existing Act, has been simplified, but without any substantial change in their purport.

Clause 171.

This clause reproduces section 176 of the existing Act, but it is thought desirable to calculate the period of limitation from the date of payment instead of from the date on which notice is given. The present procedure has proved unworkable, and is also unfair in some cases.

Clause 172.

This clause is taken from section 152 of the City of Bombay Municipal Act, 1888. Under the existing law remission of rates is granted for the period during which a holding is unoccupied, and it is very difficult for the Corporation to know when it is re-occupied unless the owner is required to give notice of the fact. A clause to this effect is considered to be very necessary to prevent loss of rates. Bom. Act of 1888.

Clause 173.

The language of the existing section has been considerably simplified without however altering its provisions.

Clause 174.

This clause, which corresponds to section 178 of the existing Act, has been made to apply to "land" as well as to buildings.

Clause 176.

This clause reproduces section 180 and part of section 182 of the existing Act, with modifications. It is proposed to abandon the practice of assessing masonry buildings in a *bustee* as *bustee* holdings, and to value them under the ordinary provisions relating to the valuation of buildings. Under the existing law "*bustee land*", as defined in section 3 (*6*), excludes any portion of a *bustee* in which the owner of the land is also the owner of a hut. This gives rise to difficulty when the huts of the tenants fall, as they occasionally do, into the hands of the landlord. In the Bill, the above definition is not included, and it is therefore necessary to provide in this clause that the deduction of one-eighth from the rate should not be allowed in case of huts owned by the landlord of the *bustee* as that deduction is intended to be allowed for the expense and possible loss involved in collecting the hut-owner's share of the rates. Sub-clause (*2*) is taken from section 182 of the existing Act, which it is proposed to omit from the Bill.

Clause 179.

This clause reproduces section 185 of the existing Act, but the portion relating to provisional registration is omitted as it has been found that such registration is never resorted to in practice.

Clause 181.

This clause corresponds to section 187 of the existing Act and, with the exception of the provisos, the changes made are purely verbal and have been inserted merely with a view to render the intention clearer. The provisos are new and are intended to cover the case of a holding which is sub-divided or amalgamated on re-valuation. Such cases were apparently not contemplated when section 187 of the existing Act was originally enacted, but it is most necessary that they should be provided for. The course proposed is that the rate should be paid on the new valuation pending the determination of the objection, and, if it is reduced on the objection being decided, a refund of the excess should be made.

Sub-clause (*3*) contains provisions similar to those obtaining in Bombay determining the manner in which the amount of money due to the Corporation in lieu of the consolidated rate on account of Government buildings and lands shall be ascertained.

CHAPTER XII.

Clause 182.

This clause reproduces section 188 of the existing Act with one amendment. The exemption, by clause (*a*) of section 188, of carriages, none of the wheels of which exceed 24 inches in diameter, from the payment of the tax on carriages has operated to exclude motor-cars and other similar vehicles having wheels which do not exceed 24 inches in diameter. As, however, there are no grounds for the exemption of such cars, it is desirable that the provisions of the above-mentioned clause should be repealed.

Clause 185.

Sub-clause (2), proviso.—This proviso has been added with the object of making it clear that the tax leviable in respect of carriages and animals is not to be levied over again in any one half-year should such carriages or animals change hands during that period.

Clause 190.

This clause reproduces section 196 of the existing Act, with some verbal alterations made with a view to make the intention clearer.

Clauses 191 and 192.

These clauses introduce new provisions for imposing a yearly tax on dogs. These provisions are much the same as those relating to the tax on carriages and animals, except that the license will be an annual one and all licensed dogs will be required to carry a number-ticket. (*See paragraph IX of the Statement of Objects and Reasons.*)

CHAPTER XIII.

Clause 193.

This clause reproduces section 198 of the existing Act, the wording of which has been altered so as to get rid of the separate references to "persons" and "associations" in view of the definition of "person" in section 3(*32*) of the Bengal General Clauses Act, 1899, which includes companies and associations. A similar change has been made in other clauses where the word "person" occurs. The first proviso is new and is designed to meet the contention that the grant of a license under section 198 is some sort of guarantee that the licensee will not be required to secure any other license which he may be required, under other sections of the existing Act, to take out in order to enable him to carry on his business in the manner in which he desires. The tax on trades and professions is merely a means of raising revenue, and the Commissioner is bound, under section 198 of the existing Act, to grant the necessary license; but it was never intended that the grant of such license should exempt the holder from taking out any other license under the law. As, however, the point is sometimes disputed, it is considered advisable to insert in the Bill a provision which will make the position quite clear.

Ben Act I of 1899.

Clause 194.

This clause is the same as section 199 of the existing Act, with the exception that some of the particulars required to be stated in every license under the existing law now form part of the general requirements governing the issue of licenses which are contained in clause 501.

Clause 196.

This clause reproduces section 201 of the existing Act, but it is proposed to make its provisions applicable to owners as well as to occupiers of premises.

CHAPTER XIV.

Clauses 197 and 198.

These clauses reproduce sections 203 and 204 of the existing Act, respectively, but introduce provisions for the levy of the scavenging-tax on account of markets. A very large quantity of refuse accumulates on premises which are used as markets, and the intention of section 203 of the existing Act (read with Schedule IX) evidently was that this scavenging-tax should also be payable in the case of markets; but the reference to the number of animals kept has given rise to the interpretation that such a tax can only be levied in the case of cattle markets. The new provision in these clauses meets this difficulty. In clause 197 it is considered unnecessary to provide for the fixing of any rates other than those prescribed in Schedule VIII, which have been carefully calculated according to the cost of removing the refuse. It is not proposed to retain in the Bill the power to make by-laws for prescribing rates for license-fees which is given by section 203 of the existing Act, or the provisions *re* preparation of half-yearly lists of licensees which are incorporated in section 205 of that Act.

CHAPTER XV.

This Chapter corresponds to Chapter XVI of the existing Act and is almost identical with it. The changes made are purely verbal.

CHAPTER XVI.

Clause 201.

This clause amalgamates the provisions of sections 208 and 210 of the existing Act.

Clause 202.

Sub-clause (*1*) corresponds to section 209(*1*) of the existing Act, but it is proposed to provide for an enhanced fee in the case of carts propelled by mechanical power and of trailers drawn by such carts. This is intended to meet the case of motor-lorries and road-trains, which do a great deal of damage to the roads and which at present pay the same fee as bullock carts. A provision has also been introduced for making a charge of one rupee for the number-plates to be affixed to carts, such fee being returnable if the number-plate is given back in serviceable condition. At present cheap locally-made number-plates are affixed which are frequently imitated. It is proposed, therefore, to use enamelled number-plates in future, which will be more expensive, but which it will be difficult to imitate.

Clause 203.

This clause provides for the registration of cart-drivers and for the assignment of a number-ticket to each driver. The necessity for this has been explained in the Statement of Objects and Reasons. (*See paragraph X thereof.*)

Clause 204.

This clause reproduces the provisions of section 209(*4*) of the existing Act which it is thought desirable to insert as a separate clause in the Bill.

CHAPTER XVII.

Clause 216.

This clause introduces provisions for the issue of a fresh warrant for the recovery of the balance of the sum due, if the sale proceeds of the property distrained under the original warrant are not sufficient to cover the whole of such sum.

Clause 218.

The provisions of section 223 of the existing Act do not cover the case of a purchaser of a share of any land or building. It is proposed to remedy this defect by extending the provisions of this clause to such purchasers.

Clause 224.

It is proposed to authorize the Commissioner to realize the carriage and horse tax from hackney-carriage owners in the same way as from other owners of horses and carriages. The exception made in section 229(*1*) of the existing Act with regard to hackney-carriage owners is apparently based upon section 190 of that Act, which provides that hackney-carriages shall not be registered under the Calcutta Hackney-Carriage Act, 1891, until the carriage and horse tax has been paid; but hackney-carriage owners ordinarily keep a certain number of spare horses the tax on which cannot be realized under the provisions of section 190. The provisions of this clause will facilitate the levying of the tax on all horses owned and used by hackney-carriage owners. Ben. Act II of 1891.

Clause 228.

This clause corresponds to section 233 of the existing Act, but it has been considered desirable to apply the provisions of certain other sections, besides those already mentioned in sub-section (*2*) of that section, to the case of a warrant of distress issued for the recovery of certain taxes other than the consolidated rate.

Clause 229.

This clause provides for the seizure of the goods of hawkers who have not taken out a license. This is the only available method of realizing the tax in such cases, as it is impossible to trace these hawkers and to apply to them the ordinary provisions for the recovery of taxes. A similar power is given by section 214 of the City of Bombay Municipal Act, 1888, with regard to vehicles which have not paid toll. Bom Act III of 1888.

Clause 231.

In addition to reproducing the provisions of section 235 of the existing Act this clause provides specifically for striking off the books irrecoverable demands, other than demands on account of the consolidated rate or any other tax. At present the Chairman, in the exercise of his ordinary executive authority, orders such sums as he considers to be irrecoverable to be written off, but it is considered desirable to make specific provision for this in the Bill.

CHAPTER XVIII.

Clause 233.

This clause provides for the continuation of the supply of unfiltered water wherever it is already being supplied, and leaves it to the discretion of the Corporation to extend the supply to any part of Calcutta in which it does not exist.

Clause 234.

This clause combines the provisions of sections 238 and 239 of the existing Act; but the power of the Corporation under the latter section to supply unfiltered water to bathing platforms is done away with, as unfiltered water is considered insanitary for bathing purposes and as filtered water can now easily be supplied to all bathing platforms.

Clause 235.

This clause reproduces the provisions of section 240 of the present Act, but gives the Corporation power to provide hydrants in the filtered as well as in the unfiltered water systems.

Clause 236.

This clause makes it clear that a pressure of not less than 40 feet must be kept up in the municipal mains for the supply of filtered water throughout the 24 hours, though power is given to the Corporation to authorize a lower pressure, if necessary.

Clause 238.

This clause combines the provisions of sections 244 and 245 of the existing Act, but provides for the use of filtered water to extinguish fire in case of emergency.

Clause 240.

This clause reproduces the provisions of section 247 (*2*) of the existing Act, but the last part of that sub-section is not included as it is considered unnecessary.

Clause 241.

It is proposed to increase the free allowance of filtered water from 4,000 to 5,000 gallons for every rupee of water-rate; but as no separate water-rate is now imposed, the allowance has been calculated on the consolidated rate on the assumption that the water-rate would be six *per cent.* out of a total consolidated rate of twenty *per cent.* This calculation would give a free allowance of fifteen hundred gallons for every rupee paid as the consolidated rate. It is also provided that the free allowance shall in no case be less than twenty, or more than fifty, gallons per head per day, calculated upon the ordinary number of persons residing on the premises. In the case of the poor, a free allowance, based solely on the amount of rates paid, sometimes causes hardship, and it is thought that every person ought to be entitled to at least twenty gallons of filtered water a day irrespective of the rates which he pays. On the other hand, it is considered that fifty gallons per head per day is more than sufficient for anybody, and it is proposed to limit the free allowance to this quantity, even though the valuation of the premises would entitle the occupier to a much larger supply. In the possible contingency of the Corporation hereafter deciding to discontinue the unfiltered water-supply, power is given to the Local Government to increase the free allowance of filtered water.

Clause 242.

This clause permits the occupier of any premises to bring into the premises a supply of filtered water and also of unfiltered water. Under section 249 of the existing Act it is only the occupier of a masonry building who is permitted to have water connection. It is proposed to allow such connections to any premises whether consisting of buildings or open lands or both, with the reservation, as provided in clause 247, that huts shall not be directly connected with the water-supply except for the purpose of flushing privies attached to them.

Clause 245.

This clause corresponds to section 282 of the existing Act which has thus been transposed to a more appropriate position.

Clause 246.

This clause corresponds to section 253 of the existing Act, but the word "premises", as including buildings as well as land, has been substituted for the word "building." In proviso (*a*) power is given to the Commissioner to pay the cost of connecting any premises with the water-supply under this clause out of the Municipal Fund if the owner is too poor to bear the same.

Clause 247.

This clause introduces provisions to prohibit the direct connection of a hut to the water-supply except for the purpose of flushing a connected-privy attached to the hut. [*See note on clause 242.*]

Clause 248.

Sub-clause (*1*), *proviso*, reproduces the proviso to section 254 of the existing Act with the additional requirement that only filtered water is to be supplied in cases where the Commissioner thinks that the supply of unfiltered water may lead to contamination.

Clause 250.

This clause provides for the contingency of the Corporation desiring to discontinue the unfiltered water-supply. No such proposal is actually in contemplation now, but it is undesirable that the Corporation should be legally bound to maintain an unfiltered water-supply, even though it might be more satisfactory to substitute filtered water for it.

Clause 253.

This clause introduces provisions based on section 273 of the City of Bombay Municipal Act, 1888. It is certainly desirable that the Corporation should own and maintain all service water-pipes and fittings in streets, but the expenses and responsibility of maintaining them are considerable. It is desirable, however, that the Corporation should have the power of taking over such pipes and fittings, if they are willing to undertake the expense of maintaining them. Bom III of

Clause 255.

It is proposed to give the Commissioner a free hand in the matter of fixing water-meters. In some cases such meters are fixed in whole districts. The provisions of sub-sections (*2*), (*4*) and (*5*) of section 270 of the existing Act have not been included in the Bill. They were inserted in the Act for the purposes of the then proposed block-meter system, which was subsequently abandoned. No occupier ever applies to have a meter attached to his premises, and there is no reason why he should do so.

Clause 256.

This clause reproduces the provisions of section 271 of the existing Act, but introduces new provisions to deal with matters which have given rise to difficulties under the existing law. If there are several separate occupiers in a building it is impossible to ascertain which of them has used more than the allowable quantity of water, and the only method of realizing the excess charge is to make the owner pay it and recover from his tenants. This is provided for in sub-clause (*2*). Sub-clauses (*3*) and (*4*) deal with cases in which there is a change of occupier during a quarter. They make the last occupier liable for the whole excess unless he has had the meter read at the time when he came into occupation.

Clause 258.

This clause is necessary in view of the fact that the rules regulating the use, maintenance and testing, etc., of meters have been transferred to Schedule XIII. (*See paragraph II of Statement of Objects and Reasons.*)

Clause 259.

Sub-clause (*1*) is taken from section 286 of the City of Bombay Municipal Act, 1888. When a meter, for instance, is tampered with in private premises, it is almost impossible to discover the offenders. It is therefore proposed to provide that the occupier shall be presumed to be liable, until the contrary is proved. Bom. III of 1888

Sub-clause (*2*) merely reproduces the provisions of section 276 (*2*) of the existing Act, which, it is thought, fall more appropriately into this place.

Clause 260.

This clause reproduces the existing section except that two other municipalities have been added, namely, Panihati and Tollyganj.

Clause 264.

Three new sub-clauses (*h*), (*i*) and (*j*) have been added to the provisions of section 283 (*1*) of the existing Act. The first explains itself. The second is intended to enable the supply of water to be cut off without 24 hours' notice in cases in which a tap is found missing and the water is running continuously to waste. Such cases are by no means uncommon. The third additional sub-clause enables the Commissioner to cut off the water at once in order to prevent damage to the public street. Provision has also been made in sub-clause (*2*) of this clause for realizing the cost of restoring the connection as well as that of cutting it off, but it is proposed to exclude from the application of this provision cases in which the connection is cut off in unoccupied premises and in premises declared unfit for human habitation.

CHAPTER XIX.

Clause 271.

This clause amalgamates the provisions of sections 290 and 291 of the existing Act. Power has expressly been given to the Commissioner to carry municipal drains under buildings, as it has been held that "land" in section 290 (*1*) and (*2*) of the existing Act means vacant land not occupied by buildings.

Clause 272.

This clause corresponds to section 292 of the existing Act. It is proposed in sub-clause (*2*) to include the owner of a railway, private street, wall or other structure in the liability for the expenses of removing or otherwise dealing with the same under this clause. This is expedient as the "person offending" may be a contractor or a servant of the owner.

Clauses 281 and 282.

These clauses reproduce the existing sections 301 and 302, but it has not been thought necessary to retain in clause 281 any provisions dealing with the construction of new house-drains seeing that clause 282(*1*) adequately provides for such constructions. Section 301(*3*) now appears as clause 282(*2*). It is to be noted that the owner alone is made liable under these clauses.

Clause 284.

Sub-clause (*2*) corresponds to section 307 (*2*) of the existing Act, but further provides that the owner of the land on which a hut stands shall be liable for the cleansing, repair and maintenance of a surface drain constructed to serve such hut.

Sub-clause (*3*) is intended to meet the contention sometimes put forward that section 307 of the existing Act is the only section which empowers the municipal authorities to deal with the drainage of *bustees* or huts.

Clause 287.

The provisions of section 310 relating to the fees to be levied under the section and the manner of the recovery of such fees have not been included in this clause as they are covered by the general provisions of clauses 501(*2*) and 529.

Clause 288.

This clause corresponds to section 311 of the existing Act, but it has been amplified on the lines of section 247 of the City of Bombay Municipal Act, 1888, which relates to bathing and washing place accommodation as well as to privy and urinal accommodation for new buildings. Bor III of

Clause 289.

This clause corresponds to section 312 of the existing Act, but has been amplified on the lines of section 248 of the City of Bombay Municipal Act, 1888. Bor III of

Clause 290.

This clause lays down that the requisition referred to therein is to be made on the owner of the premises. The occupier is not to be called upon except in the circumstances mentioned in clause 303. (*See note on clause 303.*)

Clause 291.

This clause reproduces, with a few verbal alterations, the provisions of section 314 of the existing Act. It is proposed in the Bill to amalgamate the provisions of Schedules XV and XVI to the existing Act and include them in one Schedule.

Clause 296.

This clause reproduces the provisions of section 320 of the existing Act, but empowers the Commissioner to cleanse or open out any house-drain which is obstructed and to direct that the owner or the occupier shall pay the expenses of the work.

Clause 297.

This clause relates to the position of cesspools and corresponds to section 304 of the existing Act and also to section 325, in so far as that section relates to cesspools. This clause also introduces provisions prohibiting the construction of a cesspool under any building or within a certain distance of a filtered water reservoir outside Calcutta, and empowers the Commissioner to approve the site of cesspools and to require a cesspool which has been illegally constructed to be removed or filled up.

Clause 298.

This clause corresponds to section 325 of the existing Act in so far as that section relates to receptacles for sewage or offensive matter other than cesspools. This clause, like clause 297, applies also to receptacles situated outside Calcutta.

Clause 302.

This clause corresponds to section 328 (*1*) and (*2*) of the existing Act, the Commissioner taking the place of the General Committee which it is proposed to abolish. The owner of the premises is made liable in all cases.

Clause 303.

This clause amplifies the provisions of section 315 of the existing Act, but is based on the same principle. The use of the words "owner or occupier" throughout Chapter XXI of the existing Act has given rise to difficulties. The work to be carried out is practically in every case work which should be carried out and paid for by the owner. It is, however, frequently very difficult to serve a requisition on, or enforce it against, the owner, and notices are therefore often served on the occupier who has to bear the cost of the work. This is inequitable. The proviso enables the occupier to recover from the owner expenses reasonably incurred by him on behalf of the owner.

Clause 304.

This clause introduces new provisions, based on section 260 of the City of Bombay Municipal Act, 1888, and is intended to strengthen the hands of the Commissioner in an emergency. Sub-clause (*2*) empowers the Corporation to bear the expenses, in any suitable case, of work undertaken in these circumstances.

Clause 306.

This clause corresponds to section 327 of the existing Act, but allows an appeal in certain cases not provided for under that section.

CHAPTER XX.

Clause 307.

This clause reproduces the provisions of section 329 of the existing Act, but the condition as to publication within two months has not been included as it is spent.

Clause 309.

This clause corresponds to section 331 of the existing Act, but the Commissioner has been substituted for the Engineer as it is proposed to vest all executive powers and duties in the Commissioner.

Clause 310.

Sub-clause (*1*) corresponds to section 332 (*1*) of the existing Act with a new provision introduced to cover every kind of work done in connection with underground drains.

Clause 311.

This clause corresponds to section 333 of the existing Act. The special provisions in sub-section (*2*) of that section have not been included in the Bill as they are unnecessary, the Corporation being given a general power to prescribe fees for licensed plumbers for work done.

Clause 314.

This clause allows an appeal against an order of the Commissioner refusing to grant or to renew a license to a plumber.

CHAPTER XXI.

Clause 315.

Sub-clause (*2*) introduces provisions expressly empowering the Corporation to name public streets, as the provisions of section 348 of the existing Act have been relegated to a Schedule.

Clause 317.

This clause corresponds to section 338 of the existing Act, but provision has been made for oiling streets; and the provisions of sub-section (*2*) of that section have not been included as it has never been found necessary to resort to them in practice and as it is proposed to abolish the General Committee.

Clause 318.

This clause merely provides the authority necessary to give effect to the provisions of Schedule XV, to which several sections of this Chapter have been transferred. (*See para. II of the Statement of Objects and Reasons.*)

Clause 319.

It has been held that platforms, verandahs and other projections are not "fixtures" within the meaning of section 341 of the existing Act, but "portions of the building" itself. The proposed amendments are intended to meet this difficulty.

Clause 320.

This clause reproduces section 342 of the existing Act, but makes the offender specifically liable, notwithstanding his liability to be prosecuted, to pay such expenses as may be incurred by the Commissioner in the removal of the obstructions in a public street.

Clause 321.

This clause corresponds to section 350 of the existing Act, but gives the Corporation power to prescribe both a "building-line" and a "street alignment" for any public street.

Clause 322.

This clause, which corresponds to section 351 of the existing Act, has been modified on the lines of the Calcutta Improvement Act, 1911, as amended by the amending Act of 1915. Act V of 1915.

Clause 323.

This clause corresponds to section 352 of the existing Act, but gives power to the Commissioner to take possession of any land not covered by buildings which is situated within a prescribed street alignment.

Clause 326.

This clause reproduces the provisions of section 355 of the existing Act, but permits the alternative course of providing proper means of access for persons affected by the closing of a street.

Clause 327.

This clause corresponds to section 356 of the existing Act. Proviso (*b*) introduces provisions the effect of which will be to keep the lines of masonry buildings on both sides of a projected street forty feet apart, though the street itself may be less than forty feet wide, thus facilitating the future widening of streets.

Clause 328.

By this clause the provisions of clause 322 are made applicable, so far as may be, to public streets projected under clause 327.

Clause 329.

This clause reproduces the provisions of section 357 (*1*) and (*2*) of the existing Act. The provisions of that section relating to abandonment of acquisition have not been included since new provisions dealing with the same subject have been introduced in clauses 330, 331 and 332.

Clauses 330, 331 and 332.

These clauses, which are on exactly the same lines as sections 78, 79 and 80, respectively, of the Calcutta Improvement Act, 1911, correspond to the provisions of sub-section (*2*), proviso, and sub-sections (*3*) to (*6*) of section 357 of the existing Act. They follow the same principle as the existing law, but definitely lay down the procedure for the abandonment of acquisition of any land in consideration of special payment, for the recovery of money so payable and for the acquisition of the same land by a fresh declaration. Ben. of 1911

Clause 333.

This clause corresponds to section 358 of the existing Act. It is intended to help owners who wish to lay out private streets, but it is thought desirable that the Corporation should have power to compel owners to widen a street to the full width of forty feet.

Clause 336.

This clause reproduces section 361 of the present Act. The owner of a private street which is to be treated as provided in this clause is now among the persons who may be required to deal with the street in accordance with the requisition to be served hereunder.

Clause 337.

This clause corresponds to section 362 of the existing Act, but amalgamates the provisions of sub-sections (*1*) and (*2*) of that section. It requires the consent of a bare majority (instead of three-fourths) of the owners of buildings situated in a private street, or of the owners of the street or the owners or occupiers who have paid for the levelling, etc., of the street, before the Corporation may declare the same to be a private street.

Clause 338.

This clause provides for an appeal against any action taken by the Commissioner with the object of altering or demolishing a private street made or laid out in contravention of clause 333, and also against a notice issued under clause 319 (*1*) or 335 (*1*). An appeal is also provided for in the event of the Commissioner refusing to grant permission to the erection of, or addition to, a building on a site between a street alignment and the building line. [*Clause 322* (*2*).]

CHAPTER XXII.

Clause 339.

This clause reproduces the provisions of section 363 of the existing Act, with such changes in the wording as are necessitated by the definition of "new building" in the Bill which will take the place of the definition of "re-erection" in the existing Act. A similar change in the wording has been made throughout the Bill.

Clause 340.

This clause empowers the Commissioner to settle all questions that may arise as to what is a site. Such questions have often given rise to much difficulty in applying the building rules.

Clauses 341 and 342.

These clauses introduce provisions for the licensing of building surveyors having certain qualifications to be prescribed by the Corporation, and for the making of rules for the guidance of such surveyors. (*See para. XII of the Statement of Objects and Reasons.*)

Clause 343.

This clause introduces provisions which require that the plans, elevations and sections, which are to be submitted with an application for sanction to erect a building, must be prepared by a licensed building surveyor.

Clause 344.

This clause corresponds to section 367 of the existing Act, but the distinction between "streets" and "localities" has been done away with and the clause does not now include any provision as to continuous buildings, this class of buildings having been dealt with in Schedule XVI to the Bill. The provisions of sub-clause (*f*) are intended for the purpose of improving the condition of huts in certain areas.

Clause 345.

This clause introduces provisions which will have the effect of restricting the erection of masonry buildings which do not abut on a street or to which there is no access by a pathway at least sixteen feet in width. Sub-clause (*2*) provides that such a pathway shall not at any future time be encroached upon by any other building. The object of these provisions is to prevent buildings being erected without any proper means of access to them.

Clause 346.

This clause enables the Commissioner to require existing public buildings to be brought into conformity with the building rules applicable under the Bill to new public buildings.

Clause 347.

This clause introduces provisions which will have the effect of prohibiting the change in user of a building, an exception being made in favour of buildings which are used as shops in areas in which shops are not prohibited. This exception is a concession to the common practice of letting out or using portions of dwelling-houses as shops and to the need for certain kinds of shops (*e.g.*, small grocery shops) in residential areas.

Clause 348.

This clause corresponds to section 391 of the existing Act, but sub-section (*1*) of that section is now no longer necessary. Power is given to

the Commissioner to direct, on application made to him, that in any particular case the building rules need not apply to alterations of, or additions to, a building; but provision is made at the same time in clause 350 for an appeal against a refusal by the Commissioner to grant such an application. An *Explanation* has also been added to make it quite clear that, for the purposes of clause 348, alterations of, and additions to, a building shall not include any work of re-erection or re-construction which would be covered by the definition in clause 3(*36*). The provisoes to section 391(*2*) of the existing Act, as also sub-section (*3*) to that section, have not been included as they are unnecessary in view of the form now taken by this clause.

Clause 350.

This clause provides for appeals to the Buildings Appeals Committee against certain orders of, or notices issued by, the Commissioner under this Chapter.

CHAPTER XXIII.

Clause 352.

The definition in section 3(*5*) of the existing Act limits a "*bustee*" to plots of land exceeding 10 *cottahs* in area or (in the case of contiguous plots) exceeding one *bigha* in area. In view of the altered definition of "*bustee*" in clause 3 of the Bill it is thought desirable to restrict the powers of the Corporation to improve a *bustee* to plots exceeding one *bigha* in area.

Clause 353.

This clause reproduces section 400 of the existing Act, but the opening words have been modified so as to make the object of the clause quite clear. A reference to "wells and low lands" has also been introduced in sub-clause (*f*) as being much needed. The change in the provisions of section 400 (*3*) of the existing Act is necessitated by the omission from the Bill of the definition of "*bustee* land".

Clause 354.

The provision in section 401 of the existing Act, requiring the Commissioner to prepare a plan within a further period of sixty days, has not been included in the clause, as this is considered too short a period in the case of large *bustees*. The charge of three rupees per *bigha*, as prescribed by section 401 (*4*) of the present Act, is inadequate to cover the actual cost of preparing a plan, and it is accordingly proposed in sub-clause (*4*) to increase it to five rupees.

Clause 357.

This clause corresponds to section 404 of the existing Act, which has been recast. It is thought unnecessary to enforce the re-erection of huts which have been taken down. All that is required is that huts which do not conform to the standard plan should be removed. It is also thought desirable to have a more specific provision as to the payment of compensation for huts removed.

Clause 358.

The main difference between this clause and section 405 of the existing Act is that it is now proposed herein to give the Commissioner the additional power of making requisitions in respect of the water-supply and bathing arrangements for huts.

Clause 359.

Sub-clause (*1*).—The use of the term "medical officer" in section 406 (*1*) and the term "officers" in section 406 (*2*) of the existing Act has led to the contention that the persons employed to make the inspection must be officers of the Corporation. To meet this contention it is proposed to substitute the phrase "persons appointed in that behalf" for the word "officers" and the phrase "medical practitioner" for "medical officer". It is also proposed to insert "registered" before "medical practitioner", this alteration being desirable in view of the provisions of the Bengal Medical Act, 1914.

Sub-clauses (*2*) *and* (*3*).—It is proposed to make it quite clear by these two sub-clauses that urgent and deferred improvements, respectively, are to be specified in separate Schedules annexed to the report.

Sub-clause (*5*) is introduced so as to enable the report to be used in evidence without calling as witnesses the persons who submitted it.

Clause 360.

The wording of section 407 of the existing Act has been recast. It is thought undesirable to prescribe a period of six months or any other period within which the plan must be considered and approved.

Clause 361.

This clause reproduces section 408 of the existing Act, but notices may now be served separately on owners and occupiers of huts and owners of the land in the *bustee*. In practice, it is often found necessary to require hut owners to demolish portions of their huts and the owners of the land to carry out other improvements.

Clause 362.

It is proposed that the expenses incurred by the Commissioner when carrying out improvements in a *bustee*, in default of the owners or occupiers, should be a charge on the *bustee*.

Clause 364.

This clause is the same as section 411 of the existing Act except that it now specifies the different steps which the Corporation may take on receipt of a report, under clause 359, relating to the sanitary condition of a *bustee*.

Clause 365.

The wording of section 412 of the existing Act has been recast with a view to differentiating quite clearly between the carrying out of improvements to be taken in hand forthwith and those to be deferred for action under the previous clauses. [*See note on clause 359 (2).*]

Clause 369.

This clause reproduces section 416 of the existing Act. Having regard, however, to the provisions of clause 353(*2*) of the Bill, it is proposed in sub-clause (*1*) to refer to "passages" as well as to "streets", and in sub-clause (*2*) to provide for the free access of municipal scavenging carts inside *bustees*.

Clause 370.

This clause introduces new provisions which are intended to render the bathing and privy accommodation in a *bustee* available to all the tenants. It is sometimes contended that the owner is entitled to restrict the use of such accommodation.

Clause 371.

This clause provides for the proper maintenance, by the owner, of all *bustee* improvements for which there is no provision under the existing law.

Clause 374.

The wording of section 419 of the existing Act (to which this clause corresponds) has been considerably altered so as to facilitate the application of its provisions. These, as at present framed, have almost brought the working of Chapter XXVI of the existing Act to a standstill. Under the existing law a *bustee* owner on whom a notice has been served to demolish a hut or to carry out improvements in the *bustee* is able to defeat the law by serving a notice on the Chairman under section 419(*1*) and thereby gaining six months' time under section 419(*3*), during which the period of limitation for prosecutions prescribed by section 631 runs out. It is proposed to limit the application of this clause to plots of land bearing a separate number in the assessment-book, and to provide in clause 539 that a fresh period of limitation for prosecutions shall be computed from the expiration of the six months allowed by clause 374 (*3*). [*See note on clause 539.*] Sub-clause (*5*) is inserted with a view to meet the case in which an owner first gets his land excluded from a *bustee* and then proceeds to re-build huts without making improvements as required by the standard plan of the *bustee*. Sub-clause (*6*) introduces a necessary provision which will enable the Corporation to cancel or modify the standard plan when huts in a *bustee* are removed under sub-clause (*3*).

Clause 375.

This clause is based on rule 37A of Schedule XVII to the existing Act, the provisions of which it is thought desirable to incorporate in the Bill in this place. It is proposed to make the clause applicable to areas in which huts are likely to be erected, as well as to existing *bustees*. It is in respect of such areas that its provisions will, it is thought, prove most useful.

Clause 376.

This clause gives further effect to clause 375. It is considered that seven years is a sufficiently long period to allow for the life of a hut, and it will be to the interest of hut owners, when repairing or rebuilding during that period, to conform to the prescribed alignments; for, after seven years, they may be required to remove huts which do not so conform.

Clause 377.

This clause reproduces rule 16A of Schedule XVII to the existing Act (which also it is proposed to include in this Chapter), with some modifications of drafting. The provisions of clause (*b*) of rule 16A have not been included as they would militate against clauses 369 (*1*) and 375 (*5*), under which streets and passages in *bustees* remain private streets.

Clause 380.

This clause introduces provisions allowing appeals to the General Appeals Committee from orders and notices by the Commissioner under certain clauses of this Chapter.

CHAPTER XXIV.

Clause 381.

This clause reproduces section 449 of the existing Act, which, however, applies only to "work done". It is proposed to extend the application of this clause to existing structures which the owner undertakes to demolish when applying for sanction to erect a new building but which he subsequently leaves standing. The reference to 'occupiers' in proviso (*a*) has been omitted as, in practice, it has been found that section 449 has never been applied to occupiers. A similar omission has been made in clause 382. Proviso (*b*) is new and is intended to meet the contention, put forward in some cases, that section 449 of the existing Act cannot apply to a building which has been already valued for purposes of assessment.

Clause 382.

This clause reproduces section 450 of the existing Act with alterations in the wording and in the order of the sub-clauses made to correspond to the rearranged provisions of the existing Act as reproduced in the Bill. It is thought desirable that this clause should apply in the case of a building required to be demolished as unfit for human habitation, and this is provided for in sub-clause (*5*). Cases in which buildings erected between a street alignment and the building-line of streets or projected streets may be required to be removed have also been included. A new proviso (*ii*), similar to proviso (*b*) in clause 381, has also been introduced. [*See note on clause 381.*]

Clause 383.

This clause reproduces section 451 of the existing Act, with the introduction of new provisions intended to strengthen the hands of the Commissioner in stopping the erection of buildings unlawfully commenced or carried on. It is thought very desirable that unlawful construction should be effectively stopped in its early stages.

CHAPTER XXV.

Clause 384.

This clause reproduces section 422 of the existing Act, but makes it clear that gas and oil lamps may be fixed, and gas-pipes laid under, across or over, any immovable property. Sub-clause (*3*) amplifies the provision in section 422(*2*) of the existing Act which exempts the Chairman from all liability to claims for compensation.

Clause 385.

This clause reproduces section 427 of the existing Act, but gives the Commissioner discretion to make the owner of the unlawful structures, or the actual person offending, liable for the expenses incurred in removing the same.

Clause 386.

This clause is made up of sections 429 and 433 of the existing Act, but no material alterations have been made.

Clause 387.

This clause reproduces section 430 of the existing Act except sub-section (*5*), the provisions of which are embodied in a separate clause. [*See* note on clause *393*.]

Clause 388.

This clause corresponds to section 431 of the existing Act, but its provisions have been made applicable to premises in which building operations are being carried on.

Clause 389.

This clause corresponds to section 435 of the existing Act. It is thought desirable that express provision should be made for maintaining an establishment for the scavenging of streets and premises as well as for the removal of sewage.

Clause 392.

This clause amplifies the provisions of section 459 of the existing Act by empowering the Commissioner to construct places as swimming baths and for washing clothes.

Clause 393.

The provisions of sections 428 and 430 (*5*) of the existing Act have been combined in this clause.

CHAPTER XXVI.

Clauses 394 and 395.

It is considered unnecessary that this Chapter should be placed in a separate Part, as in the existing Act. It has accordingly, in the Bill, been included in Part V. The clauses of the Chapter reproduce sections 554 and 555 (Chapter XLI) of the existing Act.

CHAPTER XXVII.

Clause 396.

In rearranging the provisions of the existing Act it is proposed to relegate all the sections of Chapter XXIX, except sections 444 and 445, to a new Schedule. (*See paragraph II of the Statement of Objects and Reasons.*)

Clause 397.

This clause reproduces section 444 of the existing Act, but extends its application to a portion of a building, and makes provision for inspection by the Commissioner and for the prevention of the further use of condemned buildings or portions thereof.

Clause 398.

This clause is based on section 18 of the Housing of the Working Classes Act (9 Edw. 7, c. 44) and is intended to compel owners of uninhabitable houses either to render them habitable or to demolish such houses.

Clause 399.

This clause is based on the provisions of section 379 of the City of Bombay Municipal Act, 1888. Those provisions have been found to be most useful in Bombay in preventing overcrowding in buildings, and it is believed that they will prove equally efficacious in Calcutta. II

Clause 401.

Under the existing law the Chairman has no power to prevent any objectionable enlargement or extension of an existing factory or workshop. This clause reproduces section 463 of the existing Act, but gives the Commissioner the required power.

Clause 402.

Sub-clause (*3*) reproduces section 467 of the existing Act, but omits, as unnecessary, the reference in the proviso to that section to licenses under Schedule II, which are trade or professional licenses and quite distinct from licenses granted in respect of premises.

Clause 407.

This clause introduces provisions which require the production of a certificate from the Commissioner before a license in respect of eating-houses and hotels is granted under the Calcutta Suburban Police Act, 1866, or the Calcutta Police Act, 1866, or the Bengal Excise Act, 1909. It is considered of essential that the Corporation should have some control over the sanitary of condition of eating-houses and hotels. The provisions of the existing law of relevant to this matter are sections 18 to 24 of the Calcutta Suburban Police Act, 1866, sections 35 to 41 of the Calcutta Police Act, 1866, and sections 20 to 23 of the Bengal Excise Act, 1909.

Clause 408.

This clause introduces provisions for the licensing and control of theatres and other places of public amusement. Under the existing law there are no such provisions, and the want of them has long been felt by the Corporation.

Clause 409.

This clause allows an appeal to the General Appeals Committee from the action or orders of the Commissioner under certain sections of this Chapter.

CHAPTER XXVIII.

Clause 410.

This clause is practically identical with section 477 of the existing Act, but the opportunity has been taken to provide in it for the construction and maintenance, etc., of municipal stock-yards which, at present, the Corporation cannot undertake.

Clause 413.

Owing to the very large number of Hindi-speaking people in Calcutta, it is thought desirable to require both here, and in other clauses in the Bill where the posting of notices in various languages is provided for, that such notices should be printed in Hindi as well as in Bengali, English and Urdu.

Clause 414.

Sub-clause (*1*) (*a*) reproduces the provisions of sections 481 (*a*) and 482 of the existing Act, but it is thought desirable to do away with the exception in favour of markets registered under the Calcutta Markets Act, 1871, because that Act has long been repealed and because there is no special reason why these markets should not be placed on the same footing as other markets. Proviso (*iv*) to section 481 has not been included for the same reason. Ben. Act VIII of 1871

Sub-clause (*2*) corresponds to section 481 (*2*) of the existing Act, but the provisions of that section requiring the payment of fees for licenses have been omitted as they are covered by clause 501 (*2*).

Clause 418.

This clause amalgamates the provisions of sections 486 and 487 of the existing Act.

Clause 419.

Sub-clause (*a*) reproduces section 489 (*a*) of the existing Act with a provision which will enable the levying of a charge for the feeding of animals kept in a municipal slaughter-house or stock-yard before they are ready for slaughter.

CHAPTER XXIX.

Clause 422.

This clause amalgamates the provisions of sections 493 and 494 of the existing Act which, to a certain extent, overlap one another.

Clause 423.

This clause provides for the licensing of milk dealers and sellers and is based on section 412A of the City of Bombay Municipal Act, 1888 (as amended by Bom. Act VI of 1913). Bom III of

Clause 424.

Sub-clause (1) corresponds to sub-section (*1*) of section 495 of the existing Act. It is proposed to prohibit absolutely the sale, or the making or storing for sale, of any "adulterated" food or drug, and, to give effect to this object, the qualifying words "to the prejudice of the purchaser," occurring in that sub-section, have been omitted. (*See definition of "adulterated" in clause 3, and also paragraph XIV of the Statement of Objects and Reasons.*)

Clause 425.

This clause, which is based upon sections 415 and 417A of the city of Bombay Municipal Act, 1888, prohibits the sale of certain articles of food which are not of the prescribed standard or quality. This goes further than the prohibition of the sale of "adulterated" articles, but the evils resulting from the widespread adulteration of articles of food which are in everyday use, and especially of milk, *ghee* and mustard oil, require that stringent measures should be taken to stop the adulteration of these articles altogether. Sub-clause (*2*) is designed to prevent persons from defeating the law by selling similar articles under similar names. The provisions of sub-clause (*5*) are intended as a safeguard against the institution of proceedings without proper justification. Bom III of

Clause 426.

This clause is based on section 3 of the Butter and Margarine Act, and is designed to be a further check on the adulteration of certain articles mentioned in the last preceding paragraph. 7 Ed 21.

Clause 427.

Sub-clause (1) reproduces section 496 of the existing Act with the wording modified in consequence of the new definition of "food" in the Bill, and prohibits manufacturing and keeping as well as selling and exposing for sale.

Sub-clause (2) is on the same lines as section 495(*3*) of the existing Act.

Clause 428.

This clause corresponds to section 497 of the existing Act, but it now provides for the licensing of drug shops instead of mere registration.

Clause 431.

This clause corresponds to section 500 of the existing Act, under which places where indigenous drugs or medicines are sold are exempted from registration under section 497. At present the Corporation can exercise no control over such places and there have been complaints that in these places poisons are not kept separate from non-poisonous drugs. It is proposed, therefore, to give the Corporation some control over such places by requiring them to be licensed under clause 428 in common with other drug shops.

Clause 432.

This clause corresponds to section 501 of the existing Act, but the provisions of sub-section (*2*) of that section have not been included as they are covered by clause 510 (*3*).

Clause 433.

Sub-clause (*1*).—It is considered very necessary that the Commissioner should be empowered to make provision for the inspection of articles of food during manufacture. It is proposed by this sub-clause to give him the necessary power.

Clause 434.

Sub-clause (*3*) introduces new provisions which are intended to enable the Commissioner to retain in custody suspected food or drugs until samples are taken and analysed, the object being to avoid the difficulties and expense of removing such articles before it is ascertained whether they should be condemned or not. These provisions will also prevent the disposal of the same before they are actually seized and removed by the municipal authorities.

Clause 435.

This clause reproduces section 504 of the existing Act, the provisions of which, however, apply only to food. There is no reason why the provisions relating to the destruction of food, and the expenses thereof, should not apply to all the articles included in section 503, and the provisions of this clause are, therefore, made applicable to all those articles. Reference to section 505 of the existing Act will show that this, apparently, was the intention of that Act, but that the drafting of section 504 was defective.

Clause 437.

Sub-clause (*1*) reproduces section 507(*1*) of the existing Act, but enables the Commissioner to authorize persons, other than municipal officers or servants, to take action under this provision. The reason for this amendment is that the Municipal Food Inspectors (to whom the Chairman usually delegates his powers by virtue of section 18) are well known to all vendors, who make it a practice not to sell to these Inspectors whenever they can find a pretext for not doing so.

Sub-clause (*2*).—It is here proposed to give to the Commissioner power, similar to that conferred by sub-clause (*1*), to compel the sale to him, during manufacture, of any food or drug the soundness of which he may desire to test. This is considered to be a very necessary provision in view of the frequent practice of adulteration of food while in process of manufacture.

Sub-clause (*3*).—By this sub-clause it is proposed to enable the Commissioner to take samples, for the purpose of analysis, of any food which is in transit in Calcutta or stored in any place in Calcutta. The price of any sample taken will be payable to the owner on demand within one month from the date of surrender of the same.

Sub-clause (*4*).—This sub-clause reproduces the existing sub-section (*2*) of section 507, but its provisions have been made applicable to samples taken under the proposed sub-clause (*2*). Division into three parts has been made compulsory following the English precedent.

Sub-clause (*6*).—This sub-clause is complementary to the proposed sub-clause (*3*), and provides the procedure to be followed upon action taken under that sub-clause.

Sub-clause (*7*) is intended to give probative value to the report of the analyst employed by the Corporation, so that it will not be necessary to call him as a witness in every case.

Clause 439.

This clause is based on section 497(*3*) of the existing Act and allows an appeal to the General Appeals Committee against a refusal by the Commissioner to grant licenses in certain cases.

CHAPTER XXX.

Clause 440.

This clause reproduces section 513 of the existing Act, but provides that information of dangerous diseases shall be given to the Commissioner instead of to the Health Officer. This change, it is thought, will prove to be more convenient for purposes of administration since the Commissioner will be able to delegate his authority in this matter to such officers as he thinks fit. A similar change has been made throughout this Chapter for the same reason.

Clause 442.

It is proposed in this clause to extend the application of the provisions of section 515 of the existing Act by a general reference to "domestic purposes."

Clause 443.

Sub-clause (*1*) reproduces section 516(*1*) of the existing Act with an alteration in the wording intended to exclude cases where the patient can be effectually segregated without being sent to hospital.

Clause 444.

Sub-clause (*1*).—This sub-clause reproduces sub-section (*1*) of section 517 of the present Act, but the application of its provisions has been extended to tanks, pools or wells adjacent to a building as, for obvious reasons, it may sometimes be desirable to disinfect them.

Clause 446.

The *Explanation* reproduces the provisions of section 519(*2*) of the existing Act, which are, strictly speaking, in the nature of an explanation.

Clause 447.

Sub-clause (*3*).—Under section 520(*3*) of the existing Act the Chairman may require the disinfection or destruction of infected articles, but this provision has not proved very effective in practice as the requisition is frequently not complied with. It is therefore proposed in this clause to give power to the Commissioner to disinfect or destroy such articles in the first instance.

Clause 449.

Sub-clause (*1*).—In this sub-clause the provisions of sub-sections (*1*) and (*3*) of section 522 of the existing Act have been amalgamated.

Clause 453.

This clause is based on the proviso to section 518(*2*) of the existing Act, and allows an appeal to the General Appeals Committee in similar circumstances.

CHAPTER XXXI.

Clause 454.

Sub-clause (*4*) reproduces section 526(*4*) of the existing Act, with an alteration in the wording which is intended to include places for the disposal of the dead other than burial or burning grounds (*e.g.*, towers of silence). A similar change has been made in this Chapter wherever burial or burning ground is mentioned. The proviso is introduced to allow of the same Sub-Registrar being appointed for more than one such place, if necessary.

Sub-clause (*5*) merely reproduces section 528 of the existing Act.

Clauses 457 and 458.

These clauses correspond to sections 531 and 532 of the existing Act but are based on sections 446 and 449 of the Bombay Act (Bom. Act III of 1888.)

Clause 460.

This clause corresponds to section 536 of the existing Act, but it is considered desirable to provide for the production of a certificate by a medical practitioner registered under the Bengal Medical Act, 1914. Ben. Act V of 1914.

CHAPTER XXXII.

This Chapter corresponds to Chapter XL of the existing Act, but sections 549, 550 (*3*), 552, 553 of that Chapter have been omitted, as they are, in the Bill, adequately covered by the relevant provisions of clause 481. Apart from the above omissions, the few changes made in this Chapter are purely verbal.

CHAPTER XXXIII.

Clauses 474 to 477.

These clauses reproduce the provisions of sections 394 to 397 (*i.e.*, Chapter XXV) of the existing Act, which, it is thought, may conveniently be grouped in the same Chapter with the clauses which reproduce sections 556 to 558 (*i.e.*, Chapter XLII) of that Act, the subject-matter being analogous.

Clause 479.

Sub-clause (*c*) reproduces section 557(*d*) of the existing Act with alterations in the wording made to exclude land in a *bustee*. Under the existing law *bustee* land is valued differently from other land, and the same method of valuation is provided for in the Bill. It is considered, therefore, that the presumptive value of *bustee* land cannot satisfactorily be fixed in the same way as that of other land under the provisions of this sub-clause. The proviso to section 557(*d*) of the existing Act has not been included in the Bill as its provisions are spent and are therefore no longer required.

CHAPTER XXXIV.

Clause 481.

Sub-clause (1) introduces provisions dealing with municipal debentures which are much needed.

Sub-clause (3) takes the place of section 559 (*51*) of the existing Act, but empowers the Corporation to prescribe the maximum loads and the minimum width of tyres for carts. In this and other instances, the position of the sub-clause in the clause has been made to conform with the revised arrangement of Chapters and clauses in the Bill. (*Vide* foot-note to Chapter XLIII of the Reprint of Ben. Act III of 1899.)

Sub-clause (18) introduces provisions which are required owing to the great increase in the number of advertisements posted on boundary walls and in, or adjacent to, streets and other public places.

Sub-clause (21) provides for the making of by-laws to regulate the construction of verandahs, etc., in streets. This power is considered to be necessary so as to permit of supplementation of the provisions of section 340 of the existing Act, which deal with the construction of verandahs, etc., and which have now been relegated to Schedule XV.

Sub-clause (27) empowers the Corporation to make by-laws to take the place of the provisions of sections 423 to 426 of the existing Act, which it is proposed to omit from the Bill.

Sub-clause (28) similarly provides for the making of by-laws to cover the provisions of sections 432, 434 and 436 of the existing Act.

Sub-clause (29) provides for the making of by-laws in substitution for the provisions of sections 460, 461, 462 and 474 of the existing Act, and also reproduces the provisions of section 559 (*31*) of that Act.

Sub-clause (30) empowers the Corporation to make by-laws to deal with the subject-matter of sections 475 and 476 of the existing Act, which it is proposed to relegate to by-laws.

Sub-clause (31) similarly provides for the making of by-laws covering the provisions of sections 461 and 462 of the existing Act.

Sub-clauses (32), (33) and *(34)*, in which are included the provisions of clauses *(26)* and *(27)* of section 559, provide for the making of by-laws to take the place of the provisions of Chapter XXXI of the existing Act, which it is proposed to omit altogether from the Bill.

Sub-clause (39) introduces provisions for the making of by-laws regarding eating-houses and other similar places.

Sub-clause (40) reproduces the provisions of section 559 (*30*) of the existing Act, but also provides for the making of by-laws to cover the provisions of sections 464 (*1*), 465, 466 (*2*) and 473 of the existing Act, which it is proposed to relegate to by-laws.

Sub-clauses (41) and *(42)* introduce provisions for the making of by-laws which are much needed to ensure the public safety in places of public resort.

Sub-clauses (45) and *(46)* reproduce the provisions of section 559 *(34)* and *(35)*, and also provide for the making of by-laws dealing with the subject-matter of the provisions of section 488 (*a*) and (*d*) of the existing Act, which it is proposed to relegate to by-laws.

Sub-clause (49).—In view of the fact that it is proposed to omit Chapter XXXVI of the existing Act, this sub-clause has been revised to bring it into line with clause 410 of the Bill, which provides for the use of correct weights in the municipal markets.

Sub-clause (53) provides for the making of by-laws to take the place of the provisions of sections 527, 529 (*2*), 530, 535, 537 and 544 of the existing Act, which it is proposed to relegate to by-laws.

Sub-clause (61) reproduces section 559 *(49)*, and also provides for the making of by-laws to take the place of sections 549, 550 (*3*), 552 and 553 of the existing Act, which it is proposed to relegate to by-laws.

Sub-clause (*63*) in like manner provides for the making of by-laws to cover the provisions of sections 571 and 572 of the existing Act.

Clause 482.

Sub-clause (*2*) reproduces the provisions of section 464 (*2*) of the existing Act, it being proposed to relegate section 464 (*1*) to by-laws. [*See note on clause 481* (*40*).]

Clause 483.

As it is considered that the maximum penalties imposable under by-laws should be enhanced, the necessary provision has been made here. This clause represents in the main section 561 of the existing Act.

Clause 484.

This clause introduces provisions empowering the Corporation, when making a by-law, to provide an appeal to the General Appeals Committee or to the Buildings Appeals Committee, as the case may be, against any order of the Commissioner made under such by-law. This is necessitated by the proposed relegation to by-laws of several of the provisions of the existing Act.

Clause 487.

This clause modifies section 567 of the existing Act by empowering the Local Government to amend all Schedules to the Bill except Schedules I and III. Schedule I fixes the boundaries of Calcutta for municipal purposes and Schedule III defines the boundaries of wards. Any alteration of those boundaries is considered undesirable as it would affect not only the elections but also the assessment periods for the wards, and would give rise to many other difficulties. The provisions of section 43(*2*) of the existing Act have for the same reasons not been included in the Bill.

Clause 490.

This clause corresponds to section 570 of the existing Act, but the wording has been altered so as to make it clear that by-laws, after they have been duly sanctioned and published, shall have the same force as law.

CHAPTER XXXV.

Clause 492.

This clause amalgamates the provisions of sections 574 and 575 of the existing Act for the sake of brevity and convenience. It seems to be unnecessary to have two separate sections containing a table, one dealing with maximum fines and the other with daily fines. Numerous alterations have also been made in the table consequential upon the re-arrangement of Chapters and the relegation of certain provisions to Schedules and by-laws; and several additions have been made to the table to cover certain existing as well as new provisions for which it has been thought necessary to provide a penalty. In regard to several entries in the table, it has also been thought desirable to make the punishment more severe by increasing the maximum amount of fine to be imposed.

Clause 495.

Sub-clause (*1*) reproduces section 578(*1*) of the existing Act, but the reference to "company, association or body of individuals" is omitted in view of the definition of "person" in section 3 (*32*) of the Bengal General Clauses Act, 1899. F of 1

Clause 496.

This clause reproduces section 579 of the existing Act, but clause 496(*a*) requires that the permission of the Commissioner mentioned therein must be in writing (*cf.* Schedule XVI rules 64 and 90). For the sake of convenience it is also proposed to include in the table, in clause 492 of the Bill, the penalties for offences against certain provisions which are at present included in section 579. The same remark also applies to sections 580 and 581 of the existing Act, which are not retained as separate clauses in the Bill, but have been provided for in clause 492.

CHAPTER XXXVI.

Clause 501.

Sub-clause (1) corresponds to section 586 (*1*) of the existing Act, but its provisions have been amplified so as to prescribe certain particulars which, it is proposed, should be specified in all licenses and written permissions.

Sub-clause (2) reproduces the provisions of section 586 (*2*) of the existing Act, with certain qualifications necessitated by the fact that the Bill in some cases provides for the charging of a fee while in others no such fee is chargeable.

The change in *sub-clause (4)* is consequential on the proposed establishment of a Buildings Appeals Committee.

Sub-clause (5) reproduces section 586 (*5*) of the existing Act with an alteration in the wording made in order to meet the suggestion that an order suspending or revoking a license can remain in force only for the period for which the license was granted, and that, on the expiration of that period, the licensee is entitled to renew his license, as a matter of right, in the ordinary course.

Clause 510.

Sub-clauses (2) and (3) introduce new provisions based on section 473 (*2*), section 501 (*2*) and other sections of the existing Act, which empower the Chairman to use necessary force in making an entry and provide that no claim for damages, caused by such entry, shall lie against him or any person acting under his orders. It has been considered more convenient to collect all these provisions in one place so as to make them apply generally to all entries which the Commissioner is empowered to make, except in such cases as are otherwise expressly provided for in the Bill.

Clause 512.

In the existing Act no penalty is provided for obstructing the Chairman in making an entry under the Act. This clause is intended to supply this omission, a penalty being provided in the table in clause 492.

Clauses 513 to 516.

These clauses correspond to sections 597 to 600 of the existing Act, but clause 514 introduces provisions requiring persons on whom a written notice has been served by any municipal authority to submit objections, if any, to the notice within a time now to be specified in the notice (under clause 513) itself.

Clauses 517, 518 and 519.

These clauses respectively correspond to sections 605, 606 and 607 of the existing Act, but do away with the approval by the General Committee or the Corporation which is at present required. It is proposed to allow the Commissioner to exercise the powers under these clauses without reference to the Corporation, and to provide for an appeal, in clause 518 (*2*), against a declaration by the Commissioner. The provisions of clause 518 have been made applicable also to rules and by-laws in view of the fact that several of the provisions of the existing Act have in the Bill been relegated to by-laws and Schedules. Clause 519 (*2*) makes the owner or occupier liable, but provides for the recovery by the occupier of any sum paid by him as improvement expenses. (*Cf. sections 315 and 612 of the existing Act.*)

Clause 522.

This clause corresponds to section 613 of the existing Act, but it is thought desirable, with a view to simplifying matters, that Receivers and other agents or trustees should obtain orders from the Court when in want of funds to fulfil any obligation under the municipal law.

Clause 523.

It is proposed in this clause to do away with the approval of the General Committee which is required by section 614 of the existing Act, but a proviso has been introduced requiring the previous sanction of the Corporation to payment by the Commissioner of any compensation exceeding one thousand rupees.

Clause 526.

This clause corresponds to section 617 of the present Act, but the exceptions mentioned in that section have, so far as they are necessary under the provisions of the Bill, been provided for in sub-clause (*2*).

Clause 529.

This clause corresponds to section 620 of the existing Act, but the wording has been altered so as to make it quite general in its application. It is on the lines of section 360 of the Bengal Municipal Act, 1884, and is intended to prescribe a general method of recovery of all moneys due to the Corporation except such as are otherwise expressly provided for in the Bill. Ben. of 1884

Clause 530.

In reproducing the provisions of section 621 of the existing Act, it is thought desirable to prescribe a definite period of limitation in respect of requisitions or orders made by written notice, since most of the proceedings under the existing Act are commenced by such notices.

Clauses 532, 533 and 534.

These clauses reproduce sections 623, 624 and 625 of the present Act, respectively. It is proposed, however, to include in these clauses a reference to the Chief Judge of the Court of Small Causes as well, and so render unnecessary the separate provisions contained in section 626 of the existing Act.

Clause 536.

Sub-clause (*1*).—It is desirable, in the interests both of the Hackney-Carriage Department and the owners of hackney-carriages, that offences against the Calcutta Hackney-Carriage Act, 1891, shall be triable by the Municipal Magistrate; and, in view of section 55(*1*) of that Act, it is considered necessary to have an express provision to this effect in the Bill. Ben. of 1891

Sub-clauses (*2*) *and* (*3*).—The payment of the salaries, etc., of Municipal Magistrates by the Corporation direct has sometimes been considered objectionable. It is proposed therefore to make provision, by these sub-clauses, for the payment of the Municipal Magistrates' salary and allowances by the Local Government, the Corporation contributing the required amounts to Government. Provision has also been made for the payment of the Municipal Magistrates' establishment.

Clause 539.

Sub-clause 1 (*b*) is new and is inserted for the purpose of fixing a date from which the prescribed period of limitation is to run in those cases in which it is not easy to determine exactly when an offence was committed, *e.g.*, offences committed within private premises. This provision is taken from section 353 of the Bengal Municipal Act, 1884. Ben. of 1884

Sub-clause (*3*).—Under the existing law an offending *bustee* owner frequently escapes prosecution under section 404, 405 or 408 by sending to the Chairman a written notice under section 419, which gives the owner a fresh period of six months, so that the ordinary period of limitation for prosecutions [*i.e.*, three months from the offence as provided by section 631(*1*)] expires in the meanwhile. This new sub-clause is intended to meet such cases, for it prescribes a fresh period of limitation of three months from the expiration of the six months allowed by section 419(*3*) of the present Act, which is reproduced in clause 374 (*3*) of the Bill.

Clause 541.

This clause merely reproduces the provisions of section 152 of the existing Act which, it is thought, finds a more suitable place here.

Clause 543.

Sub-clause (*1*) (c) is new and is taken from section 156 of the Calcutta Improvement Act, 1911. Ben of 191

Sub-clause (*2*).—It has sometimes been contended that the "right to sue," as referred to in section 634 (*2*) of the existing Act, does not accrue until after the service of the notice under section 634 (*1*), with the result that limitation is extended. The substitution of the phrase "cause of action" is designed to meet this contention.

CHAPTER XXXVII.

Clause 546.

This clause corresponds to section 637 of the existing Act, but introduces provisions empowering the Local Government to include in Calcutta areas forming part of other municipalities, notwithstanding the provisions of sections 9 and 9A of the Bengal Municipal Act, 1884. At present these two sections control the provisions of sections 636 and 637 of the Calcutta Municipal Act, 1899, with respect to the question of any such inclusion, and without the recommendation of the Commissioners of a municipality under section 9 of the former Act it is doubtful if any part of such municipality can legally be included within the Calcutta Municipality under section 637 of the latter Act. Sub-clause (*3*) of clause 546 of the Bill accordingly expressly excludes the application of sections 9 and 9A of the Bengal Municipal Act, 1884.

Ben. Act III of 1884.

Ben. Act III of 1899.

Ben. Act III of 1884.

Clauses 549 and 550.

Under sections 640 and 641 of the existing Act, the Local Government have the power to extend the Act, or any portion of it, to Howrah. It is proposed under the Bill to confer on the Government the same powers in respect of other neighbouring municipalities as well.

Clause 551.

Sub-clause (*2*).—As the Commissioner takes the place of the General Committee in exercising the power conferred by section 645 of the existing Act, it is thought desirable to provide for an appeal from orders issued by him in exercise of that power.

Clauses 554 to 556.

The position of these clauses in the Chapter has been changed in the general revision of the existing Act given effect to in the present Bill, but their substance remains unaltered.

Clause 561.

Sub-clause (*1*).—There are many references in other enactments (*e.g.*, in the Calcutta Improvement Act, 1911), to the Chairman of the Corporation, and it is necessary that those references should be construed as references to the Commissioner who will take his place. Similarly references to the Municipal Commissioners should be construed as references to the Councillors, and references to the existing Act or to any portion of that Act as references to the proposed new Act or its corresponding portions.

Ben. Act V of 1911.

Sub-clause (*2*) introduces provisions which are necessitated by the proposed abolition of the General Committee, whose powers and functions it is proposed to re-distribute between the Corporation and the Commissioner. (*See paras. V and VI of the Statement of Objects and Reasons.*)

Clause 562.

This clause is designed to save the application of prior enactments which are not intended to be affected by the Bill and are not specifically referred to therein. In the absence of such a saving clause it might be contended that the provisions of any prior enactment (*e.g.*, sections 57 and 88 of the Calcutta Improvement Act, 1911, or portions of the Indian Factories Act, 1911,) which are inconsistent with, or repugnant to, any of the clauses of the Bill, are repealed or otherwise affected by implication.

Ben. Act V of 1911.

Act XII of 1911.

SCHEDULE I.

The changes in this Schedule have been made at the instance of the Corporation.

SCHEDULE II.

Rule 1.

It is considered necessary that the table in Schedule II to the existing Act should be made more comprehensive, and with that object in view several new items have been added so as to enable the Corporation to tax trades and professions which under the existing law go free.

Rule 5.

This rule corresponds to rule 5 of existing Schedule II, but a modification has been made in the wording to make it clear that the license mentioned in the rule is to be taken out in respect of the business carried on in any place of business and not for the place of business itself.

Rule 8.

This rule corresponds to rule 8 of the existing Schedule II, but it now provides that where the business is carried on by the occupier of any place of business he, and not the owner of such place, shall take out the license.

Rule 11.

Sub-rule (2).—This sub-rule makes an alteration in the existing sub-rule (*2*) as it proposes to require the person who is directed to take out a license under a higher class (as provided therein) to take out such license not for the next following year but for the current year. It further provides for the refund of any sum paid by the person for any lower class license in substitution for which he is required to take out a license under a higher class.

Rule 13.

This rule corresponds to rule 13 of the existing Schedule, but two changes are made. In the first place, an appeal to the General Appeals Committee is provided in place of an appeal to a special Bench. Secondly, the right to appeal against an order made under proviso (*b*) to section 198 of the existing Act is taken away as it is considered that the making of such an order is of itself a matter of favour.

Rule 14.

This rule reproduces rule 14 of the existing Schedule II, with the addition of a proviso which will give the Corporation a month's time in which to deal with the petition from the date on which a notice of appeal to a Court of Small Causes is given under this rule.

SCHEDULES III AND IV.

Schedule III corresponds to Schedule III of the existing Act, but the ward boundaries have been considerably modified. Schedule IV is new and is necessitated by the proposed separate electorates for Mahomedan Councillors. *(See clause 48.)*

SCHEDULE V.

Rule 1.

This rule provides for the preparation of separate lists of ward-voters and Mahomedan voters, respectively. The proviso to this rule prohibits the inclusion of companies or other associations in the latter list in the first instance, but provision is made in rule 8 for the representation of any association on the Mahomedan list. (*See notes on clause 38.*)

Rule 8.

This rule requires that every association which has been included in the ward-voters' list shall authorize in writing one of its members to represent and vote for it, the name of such person being substituted for that of the association. Proviso (*a*) to sub-rule (*2*) will enable an association to be represented on the Mahomedan voters' list by choosing a Mahomedan as its representative, and proviso (*b*) sets out the procedure to be followed by the Commissioner in cases where more persons than one produce a written authority to vote for the same association.

Rule 9.

Sub-rule (*9*) empowers the Commissioner to expunge the name of any association from the ward-voters' list when no individual applies to be enrolled as the representative of such association.

SCHEDULE VI.

Rule 6.

Clause (*6*).—It is thought desirable that illiterate voters should be assisted by the polling-officer, but that officer should be required to maintain secrecy in regard to all votes polled in such circumstances. A provision to this effect has been inserted, and a sanction for breach of confidence has been inserted in clause 492.

SCHEDULE VII.

This Schedule corresponds to Schedule VIII of the existing Act, but separate provision has now been made in it for carriages propelled by mechanical power and electricity.

SCHEDULE VIII.

This Schedule corresponds to Schedule IX of the existing Act and is identical therewith save for the provision of a new fee, in the case of the owner or occupier of a market, for a license for the removal of offensive matter and rubbish from such market.

SCHEDULE IX.

This Schedule corresponds to Schedule X of the existing Act, and the changes made in it are trifling and purely consequential.

SCHEDULE X.

The form of warrant of distress provided by this Schedule reproduces the form contained in Schedule XI to the existing Act with such modifications as are necessitated by the proposed new provisions of clause 216.

SCHEDULE XI.

This Schedule is identical with Schedule XII of the existing Act and calls for no remarks.

SCHEDULE XII.

This Schedule is, save for two minor verbal alterations, identical with Schedule XIII of the existing Act.

SCHEDULE XIII.

Rules 1 to 6.

These rules reproduce the provisions of sections 256, 257, 258 (*1*) and 259 to 261, respectively, with such modifications as it seemed desirable to make the intention clearer. The table prescribing the size of ferrules set out in rule 4 reproduces the table in Schedule XIV to the existing Act, with an additional column prescribing a separate scale of ferrules for unfiltered water.

Rule 7.

This rule amalgamates the provisions of sections 262 and 263 of the existing Act and provides for prompt action by the Commissioner if a notice to repair defective fittings is not complied with within 48 hours.

Rule 8.

This rule corresponds to section 264 of the existing Act, but the Commissioner takes the place of the Engineer to the Corporation as it is proposed to transfer all purely executive functions to the Commissioner.

Rule 9.

This rule corresponds to section 274 of the existing Act, but as an error of two *per cent.* is rather a small margin to allow for meters in India, it is proposed to raise the permissible error to four *per cent.* This is provided for in sub-rule (*3*).

Rule 10.

This rule provides that, in calculating the amount to be paid under clause 256, double the rateable reduction should be allowed if a meter indicates more than four *per cent.* in excess of the correct quantity, and likewise prohibits any charge for excess consumption if the meter indicates more than ten *per cent.* in excess. It is also laid down in this rule that any reductions for incorrectness of the meter shall relate only to the quarter in which the occupier applies to have the meter tested under rule 9.

Rules 11, 12 and 13.

These rules reproduce the provisions of sections 275, 276(*1*) and 277 of the existing Act.

SCHEDULE XIV.

Rule 1.

This rule introduces provisions requiring every person who intends to construct or alter a house-drain to submit an application, with plans and specifications, to the Commissioner.

Rule 3.

This rule prescribes new measurements for the internal diameter of house-drains.

Rule 6.

This rule reproduces rule 5 of Schedule XV to the existing Act, but allows inlets to a house-drain to be made within the premises from the apparatus of connected-urinals or slop-sinks as well as from that of connected-privies. The reference to "water-closet" has been omitted as the proposed definition of connected-privy will include a water-closet.

Rule 7.

This rule corresponds to rule 6 of Schedule XV to the existing Act, but empowers the Corporation to impose fees for traps fixed in the foot-path or roadway.

Rule 8.

Sub-clause (7).—Here, as in rule 5 and for the same reasons, the reference to "water-closet" has been omitted and references to "connected-urinal" and "slop-sink" have been inserted.

Rules 9 and 10.

These rules reproduce the provisions of rules 8 and 9, respectively, of Schedule XV to the existing Act, but are made applicable to connected-urinals as well as to connected-privies.

Rule 11.

This rule introduces provisions for the suitable trapping of pipes for carrying off waste water in a new building.

Rule 12.

Government are advised that there is no valid reason for requiring, as rule 11 of Schedule XV to the existing Act does, that only Portland cement should be used in jointing house-drains. The proposed modification will permit the use of any other cement, provided it is of the proper standard.

Rule 14.

This rule reproduces section 305 of the existing Act, the provisions of which may now be more suitably included in this Schedule.

Rule 15.

This rule introduces provisions which make the owners of two or more premises liable for the maintenance, repair, cleansing, etc., of a house-drain which serves such premises jointly, and empowers the Commissioner to serve a requisition on the owners to carry out the work.

Rule 16.

This rule corresponds to section 322 (*1*) of the existing Act, but its application is limited to underground drains which are not municipal drains as it is not considered necessary to include in the Bill similar provisions for municipal drains. The provisions of sub-rule (*2*) are intended to strengthen the hands of the Commissioner.

Rule 17.

This rule reproduces the provisions of section 303 of the existing Act, but the rule now makes it clear that its application is limited to those drains only which are not municipal drains. The Commissioner may, under clause 271, carry any municipal drain under a building.

Rule 18.

This rule reproduces rule 13 of Schedule XV to the existing Act with the additional requirement that drain-pipes passing underneath a building must be made of iron or of some other similar material.

Rule 19.

This rule introduces provisions requiring persons who intend to construct or alter privies or urinals to submit an application to the Commissioner with the necessary plans and specifications.

Rule 20.

This rule empowers the Commissioner to refuse to grant permission for the erection of service-privies or urinals which he considers likely to be a nuisance.

Rule 21.

This rule reproduces rule 1 of Schedule XVI to the existing Act, but has been made applicable to service-urinals as well as to service-privies. Sub-rule (*3*) prohibits as a general rule the construction of such privies or urinals in the class of premises mentioned therein.

Rules 22 to 34 and 36 to 38.

These rules reproduce the provisions of rules 2 to 13, and rules 14 to 16, respectively, of Schedule XVI to the existing Act; but in the reproduced rules, whenever it has been considered necessary, provisions which apply to service-privies have been made applicable to service-urinals, and provisions which apply to connected-privies have been made applicable to connected-urinals.

Rule 35.

This rule is based on by-law No. 14 of the existing Municipal Drainage By-laws and provides for a syphon-trap and anti-syphonage pipe for every connected-privy and connected-urinal.

Rule 39.

This rule provides for an appeal against the orders of the Commissioner in the cases mentioned therein.

SCHEDULE XV.

This Schedule reproduces (with a few minor modifications) the provisions of sections 339, 340 and 344 to 349 of Chapter XXIII of the existing Act, which it is thought, may more suitably be transferred to a separate Schedule. It is proposed to vest the executive functions of the General Committee under these sections in the Commissioner. Provision for appeal from certain orders of the Commissioner under the Schedule as revised has been made in Rule 9.

SCHEDULE XVI.

Rule 1.

Clause (*4*) reproduces rule 1 (*4*) of Schedule XVII to the existing Act, with a new provision the effect of which will be that the owner will have to satisfy the Commissioner that he will drain the site, when such a course is considered necessary, before the erection of a building.

Rule 2.

Sub-rule (*2*) empowers the Commissioner to charge a maximum fee of 10 rupees for a certificate granted by him as to the correctness of the plans of a previously existing building on the site of which a new building is to be erected. It is necessary to make a careful survey before such a certificate can be granted, and it is only right that a fee should be levied.

Rule 3.

Proviso (*i*) modifies the provisions of proviso (*i*) to rule 2 of Schedule XVII to the existing Act. This modification has been recommended by a Committee of experts (to whom the revised draft of the Schedule was submitted) who were of opinion that the fact that two streets meet should not affect the height of buildings situated in either of them.

Proviso (*ii*) provides for a case which is not dealt with anywhere in the existing Act. It is obviously undesirable that a building at the end of a street should be allowed to be erected to any height irrespective of the width of the street. The effect of this proviso will be to place such a building in the same category as buildings situated at the side of a street.

Sub-rule (*4*) limits the "return-front" of a building to 40 feet which was the former limit. It also makes the very necessary provision that the height on the narrower street shall not exceed the height permissible on the wider street.

Sub-rules (*5*) *and* (*6*), read with rule 3(*3*), make the width of streets in which two-storeyed buildings are permissible 16 feet instead of 12 feet, as under the existing rules. A width of 12 feet is considered inadequate for a two-storeyed building. It is also intended to provide for the setting back of buildings with reference to a centre line in narrow streets. The existing rules permit the zig-zag widening of a street which is of very little value and also allow the owner of a site abutting on a street which has not been built upon to benefit at the expense of the owner of the opposite site who builds first.

Rule 5.

This rule introduces the very necessary and desirable provision that for public safety all buildings of three or more storeys, all public buildings and all buildings of the warehouse class should be provided with sufficient and proper means of escape for use in the event of fire breaking out in such buildings.

Rule 6.

This rule, which prohibits the erection of certain buildings within six feet of a service-privy or service-urinal, is in effect a sanitary regulation and should be read together with the provisions of rule 21(*2*) of Schedule XIV of which it is the converse.

Rule 7.

This rule reproduces the provisions of section 368 of the existing Act. The reference to the area added by the Calcutta Municipal Consolidation Act in sub-section (*4*) of that section has been omitted as being no longer necessary.

Rule 18.

The new definition of "building" includes boundary walls more than eight feet in height. In some cases, however, it is necessary, in order to secure the privacy of a building, to allow boundary walls to be built to a greater height than eight feet. This rule is intended to provide for such a case.

Rule 19.

This rule reproduces the provisions of section 380 of the existing Act.

Rule 20.

This rule corresponds to section 381 of the existing Act, but introduces a new provision based upon the City of Bombay Municipal Act, 1888, which requires that the licensed building surveyor or other competent person employed to supervise the erection of a building shall send a "building completion certificate", in the prescribed form to the Commissioner. Bom. Act II of 1888.

Rules 21 and 22.

These rules correspond to sections 382 and 383 of the existing Act, with certain minor modifications.

Rule 23.

This rule corresponds to rule 17 of Schedule XVII to the existing Act, with an alteration in the wording intended to have the effect of preventing the open space within the site of a dwelling-house from being taken as part of the site of another building at any future time.

Rule 25.

This rule corresponds to rule 20 of Schedule XVII to the existing Act, with modifications intended to provide better ventilation for rooms in domestic buildings by means of doors and windows. Provision is also made for ventilating openings near the ceiling and power is given to the Commissioner to relax the rules as to the height and superficial area of such rooms in particular cases.

Rule 29.

This rule corresponds to rule 21 of Schedule XVII to the existing Act, but a new principle is introduced for determining the minimum area of court-yards of dwelling-houses. The proviso to sub-rule (*4*) empowers the Commissioner to relax the provisions of the sub-rule in cases in which two-thirds of the site are left vacant, and the phrase "opposite face of the house" has been explained in sub-rule (*5*). Sub-rule (*6*) is taken from the London Building Act and allows some relaxation of the court-yard angle in certain circumstances. 57 & 58 Vict. c. ccxiii, s. 45.

Rule 30.

The wording of rule 22 of Schedule XVII to the existing Act has been recast and the rule has been modified so that when there are two or more buildings on one site, back space must be left at the rear of each building. This is obviously necessary, particularly as it frequently happens that such buildings are ultimately separately occupied. The principle adopted in rule 3 (*5*) and (*6*) in respect of the street angle has also been incorporated in rule 30 (*4*).

Rule 32.

Sub-rule (2) corresponds to rule 24(*2*) of Schedule XVII to the existing Act, but a new provision is introduced which requires that the minimum width of the open space at the side of a building shall be increased for every storey after the second. It is also provided that the distance between two adjacent buildings must in every case be at least six feet.

Rules 35 and 36.

These rules introduce provisions intended to ensure that an open space prescribed for a building under the building rules shall permanently remain as such and form part of the site of the building, and shall not include land which is to be acquired by, or made over to, the Corporation or which at any future time is to be taken as part of the site of another building.

Rule 38.

The effect of this new rule will be to prevent the use of a newly-erected building (other than a hut) as a dwelling-house until it is certified to be fit for human habitation.

Rule 42.

This rule reproduces the provisions of rule 29B of Schedule XVII of the existing Act, with an alteration in the wording which makes it clear that the open space required by this rule must be an additional open space.

Rule 53.

This rule corresponds to section 369 of the existing Act.

Rule 54.

This rule corresponds to section 370 of the existing Act, with the provisions so modified as to require only one application (coupled with a site-plan) to be sent to the Commissioner for the erection of a building, and not, as under the existing law, a separate application for approval of the site.

Rule 55.

This rule amalgamates the provisions of rules 30 and 31 of Schedule XVII to the existing Act in view of the changes in rule 54, as a result of which only one application will henceforward be necessary.

Rule 56.

This rule reproduces the provisions of rule 33 of Schedule XVII to the existing Act, but makes the additional requirement that all plans, etc., submitted under rule 54, should also be signed by the licensed building surveyor who prepares them.

Rule 57.

This rule (which explains itself) introduces new provisions based on section 344A of the City of Bombay Municipal Act, 1888. Bom. Act III of 1888.

Rule 58.

This rule corresponds to rule 34 of Schedule XVII of the existing Act, but the provisions of sub-rule (*2*) of that rule have not been included as it is not proposed to require, under the Bill, an application for approval of a site.

Rules 59 to 61.

These rules correspond to sections 374, 376 and 377 of the existing Act, respectively, with certain modifications. Rule 59 provides for conditional sanctions to meet cases in which the owner undertakes to carry out some work required by the rules, but cannot do so until such work is actually commenced or completed. By clause (*3*) of rule 61 it is proposed to empower the Chairman to refuse permission for the erection of a new building in cases in which such building falls within the street alignment or building-line of a street projected under the Calcutta Improvement Act and the permission of the Chairman of the Improvement Trust for the erection of the building has not been obtained [*See also rule 88* (*3*).] Ben. Act V of 1911.

Rule 63.

This rule reproduces the provisions of section 375 of, and of rule 36 of Schedule XVII to, the existing Act, with certain modifications.

Rules 64 and 65.

These rules reproduce the provisions of sections 372 and 378 of the existing Act, respectively.

Rule 66.

Sub-rule (*1*) corresponds to section 379 of the existing Act, but it is thought desirable to provide that a permission to erect a building is to

be considered to have lapsed unless a substantial portion of the building has been completed within one year from the date on which its erection was sanctioned. Under the existing law an owner sometimes lays the foundation of a building, or part of it, within one year and then abandons the work indefinitely. It is then contended,—perhaps several years later when the conditions have possibly changed materially,—that the sanction has not lapsed; and it is then difficult to ascertain whether the building was actually commenced within a year from the date of sanction or not.

Sub-rule (2) enables an owner within one year from the date on which permission to erect a building was given to obtain a certificate to the effect that a substantial portion of the building has been constructed.

Sub-rule (3) introduces provisions which will cause the permission to erect a masonry building granted before the commencement of the existing Act to lapse if the building has not been completed when the present Bill becomes law. Such a provision seems eminently reasonable seeing that ample time has elapsed since the 1st April, 1900, to allow of the erection of all buildings sanctioned before that date, and the building rules have, moreover, changed materially since then.

Rule 67.

This rule introduces provisions which are much needed, especially in such cases as when an owner misrepresents the boundaries of his land and includes in the site of his proposed building land which belongs to another person.

Rule 68.

This rule corresponds to rule 37 of Schedule XVII to the existing Act, but a new sub-rule has been added empowering the Commissioner to prescribe alignments for huts on any vacant land if he is of opinion that huts are likely to be erected on such land. The object of this rule would, to a great extent, be frustrated if alignments could not be prescribed until after the huts are erected.

Rule 76.

This rule introduces provisions which prohibit the placing of a hut used for human habitation within six feet of a cow-house, cattle-shed or stable, and is intended to prevent occupiers of a hut from using a part of it as a cow-house, cattle-shed or stable.

Rule 79.

This rule corresponds to rule 46 of Schedule XVII to the existing Act, but prescribes that the floor of a hut must be of some impermeable material. It is thought highly desirable on sanitary grounds to improve the structure of huts in Calcutta.

Rule 80.

This rule reproduces the provisions of rule 46A of the existing Schedule XVII, but further prescribes the minimum opening to be provided by windows in every room in a hut.

Rules 82, 86 87 and 88.

These rules correspond to sections 384, 386, 388 and 389, respectively, of the existing Act, with certain modifications. The provisions of those sections deal with applications for permission to erect huts, as well as the granting or refusal of such applications, and may conveniently be incorporated in this Schedule.

Rule 85.

This rule empowers the Commissioner to employ a licensed building surveyor to prepare plans for a hut on behalf of any person who applies to him. This rule, it is hoped, may result in the protection of ignorant and illiterate persons from incompetent or unprincipled plan-makers.

Rules 90 and 91.

These rules respectively reproduce the provisions of sections 385 and 390 of the existing Act which relate to the erection of huts without written permission and the lapse of such permissions.

Rule 93.

This rule is intended to provide against a serious evil which the existing law cannot prevent. Additional storeys may, under the law as it stands at present, be added to existing structures which infringe the building rules, thereby making them more insanitary than before.

Rule 96.

This rule provides for an appeal to the Buildings Appeals Committee against any notice issued or order made by the Commissioner under this Schedule. It is thought desirable that, if a special Buildings Appeals Committee is constituted on the lines laid down in clauses 10 and 16 of the Bill, an appeal should lie to it against all orders of the Commissioner under this Schedule.

SCHEDULE XVII.

Rules 1 to 6.

These rules reproduce the provisions of sections 439 to 443, and section 446, of the existing Act, respectively, with certain minor alterations.

Rule 7.

Sub-rule (1).—The provisions of sub-section (*1*) of section 447 of the existing Act have been somewhat amplified by the inclusion therein of pools, ditches, etc., which the Commissioner may require to be treated in the same way as wells, tanks, etc., which have hitherto been dealt with under section 447 (*1*). The Commissioner is further empowered to take steps to prevent any such place from becoming a nuisance or a menace to public health. A similar provision (having direct reference to the destruction of breeding-places for mosquitoes) is to be found in section 381 of the City of Bombay Municipality Act, 1888, as amended by Bombay Act VI of 1913.

Rule 8.

This rule reproduces the provisions of section 448 of the existing Act with certain minor modifications.

Bom. Act III of 1888, s. 381, as amended by Bom. Act VI of 1913.

Rule 9.

By this rule it is proposed to allow an appeal to the General Appeals Committee from certain notices issued, and action taken, by the Commissioner under this Schedule.

SCHEDULE XVIII.

This Schedule is similar in almost all respects to the corresponding Schedule of the existing Act. It will be observed, however, that it is proposed to allow cotton which has been pressed into bales to be stored in unlicensed premises and that two or three additions (*e. g.*, grain, steel and tobacco) have been made to the list in clause (*8*) of the Schedule.

SCHEDULE XIX.

This Schedule corresponds almost exactly to Schedule XIX of the existing Act. The changes made in the column headings are purely verbal.

SCHEDULE XX.

This Schedule is identical with the corresponding Schedule XX of the existing Act, except that some verbal changes have been made in the column headings.

SCHEDULE XXI.

This Schedule almost exactly represents the corresponding Schedule XXI of the existing Act, the changes made being purely formal.

SCHEDULE XXII.

As it is proposed in the Bill to abolish the General Committee, it becomes necessary to prescribe how the references to that body in the Calcutta Improvement Act, 1911, are to be construed. This Schedule will provide the simplest method of effecting the end in view.
